CAREER FITMENT ASSESSMENT · CLASSES 6–12

Career Fitment Handbook

2026–27 Edition

Know Yourself. Choose Your Path. Build Your Future.

A comprehensive career guidance and student development handbook for Classes 6–12.

CONTENTS

What's inside this handbook.

Getting started 3

Start here 3
Our partners and collaborations 4
Our international scientific committee 5
Activity 1: Predict yourself 6
Activity 2: The 2-minute interest quiz 7

01 Meet OneGrasp 8

What is OneGrasp? 9
Your journey with OneGrasp 10
Why career choices go wrong 11
The future of work 12
Real schools, real students 13

02 The Assessment 14

What is a psychometric assessment? 15

NAME	CLASS / YEAR	SCHOOL OR COLLEGE	ASSESSMENT DATE

Your route through this book

This is a do-it book. You don't need to read it in order. Follow the four stages below and go straight to the page shown.

1 Before the test

- Do Activity 1 and 2 — p. 6
- Read how the test works — p. 15
- Get ready for test day — p. 18

2 After your report

- Learn the 8 dimensions — p. 16
- Read your report — p. 35
- Do the Reality check — p. 44

3 Every week

- Use your dashboard tools — p. 48
- Finish the mission cards — p. 51
- Follow the 30-day challenge — p. 112

4 Parents and teachers

- Guide, not decide — p. 106
- Ten questions to ask — p. 107
- For schools — p. 108

Signs you'll see on the pages

IN SIMPLE WORDS
The idea in plain words.

EXAMPLE
A real situation.

TRY THIS
A small action this week.

YOUR TASK
A mission to tick off.

FOR PARENTS
Advice for parents.

CAUTION
Mistakes and scams to avoid.

TRUSTED WORLDWIDE

Our partners and collaborations.

Before you turn the page: these are the international organisations, schools, platforms and scientists who work with OneGrasp.

International collaborations

- Crossref — DOI registration
- DOI 10.65838 — Permanent citable links
- PACE Council — CPD accreditation
- Journal Citation Index — Citation indexing
- IntelliMindEd — Academic partner
- metaSpectra — Indexing partner
- RMetaHub — Indexing partner
- KVRSS Group — Partner

Schools that chose OneGrasp for their students

- Sree Shanthinikethan English Medium School
- Delhi Public School
- Oxford Grammar High School
- Excellencia Junior College

ACTIVITY 1 · 10 MINUTES

Predict yourself.

Before you take the assessment, guess your own results. Then ask a parent to guess too. After your report arrives, turn to page 44 and see who knows you best.

DIMENSION	MY GUESS	PARENT'S GUESS ✎
Personality type Circle one in each pair	E · I S · N T · F J · P	
Interest code Circle your top 3	R Doing I Thinking A Creating S Helping E Leading C Organising

_____

_____

My dream career

_____

How well will it fit? Circle

Below 45% 45–64% 65% +

Seal your prediction

Don't change it after the test. That's the fun.

DATE _____

MY SIGNATURE _____

PARENT'S SIGNATURE _____

ACTIVITY 2 · 2 MINUTES

The 2-minute interest quiz.

Tick every activity you'd **enjoy**, even if you've never tried it. Then count your ticks for each letter. A fun warm-up, not the real assessment.

☐ Fixing a bicycle or gadget (R)	☐ Solving a tricky puzzle (I)	☐ Drawing, designing or decorating (A)
☐ Teaching a friend something (S)	☐ Leading a team or a club (E)	☐ Making a neat plan or timetable (C)
☐ Building a model or a robot (R)	☐ Finding out how something works (I)	☐ Writing a story or making a video (A)
☐ Helping someone who is upset (S)	☐ Convincing people to agree with you (E)	☐ Keeping accounts or records (C)
☐ Working outdoors with plants or animals (R)	☐ Doing a science experiment (I)	☐ Playing music, dancing or acting (A)
☐ Volunteering for a good cause (S)	☐ Selling something or starting a small business (E)	☐ Organising files, notes or a cupboard (C)

Count your ticks

R	I	A	S	E	C
Realistic	Investigative	Artistic	Social	Enterprising	Conventional

My quick code (top 3 letters)

Later, compare it with the interest code in your real report.

LETTER	CAREERS PEOPLE WITH THIS LETTER OFTEN ENJOY
R	Engineer, pilot, chef, architect, farmer
I	Doctor, scientist, data analyst, programmer
A	Designer, writer, filmmaker, UX, architect
S	Teacher, nurse, psychologist, social worker
E	Entrepreneur, lawyer, manager, marketer
C	Chartered accountant, banker, analyst, administrator

01

PART 01

Meet OneGrasp

Who we are, what we do, and why we built a career assessment that looks far beyond marks.

IN THIS PART

01 What is OneGrasp? 9

02 Your journey with OneGrasp 10

03 Why career choices go wrong 11

04 The future of work 12

05 Real schools, real students 13

ABOUT US

What is OneGrasp?

OneGrasp Education Pvt. Ltd. is an education company based in Hyderabad, India. We help students, families, professionals and institutions make better decisions about learning and work.

IN SIMPLE WORDS

OneGrasp is like a **GPS for your career**. First it finds where you are today (your strengths, interests and personality). Then it shows the roads that suit you, and finally it gives you turn-by-turn directions: subjects, exams, colleges, skills, money and jobs.

6–12 classes covered

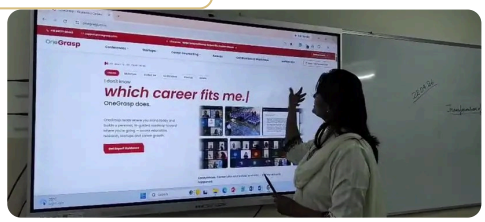

8 dimensions

20+ dashboard tools

> Every student is good at something. A career assessment should never label a child. It should show where they will thrive, what to try next, and how to get there with honest facts about exams, colleges, costs and jobs.

Our belief

Career guidance in a partner school

What makes OneGrasp different

Built on science

Well-known frameworks: personality type, Holland's RIASEC interests, Gardner's intelligences, emotional intelligence and reasoning aptitude.

Written for each age

Questions and a report written for each class, from Class 6 to Class 12.

A plan, not just a PDF

The report opens a dashboard of lessons, tools and weekly tasks, so it never sits in a drawer.

Facts you can check

Every exam, scholarship and funding programme links to its official source.

ROADMAP

Your journey with OneGrasp.

One assessment starts a journey that lasts all through school. This is the route the whole handbook follows, part by part.

01 Take the assessment
About 90 minutes, online. Part 2 shows every screen.

02 Read your report
Your 8 dimensions and best-fit careers. Parts 3 and 4.

03 Open your dashboard
Your report becomes tools you use. Part 5.

04 Build life skills
Money, rights, AI, speaking, resumes. Part 6.

05 Act and track
30-day challenge, plans and trackers. Part 10.

06 Create and publish
Startups, research and conferences. Parts 7 and 8.

07 Talk it through
Parents and schools guide, not decide. Part 9.

Three stages, three different reports

Class 6–8
Discover: explore broadly and notice what you enjoy.

Class 9–10
Choose a stream with evidence, not guesswork.

Class 11–12
Choose exams, degrees and colleges, and plan for them.

IN SIMPLE WORDS

Think of it like a GPS: the assessment finds where you are, the report shows possible destinations, and the dashboard gives turn-by-turn directions.

FOR PARENTS

Re-taking the assessment at each stage shows how your child is growing. Part 3 ends with a page to record results over the years.

WHY IT MATTERS

Three traps that decide too many careers.

Ask ten adults why they chose their career and many will say “I didn't really choose.” These are the three most common traps.

TRAP 1
Marks

“You scored 95 in maths, so take engineering.”

Marks show how you did in an exam. They do not show what you enjoy, how you work, or what you will want to do for 30 years.

TRAP 2
Peer pressure

“All my friends are taking MPC.”

Your friends have different strengths and dreams. Following the crowd feels safe today and costly later.

TRAP 3
Guesswork

“My cousin did B.Com, so…”

Most families know only a handful of careers. With 930 careers in our library, guessing means missing most of your options.

What a better decision looks like

OLD WAY	ONEGRASP WAY
Choose by marks	Choose by fit: interests + strengths + aptitude
Follow friends	Follow your own profile
Know 5 careers	Explore 930 careers
Decide once, alone	Decide in steps, as a family
Hope it works	Test it first: Test-Drive, internships, projects

IN SIMPLE WORDS

A good career fit is where three circles overlap: **what you enjoy** (interests), **what you are good at** (strengths and aptitude) and **what the world needs and pays for** (real careers). The assessment finds the first two; the dashboard shows you the third.

FOR PARENTS

Your experience matters, and so does your child's profile. Use the report as a shared, neutral starting point for the conversation.

THE NEXT DECADE

The world of work is changing fast.

AI is taking over routine tasks. The World Economic Forum's *Future of Jobs Report 2025* shows which skills and jobs are rising, and which are fading.

Skills employers want most

01 Analytical thinking
02 Resilience, flexibility and agility
03 Leadership and social influence
04 Creative thinking
05 Motivation and self-awareness
06 AI and big data

Source: World Economic Forum, Future of Jobs Report 2025. None of these skills shows on a mark sheet.

Fading or automating

- Cashiers and ticket clerks
- Administrative assistants and secretaries
- Postal service clerks
- Bank tellers and routine banking clerks
- Data entry and manual bookkeeping
- Scripted telemarketing and call-centre work
- Repetitive assembly-line and sorting work
- Generic content writing without expertise

Rising and future-proof

AI & Machine Learning
The biggest skill multiplier of the decade.

Big Data & Analytics
One of the fastest-growing job groups worldwide.

Cybersecurity
Protecting systems and data: a permanent, growing need.

Green & Climate Tech
Renewables, EVs and sustainability engineering.

Healthcare & Biotech
Ageing populations and genomics keep demand rising.

Fintech
Digital payments and banking technology.

Robotics & Automation
Designing machines that automate physical work.

Creative × Tech
UX, product, content and design.

Care Economy
Health support, elder care, community health.

EdTech & Education
Teaching and training remain in steady demand.

IN SIMPLE WORDS

Jobs that mix **human judgement** with **technology** are the safest. That is why the assessment measures how you think, learn, feel and relate to people, not just what you know.

OUR WORK IN SCHOOLS

Real schools. Real students.

Moments from Career Fitment Assessment days at Oxford Grammar High School, Sree Shanthinikethan English Medium School and Excellencia Junior College.

Orientation session

Students in the session

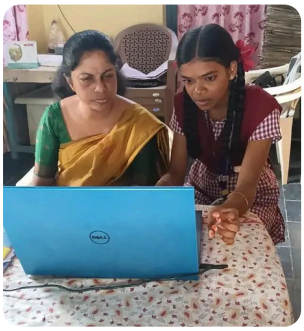

Assessment in the lab

Our counsellors on campus

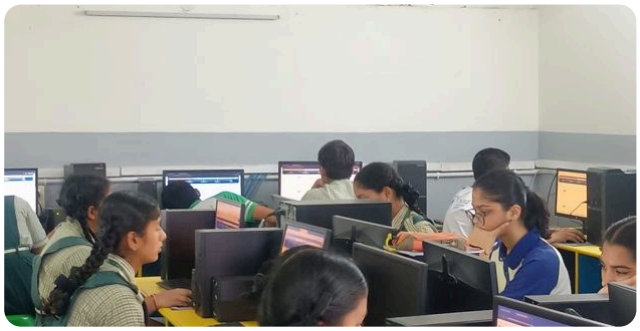

Explaining the report

One-to-one session

Reading the report together

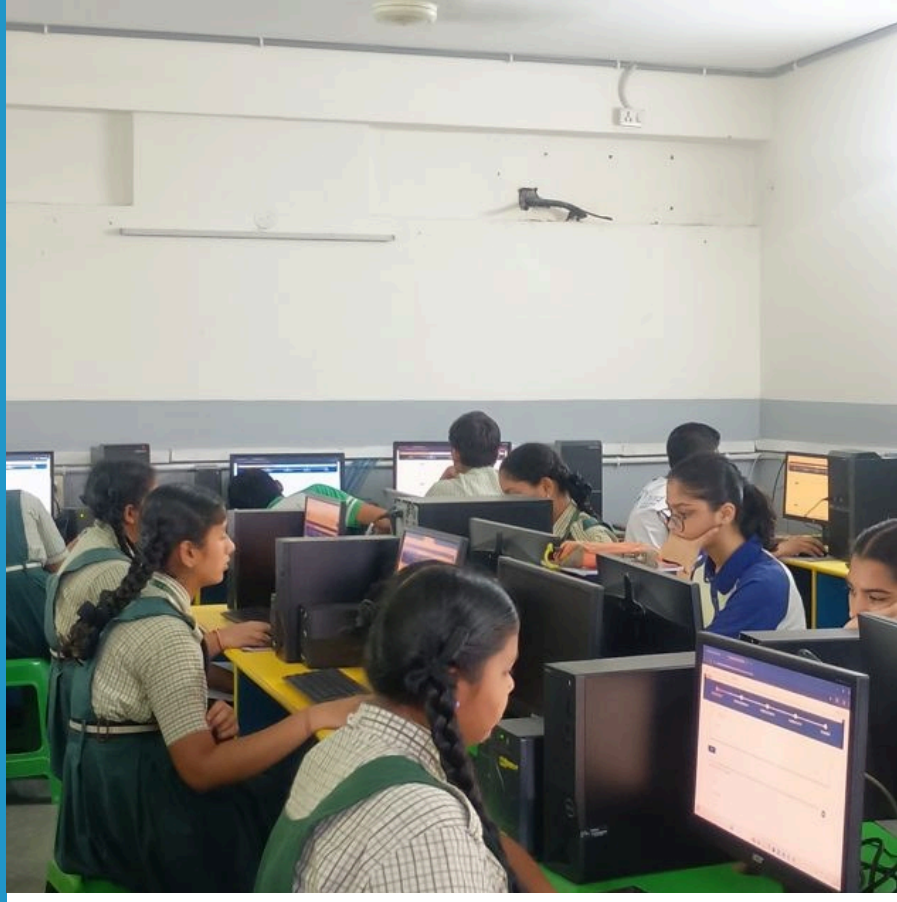

Taking the assessment

02

PART 02

The Assessment

What the Career Fitment Assessment is, who it is for, the science behind it, and exactly how to take it, screen by screen.

IN THIS PART

01 What is a psychometric assessment? 15

02 What we measure: the 8 dimensions 16

03 The science behind every question 17

04 Before you begin 18

05 Registering, step by step 19

06 Inside the exam screen 20

07 Six kinds of questions 21

08 Built to be trusted 22

09 After you finish 23

THE TEST

Is it just another exam?

No. A psychometric career assessment is a structured set of questions that looks beyond marks to understand how you think, what interests you, and where your natural strengths lie.

IN SIMPLE WORDS

Psycho means mind and **metric** means measure. A psychometric assessment measures parts of your mind that an exam does not: your preferences, interests, feelings and ways of thinking. Think of it as a **mirror**, not a **marksheet**.

How it works

01 — You answer
Short, everyday questions: what would you do in this situation, what do you enjoy, how do you like to learn.

02 — We read your answers
Through well-established psychology frameworks, and turn them into a picture of you.

03 — We match
That picture is matched against hundreds of careers.

04 — Your report explains
Which fields fit you best, and why.

Mirror, not marksheet

✕ A SCHOOL EXAM		✓ THIS ASSESSMENT	
Tests what you studied	Right or wrong answers	Explores who you are	Mostly no right answers
Gives a mark	You can fail	Gives a profile	You can't fail
Same for everyone	Ends with a result	Written for your age	Starts a plan

EXAMPLE

Two students both score 90% in Class 10. One loves taking machines apart and solving puzzles alone; the other loves debating and organising school events. Same marks, very different best-fit careers. Marks could not tell them apart. The assessment can.

GOOD TO KNOW

Only the **Aptitude** section has right answers, like a reasoning test. Everything else is about you, so the only wrong answer is a dishonest one.

What you get back

Your profile
Your results across 8 dimensions on one page.

Best-fit careers
Top career areas, each with a fit %.

A roadmap
Subjects, exams, degrees, skills and jobs, step by step.

A dashboard
20+ tools to act on it, all year.

WHAT WE MEASURE

The 8 dimensions. One complete you.

01 Personality
How do I naturally work and decide?

02 Career Interests
What kind of work excites me?

03 Multiple Intelligences
In which ways am I smart?

04 Emotional Intelligence
How well do I handle feelings and people?

05 Learning Style
How do I prefer to study?

06 Motivators
What drives me?

07 Strengths
What do I naturally contribute?

08 Aptitude
How quickly can I pick up new skills?

How the eight work together

Who you are
Personality and Emotional Intelligence describe how you work, decide and get on with people.

What pulls you
Career Interests and Motivators show the work that excites you and why you keep going.

How you think
Multiple Intelligences and Learning Style show the ways you are smart and how you learn.

What you can do
Strengths and Aptitude show what you naturally give and how fast you learn a field's skills.

IN SIMPLE WORDS

No single dimension decides your career. The best-fit careers are where **several dimensions agree**: for example, an Investigative interest + a Logical intelligence + a strong Numerical aptitude all point toward science and data.

THE SCIENCE

Built on frameworks psychologists trust.

Every dimension is read through a model that has been studied and used for decades. Here is what sits behind each part of your report.

01 Personality
Personality-type preferences (MBTI-style): introvert–extravert, sensing–intuition, thinking–feeling, judging–perceiving.
Carl Jung's types; Myers & Briggs

02 Career Interests
Holland's RIASEC model: Realistic, Investigative, Artistic, Social, Enterprising, Conventional.
John L. Holland, 1959

03 Multiple Intelligences
Eight ways of being smart: linguistic, logical, spatial, bodily, musical, interpersonal, intrapersonal, naturalistic.
Howard Gardner, 1983

04 Emotional Intelligence
Self-awareness, self-management, social awareness and relationship management.
Salovey & Mayer; Goleman

05 Learning Style
Preferences for seeing, hearing, reading/writing and doing.
VARK-style preference models

06 Motivators
Work values: achievement, learning, mastery, security, leadership, social impact, autonomy, creativity.
Work-values research

07 Strengths
Eight strength domains, using forced-choice situations.
Strengths-based psychology

08 Aptitude
Verbal, numerical, abstract, spatial and logical reasoning, plus data.
Standard reasoning tests

IN SIMPLE WORDS

A **framework** is a well-tested way of describing people. It means the same answers always give the same result, and every result can be explained in plain words. Each dimension has its own page in Part 3.

PREPARE

Before you begin.

No studying is needed. A calm hour and an honest mind are all it takes. Use this page the day before.

Your checklist

- [ ] A laptop (easiest), tablet or phone, charged
- [ ] A stable internet connection
- [ ] Up to 90 minutes in a quiet place, in one sitting
- [ ] Your login email and password, or your school's link
- [ ] Class 11–12: your stream and the career you're aiming for
- [ ] Headphones, if you want questions read aloud
- [ ] Water, and notifications switched off

Answer as you really are, not as you think you should be.

There are no good or bad results, only better fits. If you answer the way a parent, teacher or friend would like, the report will describe them, not you.

If two options both feel true, pick the one that is true **more often**.

Good habits during the test

Trust your first reaction

Your first honest answer is usually the most accurate. Don't overthink.

Skip, then return

Not sure? Tap Next and come back using the navigator.

Focus on aptitude

It's the only part with right answers. Read each question fully.

Take a break if needed

Tap Save Progress. You'll resume with the same questions and time.

FOR PARENTS

Please let your child answer alone. Sitting beside them changes their answers. You'll read the report together afterwards (Part 8).

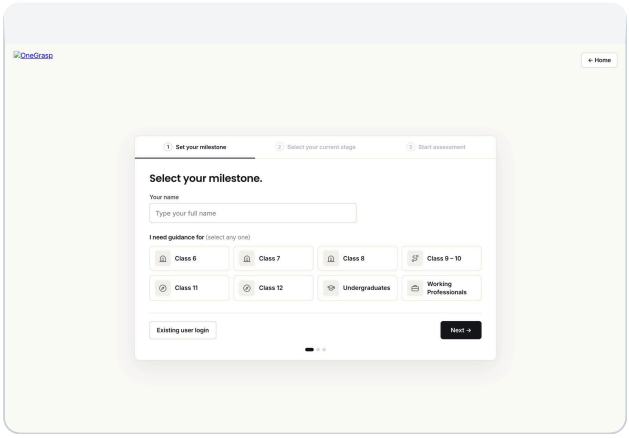

FOR TEACHERS

Run the test in a calm lab session. Remind students there are no marks and no ranking: that single sentence improves honesty.

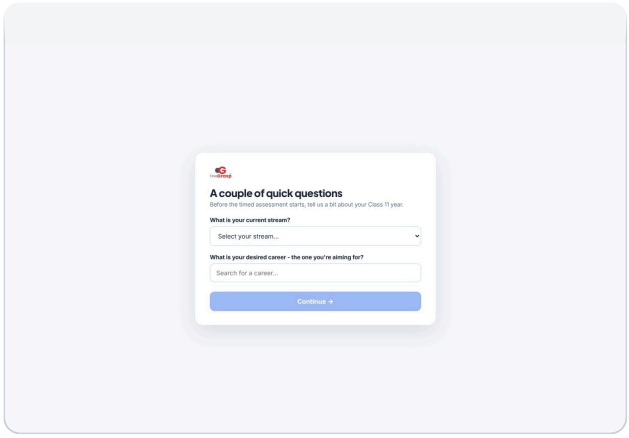

GETTING IN

Registering, step by step.

Registration takes about two minutes. Students can sign up themselves, or join through their school or college link so the institution can follow their progress.

Step 1. Enter your name and pick your class or stage.

Step 4. Class 11–12: your stream and dream career.

01

STEP 1

Set your milestone

Go to careerfitment.onegrasp.com, enter your name and pick your class: 6, 7, 8, 9–10, 11, 12.

02

STEP 2

Set your stage

Say how sure you are today: no idea · confused · a bit sure · sure but need a plan.

03

STEP 3

Create your login

Your email and password are your login for your report and dashboard.

04

STEP 4

Quick questions

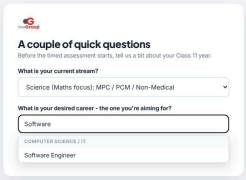

Class 11–12 students pick their stream and dream career. These tailor your report.

05

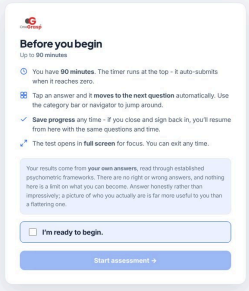

STEP 5

Start

Read “Before you begin”, tick the box and start. The test opens in full screen.

Start typing a career and pick it from the list.

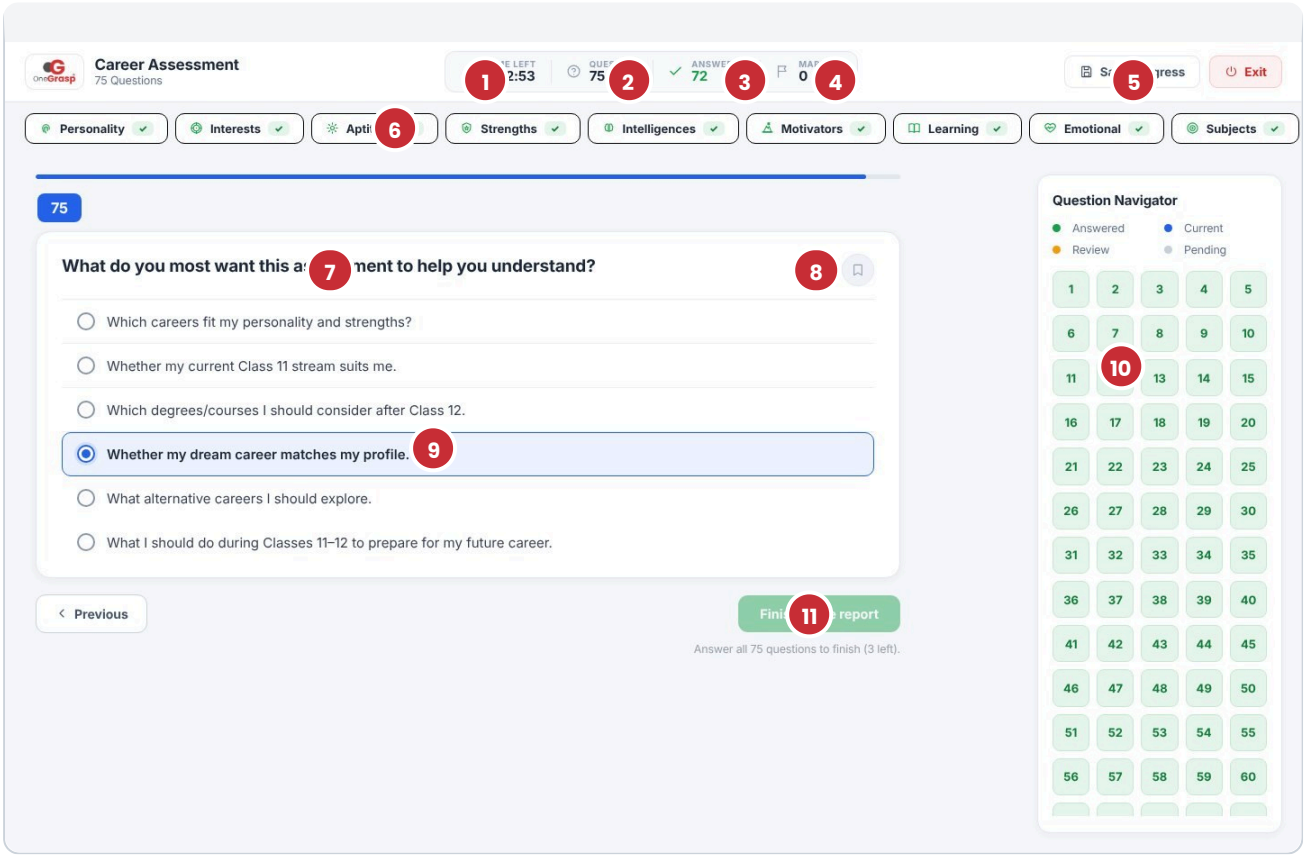

Step 5. Read the instructions, then start.

THE EXAM SCREEN

Everything on one screen.

The exam shows one question at a time. Everything you need stays in view. Match the numbers on the screen to the list below.

1 Time left
A 90-minute timer; it auto-submits at zero.

2 Question
Which question you're on, out of the total.

3 Answered
How many you've done.

4 Marked
Questions you flagged to review.

5 Save / Exit
Save and come back later with the same questions and time.

6 Section bar
Jump between dimensions; a tick means done.

7 The question
One question at a time, in plain words.

8 Read aloud
Hear the question read out.

9 Options
Tap one; it saves instantly.

10 Navigator
Green answered · blue current · amber review · grey pending.

11 Finish
Opens when every question is answered.

IN SIMPLE WORDS

You cannot get lost: the navigator on the right always shows which questions are still grey. Tap a grey tile, answer it, and the **Finish & see report** button turns green.

QUESTION TYPES

Six kinds of questions.

Most questions take a few seconds. Here is what each type looks like on screen, and how to answer it well.

Situation · most like me

You get a difficult problem with no standard method. What do you do first?

- ○ Think independently
- ◉ Find similar examples
- ○ Discuss with others

Pick the one that sounds most like you, not what you'd ideally do.

Scale · 1 to 10

How comfortable are you making a big decision on your own?

1 2 3 4 5 6 **7** 8 9 10

Use the whole scale. 5 is not a "safe" answer.

Pick up to three

Which areas are you considering?

Engineering × Computer Science × Design ×

Add another... ▾

Search the list; tap × to remove a pick.

Dropdown

Which subject do you enjoy the most?

Physics ▾

Choose honestly. It shapes your subject advice.

Aptitude · one best answer

2, 6, 12, 20, 30, ?

- ○ 40
- ◉ 42
- ○ 44

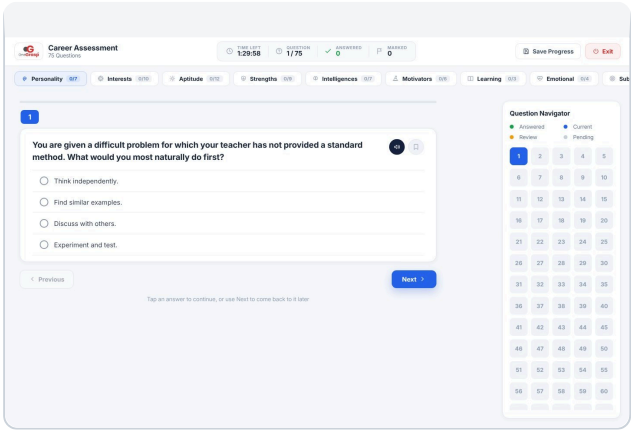

Read fully; skip and come back if stuck. (Answer: 42, the gaps grow by 2.)

Yes / No

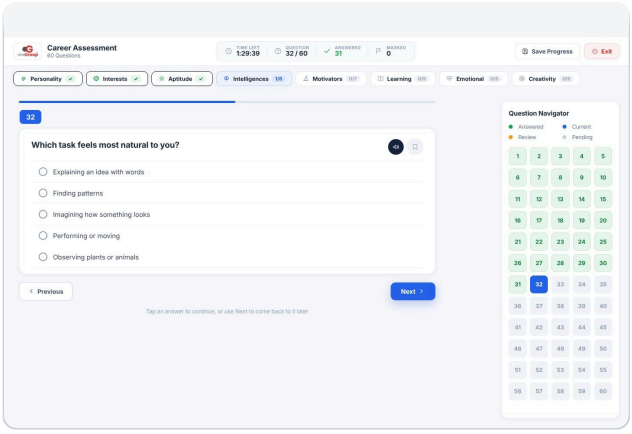

Have you done an internship or project in your field?

- ◉ Yes
- ○ No

Answer for today, not for next year.

A personality question: tap the option most like you.

Class 11–12: answers save as soon as you tap.

TRUST

Built to be trusted.

A report is only useful if it really describes the student. Three safeguards protect every result.

Answer-quality check

When you submit, the test looks at how the paper was answered: how many answers came in under 3 seconds, and whether the same option was picked again and again. It never changes your scores. It only flags a report that may not reflect you (high, medium or low trust), so a rushed test can be retaken.

Your answers stay private

Your report belongs to you. If you joined through a school, the school sees your progress and activity, never your individual answers.

Facts linked to sources

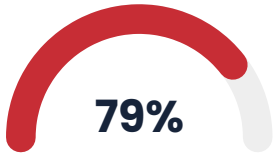

Exams, scholarships, funded routes and funding programmes link to their official websites, so anyone can check them.

What a rushed test looks like

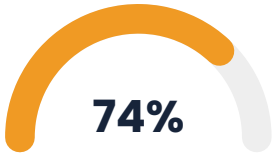

EXAMPLE

To show you the quality check, we raced through a sample test in about **9 minutes**, tapping answers in under 3 seconds. The system noticed straight away and marked the report **low trust**, with the exact reasons below.

CHECK	OUR RUSHED SAMPLE	A THOUGHTFUL TEST
Time taken	9 min	40–80 min
Answers under 3 seconds	79%	Under 15%
Same answer repeated	74%	Under 30%
Longest identical run	42 in a row	3–4
Trust	LOW	HIGH

answers under 3 seconds

same answer as the one before

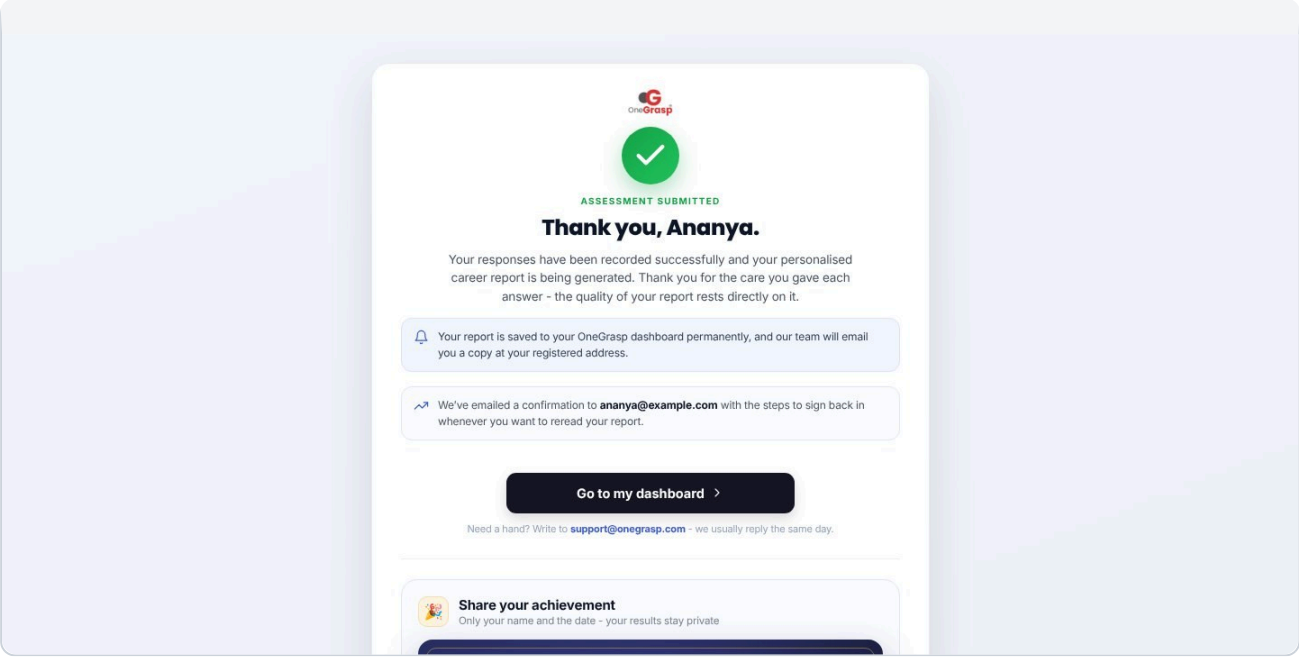

IN SIMPLE WORDS

Rushing doesn't save time. It just gives you a report about nobody. Slow down, read, and answer as yourself.

SUBMITTED

What happens after you finish.

Tap “Finish & see report” when every question is answered. Your personalised report is generated instantly.

The confirmation screen: your answers are recorded and your report is being generated.

01 STEP 1
Report saved
It stays on your dashboard permanently. Reopen it any time.

02 STEP 2
Copy by email
A confirmation email explains how to sign back in.

03 STEP 3
Dashboard unlocks
Your results pages and every tool appear in the menu.

04 STEP 4
Read it together
Download the PDF and read it with someone who guides you.

Your first 48 hours

- [ ] Open your full report and read the first three pages
- [ ] Write your type and interest code on page 2 of this book
- [ ] Download the PDF and share it with a parent or mentor
- [ ] Open “My plan” in the dashboard and tick one task
- [ ] Explore 3 careers in your top field in the Career Library

TRY THIS

Within 48 hours, sit with a parent, teacher or counsellor for 20 minutes and read the report using the guide on page 35. Fresh results make the best conversations.

GOOD TO KNOW

Didn't get the email? Check your spam folder. Your report is always on your dashboard, so nothing is ever lost.

03

PART 03

The 8 Dimensions

Eight simple questions about you. Together they show where you will thrive. One page for each, with what it measures, how it shows in your report, and what to do with it.

IN THIS PART

01 01 Personality 25

02 02 Career Interests 26

03 03 Multiple Intelligences 27

04 04 Emotional Intelligence 28

05 05 Learning Style 29

06 06 Motivators 30

07 07 Strengths 31

08 08 Aptitude 32

09 See your career progress 33

OneGrasp

DIMENSION 01 OF 08

Personality

"How do I naturally work and decide?"

IN SIMPLE WORDS

Your personality is your **natural style**, like being left- or right-handed. You can use both hands, but one feels easier. This dimension finds the style that feels easiest for you, so you can choose work where you don't have to fight yourself every day.

What it measures

Where you get your energy, how you take in information, how you make decisions and how you like to plan. These patterns shape how you prefer to work with others, handle tasks and make choices.

The framework

Personality-type preferences in four pairs, widely known as MBTI-style typing (from Carl Jung's work, developed by Myers and Briggs). Some stages also look at the five everyday traits psychologists call the Big Five.

Why it matters

Different work settings suit different patterns. Knowing your personality helps you pick paths where you contribute in your natural way, enjoy the work and grow steadily.

What it looks at

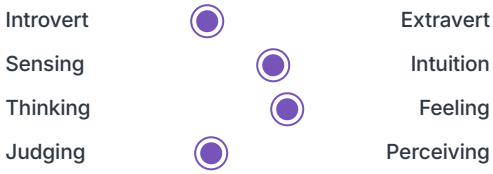

Energy: Introvert or Extravert
Do you recharge alone or with people?

Information: Sensing or Intuition
Facts and details, or patterns and possibilities?

Decisions: Thinking or Feeling
Logic first, or values and people first?

Planning: Judging or Perceiving
A clear plan, or keep options open?

How it looks in your report

ISFJ "The Defender" · quiet, practical, caring, organised

Each slider shows which side you lean to and how clearly. Your four letters together make your type, for example ISFJ. *Illustrative.*

Careers that often suit each pattern

IF YOU LEAN TOWARDS...	YOU MAY ENJOY CAREERS SUCH AS...
Introversion + Sensing	Accountant, lab scientist, software developer, archivist
Extraversion + Feeling	Teacher, counsellor, HR, sales, hospitality
Intuition + Thinking	Engineer, scientist, strategist, architect, entrepreneur
Sensing + Judging	Doctor, civil services, operations, banking, law

EXAMPLE

Before a school trip, **Ravi** makes a checklist a week early (Judging); **Meera** packs the night before and enjoys deciding on the spot (Perceiving). Neither is wrong. But Ravi may enjoy project management, and Meera may thrive in fast-changing roles like journalism or event work.

Try this at your stage

Class 6–8
Notice when you feel most energetic: in a group or alone.

Class 9–10
Pick one club that uses your type's strengths.

Class 11–12
Compare your type with your top career's daily work.

With your family
Ask a parent which of your four letters sound like you.

Fill in from your report My score _____ My top result _____ One way I'll use it _____

There is no good or bad personality, only better fits. Your type is a preference; you can act outside it whenever you need to.

DIMENSION 02 OF 08

Career Interests

"What kind of work excites me?"

IN SIMPLE WORDS

Interests are the **activities that pull you in**, the things you'd happily do even without marks. When your work matches your interests, effort feels lighter and you keep going longer.

What it measures

Your natural interests and the kinds of work and activities that energise you. Most people are strongest in two or three of six interest themes.

The framework

John L. Holland's theory of career interests (RIASEC), used by career counsellors worldwide since 1959. People and work environments are described with the same six themes, so your code points straight to matching careers.

Why it matters

Interests drive motivation, persistence and satisfaction. When your studies and work match what genuinely holds your attention, you are far more likely to thrive.

What it looks at

Realistic · doing
Tools, machines, nature, building things.

Investigative · thinking
Research, analysis, solving puzzles.

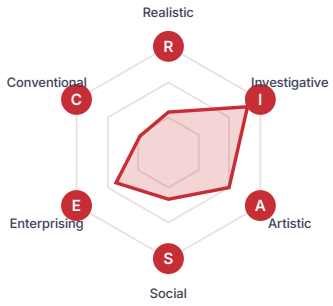

Artistic · creating
Design, writing, music, new ideas.

Social · helping
Teaching, caring, counselling.

Enterprising · leading
Persuading, selling, starting things.

Conventional · organising
Data, order, systems and accuracy.

How it looks in your report

IAE "The Analytical Investigator" · curious, creative, driven

The further a corner reaches out, the stronger that interest. Your top three letters make your interest code. *Illustrative.*

Careers that often suit each pattern

IF YOU LEAN TOWARDS...	YOU MAY ENJOY CAREERS SUCH AS...
Realistic	Mechanical engineer, pilot, chef, agriculture, architecture
Investigative	Doctor, data scientist, researcher, software engineer
Artistic	Designer, architect, writer, filmmaker, UX
Social	Teacher, nurse, psychologist, social worker
Enterprising	Entrepreneur, lawyer, marketing, management
Conventional	Chartered accountant, banker, analyst, administrator

EXAMPLE

Arjun loves fixing his bicycle and building science-fair models (Realistic + Investigative). His friend **Sana** loves organising the school fest and convincing sponsors (Enterprising + Social). Their codes, RIE and ESA, point to very different but equally good careers.

Try this at your stage

Class 6–8
Try one activity from each of your top two themes.

Class 9–10
Match your code to streams (Part 4).

Class 11–12
Test-drive one career from your top theme.

With your family
Share your code and ask what they noticed when you were younger.

Fill in from your report My score _____ My top result _____ One way I'll use it _____

Interests can change once you try a field for real. That's why the dashboard pushes you to try small tasks, not just read about careers.

DIMENSION 03 OF 08

Multiple Intelligences

"In which ways am I smart?"

IN SIMPLE WORDS

Being "smart" isn't just about maths marks. A dancer, a debater and a gardener are all smart, in different ways. This dimension finds **your** kinds of smart.

What it measures

Your natural strengths across eight different ways of thinking, creating and solving problems. It shows how you prefer to learn, express ideas and contribute.

The framework

Howard Gardner's theory of multiple intelligences (1983), which recognises that intelligence is not one-size-fits-all.

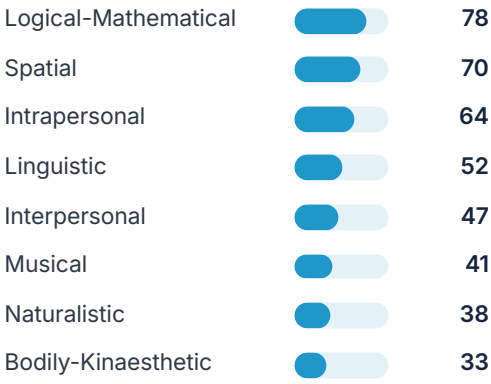

Why it matters

When you understand your mix of intelligences, you can choose learning methods that suit you, build confidence and contribute your strengths in real-world ways.

What it looks at

- **Linguistic** — Words, reading, writing.
- **Logical-Mathematical** — Numbers, logic, reasoning.
- **Spatial** — Pictures, shapes, 3D.
- **Bodily-Kinaesthetic** — Learning by doing and moving.
- **Musical** — Rhythm, melody, sound.
- **Interpersonal** — Understanding people.
- **Intrapersonal** — Self-awareness, reflection.
- **Naturalistic** — Nature, patterns, living things.

How it looks in your report

All eight are ranked; your top two are named and explained. *Illustrative.*

Careers that often suit each pattern

IF YOU LEAN TOWARDS...	YOU MAY ENJOY CAREERS SUCH AS...
Linguistic	Lawyer, journalist, author, teacher
Logical-Mathematical	Engineer, data analyst, economist, programmer
Spatial	Architect, designer, surgeon, pilot
Interpersonal	Manager, counsellor, sales, HR
Naturalistic	Environmental scientist, agronomist, vet

EXAMPLE

Kavya struggles with long essays but can picture a 3D model in her head and sketch it perfectly (Spatial). That is a real intelligence, and architects, product designers and surgeons rely on it every day.

Try this at your stage

Class 6–8
Learn one topic using your top intelligence.

Class 9–10
Pick an elective that uses it.

Class 11–12
Use your top two to choose between two degrees.

With your family
Name one way each family member is smart.

Fill in from your report

My score _____ My top result _____ One way I'll use it _____

Your lowest score isn't a flaw. It's just not how you think first.

DIMENSION 04 OF 08

Emotional Intelligence

"How well do I handle feelings and people?"

IN SIMPLE WORDS

Emotional intelligence (EQ) is how well you **understand and manage feelings**, your own and other people's. Many studies find EQ matters as much as IQ for success at work.

What it measures

Your ability to understand yourself and others, manage emotions, build positive relationships and respond wisely in different situations.

The framework

Widely used emotional-intelligence models (Salovey and Mayer; popularised by Daniel Goleman) that look at four everyday areas.

Why it matters

Strong emotional intelligence improves communication, builds healthier relationships, helps you work in teams and prepares you to lead and adapt.

What it looks at

Self-awareness
Recognising your emotions, strengths and values.

Self-management
Staying calm, focused and adaptable.

Social awareness
Understanding others' feelings with empathy.

Relationship management
Building trust and resolving conflict.

How it looks in your report

72 Self-awareness	58 Self-management
66 Social awareness	61 Relationships

Four areas, each scored out of 100. Your report names the area to practise first. *Illustrative.*

Careers that often suit each pattern

IF YOU LEAN TOWARDS...	YOU MAY ENJOY CAREERS SUCH AS...
High social awareness	Doctor, nurse, teacher, counsellor, HR
High self-management	Pilot, surgeon, defence, finance, law
High relationship skills	Manager, sales, politics, entrepreneur

EXAMPLE

In a group project, **Nikhil** notices a teammate has gone quiet, checks in with her privately, and adjusts the plan. That's social awareness plus relationship management, and every good team leader does it.

Try this at your stage

Class 6–8
Name one feeling a day at dinner.

Class 9–10
Try Entrance Exams › Wellbeing before exams.

Class 11–12
Practise one calm hard conversation.

With your family
Talk about one feeling at dinner each day.

Fill in from your report My score _____ My top result _____ One way I'll use it _____

Every part of EQ improves with practice. Answer honestly to see where you are today and how you can grow.

DIMENSION 05 OF 08

Learning Style

"How do I prefer to study?"

IN SIMPLE WORDS

Some people remember what they **see**, some what they **hear**, some what they **write**, and some what they **do**. Knowing your style makes studying easier, not harder.

What it measures

The ways you naturally like to take in, process and organise information. It shows preferences, not potential, so you can choose methods that help you learn with less effort.

The framework

Four common learning preferences (similar to the VARK model). You can be good at all four; this shows which ones you prefer.

Why it matters

When you study in the ways you prefer, revision is easier to start and keep up. Building flexibility across all four makes you a stronger, more adaptable learner.

What it looks at

Seeing (visual)
Diagrams, charts, videos, demonstrations.

Hearing (auditory)
Listening, discussing, explaining aloud.

Reading / writing
Notes, summaries, lists, re-writing.

Doing (hands-on)
Trying, practising, experimenting.

How it looks in your report

Your report names your top and second style, with revision tips for each. *Illustrative.*

Careers that often suit each pattern

IF YOU LEAN TOWARDS...	YOU MAY ENJOY CAREERS SUCH AS...
Seeing	Revise with mind maps, colour-coding, diagrams, videos
Hearing	Explain topics aloud, study groups, recorded notes
Reading / writing	Summaries, flashcards, rewriting notes
Doing	Practice problems, models, experiments, teaching others

EXAMPLE

Priya read her biology chapter three times and still forgot it. Then she drew the digestive system as a coloured flowchart and remembered it in one go. She's a visual learner, and now she revises with diagrams.

Try this at your stage

Class 6–8
Turn one chapter into a picture or model.

Class 9–10
Plan board revision with your top style.

Class 11–12
Use the exam planner, one method per subject.

With your family
Show how you study best, and ask for that space at home.

Fill in from your report My score _____ My top result _____ One way I'll use it _____

A learning style is a preference, not an ability, and never a reason to pick or rule out a career.

DIMENSION 06 OF 08

Motivators

"What drives me?"

IN SIMPLE WORDS

Motivators are your **reasons**: what makes effort feel worth it. Two people can do the same job for different reasons. One wants security, another wants to make a difference. Knowing yours keeps you going on hard days.

What it measures

What energises you to put in effort, keep going through challenges and feel satisfied with your work: the reasons that make a task meaningful.

The framework

Work-values and motivation research. Situations tag your choices with values such as achievement, learning, social impact, recognition, autonomy, mastery, financial security, creativity, collaboration, security and leadership.

Why it matters

A role that feeds your top driver keeps you engaged for years. A role that ignores it can feel empty, even when it pays well.

What it looks at

Achievement
Reaching goals and seeing results.

Learning
Growing and understanding more.

Leadership
Guiding people and decisions.

Security
Stability and a steady future.

Social impact
Helping people and society.

Autonomy
Freedom to work your way.

Creativity
Making new things.

Recognition
Being valued and seen.

How it looks in your report

Learning	80
Achievement	69
Autonomy	55
Social impact	46
Creativity	40
Security	35

Your motivators ranked; the top one is your core driver. *Illustrative.*

Careers that often suit each pattern

IF YOU LEAN TOWARDS...	YOU MAY ENJOY CAREERS SUCH AS...
Security	Government services, banking, PSU engineering, teaching
Achievement / Recognition	Sales, consulting, sports, law, medicine
Social impact	Healthcare, NGOs, education, public policy
Autonomy / Creativity	Startups, design, freelancing, research, media

EXAMPLE

Two cousins both become engineers. One loves the steady salary and clear career ladder at a big company (Security). The other quits after two years to build a startup (Autonomy + Achievement). Same degree, different motivators, different happy endings.

Try this at your stage

Class 6–8
Notice which reward works for you.

Class 9–10
Ask of each stream: will it feed my top driver?

Class 11–12
Compare two careers against your top two drivers.

With your family
Tell your family your top driver and why it matters.

Fill in from your report My score _____ My top result _____ One way I'll use it _____

Motivators shift as you grow. Revisit your report every year or two.

DIMENSION 07 OF 08

Strengths

"What do I naturally contribute?"

IN SIMPLE WORDS

Strengths are what you **reach for first**, the role you naturally take in a group. Some people organise, some invent, some keep everyone together. The world needs all of them.

What it measures

How you naturally contribute in a group, across strength domains such as leading, analysing, relating to people, creating, design thinking, strategy and planning ahead.

The framework

A strengths model with eight domains. You answer forced-choice situations (you pick the option most like you), and there are no wrong answers.

Why it matters

Your strengths are already there. Seeing them helps you choose paths where you contribute meaningfully, and build confidence by practising what comes naturally.

What it looks at

- **Problem-solving** — Finding a way through.
- **Communication** — Explaining and persuading.
- **Organisation** — Planning and order.
- **Creativity** — New ideas and design.
- **Empathy** — Understanding people.
- **Persistence** — Sticking with it.
- **Leadership** — Taking the lead.
- **Strategy** — Thinking ahead.

How it looks in your report

Problem-solving STRONG	Creativity STRONG
Persistence MODERATE	Communication MODERATE
Organisation DEVELOPING	Empathy DEVELOPING

Strong = natural strength · Moderate = situational strength · Developing = area to build. *Illustrative.*

Careers that often suit each pattern

IF YOU LEAN TOWARDS...	YOU MAY ENJOY CAREERS SUCH AS...
Problem-solving / Strategy	Engineer, consultant, analyst, scientist
Creativity	Designer, architect, marketer, entrepreneur
Empathy / Communication	Doctor, teacher, counsellor, journalist
Organisation / Persistence	Operations, civil services, project manager, CA

EXAMPLE

In the school science exhibition, **Aditi** designed the model (Creativity), **Rahul** made the timetable (Organisation) and **Faiz** presented it to the judges (Communication). They won because each used their strength.

Try this at your stage

Class 6–8
Ask two people what you're good at.

Class 9–10
Use a signature strength in one event.

Class 11–12
Write a paragraph on each signature strength.

With your family
Ask two family members what you do best.

Fill in from your report My score _____ My top result _____ One way I'll use it _____

Your last-ranked strength isn't a weakness, just not your first instinct.

DIMENSION 08 OF 08

Aptitude

"How quickly can I pick up new skills?"

IN SIMPLE WORDS

Aptitude is how **quickly you can learn** the thinking a field needs. It's the only section with right answers, like a puzzle round. And unlike height, it grows with regular practice.

What it measures

Your ability to learn new concepts, solve problems and think logically across different kinds of challenge. It shows how quickly you can pick up the skills a field demands.

The framework

Standard reasoning areas used in entrance-style and placement tests. Each question has one best answer.

Why it matters

A strong aptitude helps you grasp new ideas faster and tackle complex problems. Analytical thinking is the number one skill employers want (World Economic Forum, 2025).

What it looks at

Verbal reasoning
Words, ideas and meaning.

Numerical reasoning
Numbers and quantities.

Abstract reasoning
Patterns in shapes.

Spatial reasoning
Turning objects in your mind.

Logical reasoning
Rules and deductions.

Data interpretation
Reading charts and tables.

How it looks in your report

Numerical (3 of 4)		75
Logical (2 of 3)		67
Abstract (2 of 3)		67
Verbal (1 of 2)		50
Spatial (1 of 2)		50

Each area shows how many you got right; your sharpest area is named, with exam-practice tips. *Illustrative.*

Careers that often suit each pattern

IF YOU LEAN TOWARDS...	YOU MAY ENJOY CAREERS SUCH AS...
Numerical + Logical	Engineering, finance, data science, actuarial
Verbal	Law, civil services, journalism, management
Spatial	Architecture, design, aviation, surgery
Abstract	Programming, research, mathematics, AI

EXAMPLE

Try one: **2, 6, 12, 20, 30, ?** The gaps are 4, 6, 8, 10, so the next gap is 12 and the answer is **42**. Questions like this test numerical and logical reasoning, the core of JEE, CAT and placement tests.

Try this at your stage

Class 6–8
10 minutes of puzzles, three times a week.

Class 9–10
Try NMMS or olympiad practice.

Class 11–12
Take a timed mock and study the analysis.

With your family
Solve one puzzle together every week.

Fill in from your report My score _____ My top result _____ One way I'll use it _____

Aptitude improves with regular, timed practice. It is not fixed, and the overall assessment is still not a pass-or-fail exam.

GROWING WITH YOU

See your career progress.

You are still growing, so your profile will change too. Take the assessment again as you move up, and compare. Some results stay steady; others grow with practice.

Class 6–8
Discover: what am I like?

Class 9–10
Choose a stream

Class 11–12
Choose exams, degree, college

My results over the years

DIMENSION	FIRST TIME (CLASS __)	SECOND TIME (CLASS __)	THIRD TIME (CLASS __)	WHAT CHANGED?
Personality type				
Interest code				
Top intelligence				
Emotional intelligence				
Learning style				
Core motivator				
Signature strength				
Sharpest aptitude				
Top career field				

IN SIMPLE WORDS

Personality and interests usually stay fairly steady. Emotional intelligence and aptitude grow with practice, so these are where you'll see the biggest progress.

TRY THIS

Open **My Progress** in your dashboard every month. It shows lessons finished, time spent and your streak, so you can see progress between assessments too.

04

PART 04

Your Report at a Glance

How to read your report, what each part shows, and how to turn it into decisions, for every student from Class 6 to Class 12.

IN THIS PART

01 How to read your report 35

02 Your report, page by page 36

03 Your scorecard and deep dives 37

04 Careers that fit you 38

05 Your dream career vs your result 39

06 Choosing your stream 40

07 The 15 career domains 41

08 Your roadmap and next steps 42

09 Meet Ananya: a worked example 43

10 Reality check 44

OneGrasp

READING GUIDE

How to read your report in 20 minutes.

Read it in this order the first time, with a pen in hand. Then do the Reality check at the end of this part.

1. **Start with "At a glance" (2 min)**
   The scorecard shows your real result in each dimension. Notice the two or three that stand out.
2. **Read your personality type and interest code (4 min)**
   These two explain most of the rest. Ask yourself: does this sound like me?
3. **Look at your best-fit fields (4 min)**
   Note the top 3 and their fit %. Read why each was matched.
4. **Compare with your own choice (3 min)**
   "Your choice vs your result" or the Career Selector shows how your dream career fits. A gap is not a no; it's a plan to build.
5. **Read strengths and growth areas (3 min)**
   Pick one strength to use and one area to practise this month.
6. **Read the roadmap and next steps (4 min)**
   Circle the very first step. That's your homework for this week.

Scores (0–100)

SCORE	LABEL	READ IT AS
75–100	Very High	Clear, strong preference or ability
65–74	High	A real strength
50–64	Medium	Balanced either way
35–49	Developing	Not your first instinct yet
0–34	Emerging	Early days; a place to practise

Fit % and match labels

FIT	LABEL	DO THIS
65%+	Strong match	Explore deeply; test-drive
45–64%	Good match	Keep on the list; try a task
under 45%	Worth exploring	Read about it; stay curious

Fit % compares your whole profile with what a field rewards. It is **not** a probability of success.

IN SIMPLE WORDS

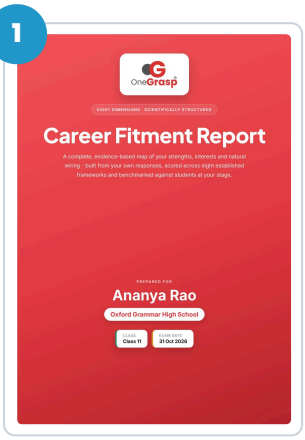

In Personality, Learning Style and Motivators a score shows a **preference**, not quality. Only Aptitude has right answers, and even Aptitude grows with practice.

ANATOMY

Your report, page by page.

This is the real report of our sample student, Ananya. Every report, from Class 6 to Class 12, follows the same clear order.

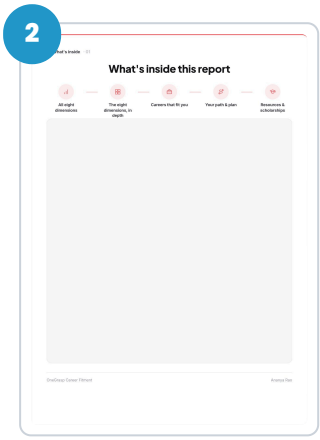

1

Cover

Your name, school, class and date.

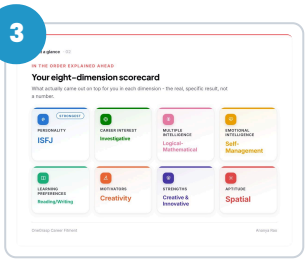

2

What's inside

A map of the report's four sections.

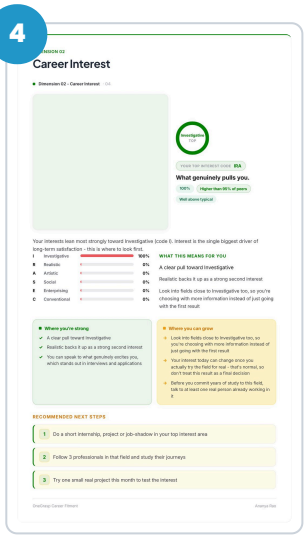

3

Scorecard

Your real result in each dimension.

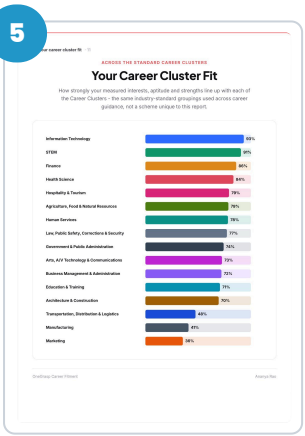

4

Deep dives

One page per dimension.

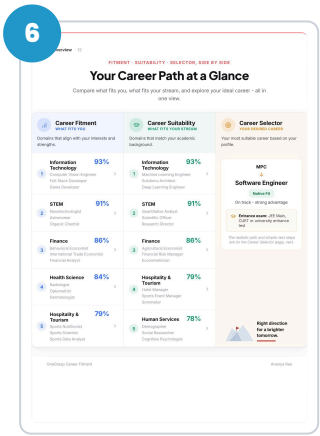

5

Cluster fit

How you match every career cluster.

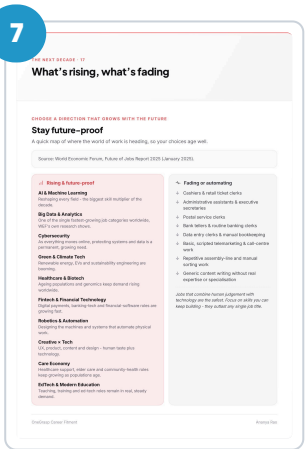

6

Path at a glance

Fitment, Suitability, Selector.

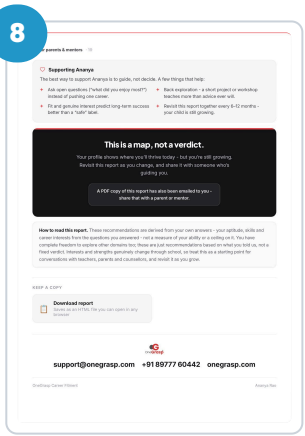

7

Future of work

What's rising and fading.

8

For parents

How to guide, not decide.

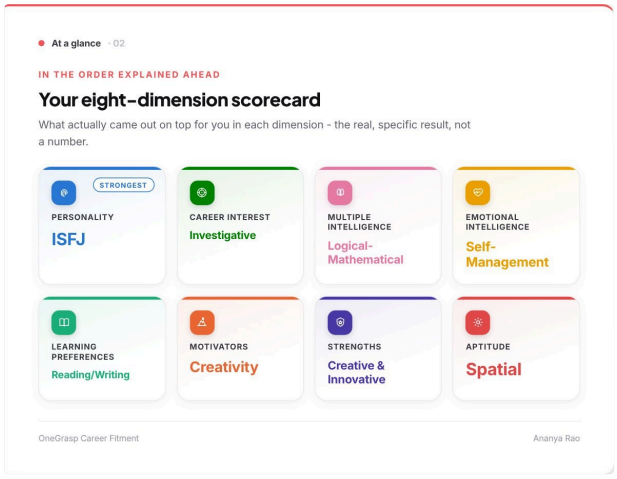

IN SIMPLE WORDS

Read it in this order: **who you are** (scorecard and deep dives), then **what fits you** (clusters and the three views), then **how to get there** (roadmap, exams, money), then share the **parents' page**.

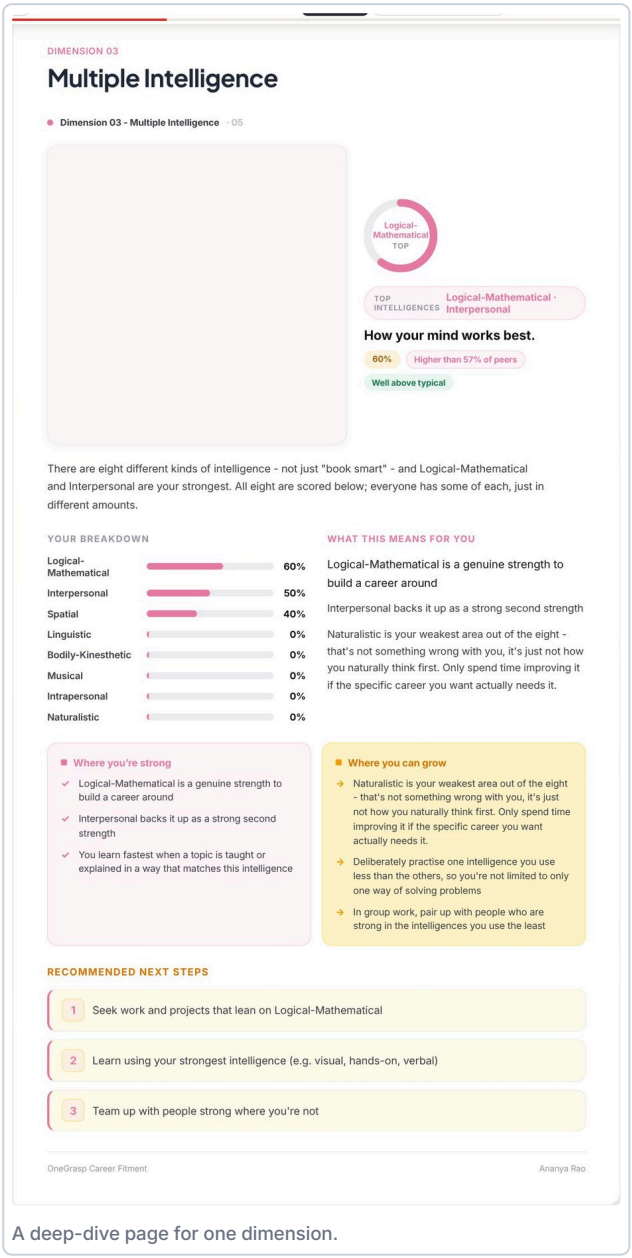

WHO YOU ARE

Your scorecard and deep dives.

The first part of your report shows your real result in each of the 8 dimensions on one page, then explains each one in detail.

The scorecard: the real, specific result in each dimension.

A deep-dive page for one dimension.

Every deep-dive page has the same five parts

Score	Meaning	Strong	Grow	Next steps
0–100, with a typical-student marker	In plain words	Where you shine	Where to practise	Three actions

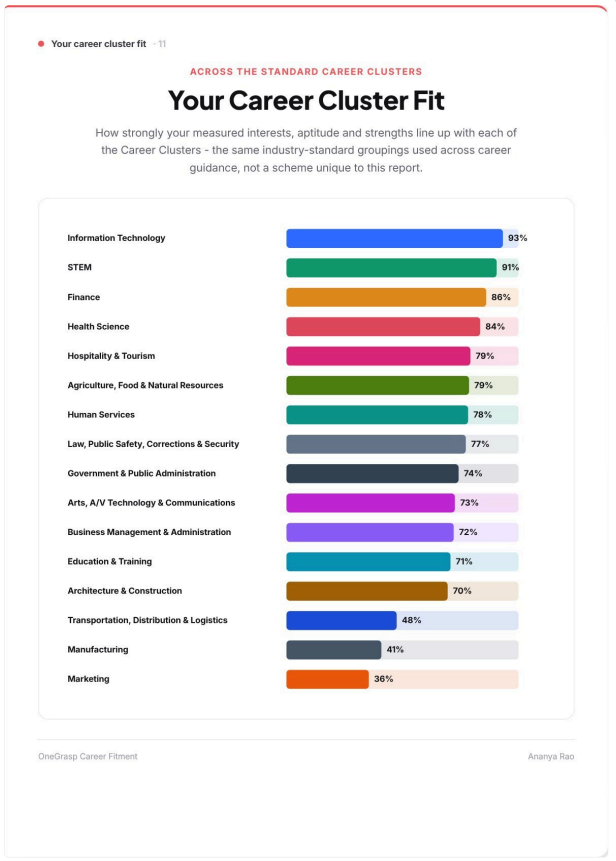

TRY THIS

On each deep-dive page, underline one line that sounds exactly like you and circle one thing to practise.

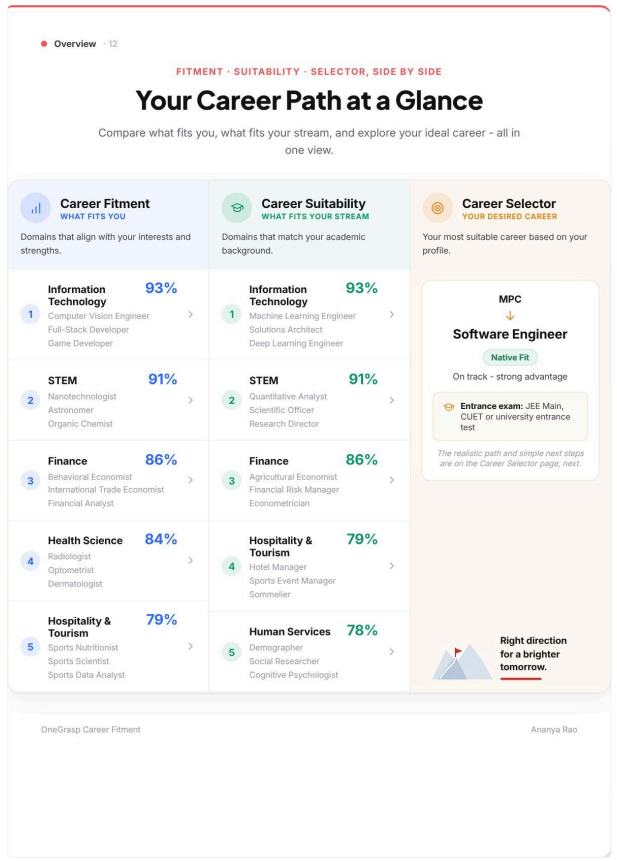

CAREERS THAT FIT YOU

Three ways to see your future.

Your report compares what fits you, what fits your stream, and the career you dream of, side by side.

Career cluster fit: how closely you match each career cluster.

Your career path at a glance: the three views.

Career Fitment 1

What fits YOU

Your top 5 career areas, ranked purely by your answers. Each shows key roles, skills to build, salary in India (indicative) and entrance exams.

Career Suitability 2

What fits your STREAM

Once you have a stream (MPC, BiPC, MEC, CEC, HEC), the careers it already reaches, plus companies that hire and funded routes.

Career Selector 3

Your DREAM career

The career you choose, how well it fits, and the realistic route from where you are today.

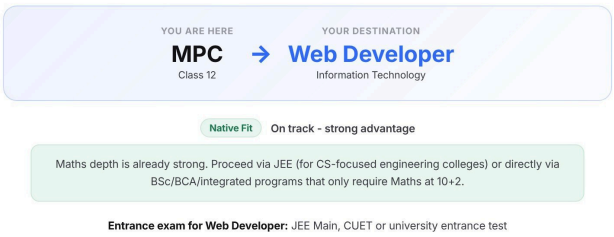

IN SIMPLE WORDS

If all three views agree, you have a clear path. If they disagree, that's useful too: it shows exactly what you'd need to build or change to reach your dream.

YOUR DREAM CAREER

Pick your dream career. See how it fits.

Choose the career you want. Your report shows how well it fits you, and lays out the steps from where you are today.

1. Subjects to choose
2. Entrance exam
3. Degree options
4. Colleges in India
5. Scholarships
6. Year-by-year skills
7. Internships
8. First job titles
9. PG and study abroad
10. Long-term growth

CAUTION

A roadmap is a guide, not a guarantee. Entry routes and requirements change; always confirm with the college, exam body or employer.

CHOOSING YOUR STREAM

From your top fields to a stream.

Find your top domains from the report in the first column. The next columns show the streams that lead there most directly, and the exams you'll meet.

CAREER DOMAIN	MOST DIRECT STREAM	EXAMS YOU MAY MEET
Business & Entrepreneurship	MEC, CEC (any)	IPMAT, CUET-UG
Finance & Commerce	MEC, CEC	CUET-UG, CA Foundation
Engineering & Technology	MPC	JEE Main/Adv, BITSAT
Computer Science & IT	MPC (MEC for BCA)	JEE Main, BITSAT, CUET
Medicine & Healthcare	BiPC	NEET-UG
Life Sciences & Agriculture	BiPC	NEET-UG, ICAR, CUET
Pure Sciences & Research	MPC or BiPC	CUET-UG, IISER/NEST
Architecture, Design & Creative Arts	MPC (arch.), any (design)	NATA, NID, UCEED, NIFT
Media & Communication	Any; HEC helps	CUET-UG
Law, Government & Public Service	Any; HEC/CEC helps	CLAT, AILET, CUET
Education & Psychology	Any; HEC/BiPC helps	CUET-UG
Hospitality, Tourism & Events	Any	NCHM JEE, CUET
Defence, Aviation & Transportation	MPC (NDA, pilot)	NDA & NA
Environment & Sustainability	BiPC or MPC	CUET-UG, ICAR
Sports & Fitness	Any	CUET-UG, sports quotas

IN SIMPLE WORDS

Maths **P**hysics **C**hemistry · **Bi**ology **P**hysics **C**hemistry · **M**aths **E**conomics **C**ommerce · **C**ivics **E**conomics **C**ommerce · **H**istory **E**conomics **C**ivics.

CAUTION

This is a starting guide. Many degrees accept any stream and rules change, so confirm eligibility on each exam's official site (linked in Entrance Exams).

REFERENCE

The 15 career domains.

Your report ranks careers across these 15 broad fields. Each domain card in the report adds what it is, key roles, skills, how to get in, salary in India and abroad, and future scope.

Business & Entrepreneurship — A

Building and growing organisations from the ground up.

Entrepreneur, Startup Founder, Business Owner

₹3.5–7 LPA to start

Finance & Commerce — B

Making sense of money, risk and value.

Chartered Accountant, Cost Accountant, Company Accountant

₹3.5–8 LPA to start

Engineering & Technology — C

Designing and building the physical world.

Mechanical Engineer, Civil Engineer, Electrical Engineer

₹3.5–7 LPA to start

Computer Science & IT — D

Building the digital world.

Software Developer, Software Engineer, Web Developer

₹4–10 LPA to start

Medicine & Healthcare — E

Caring for human health and wellbeing.

General Physician, Surgeon, Cardiologist

₹3–6 LPA (allied / nursing)

Life Sciences & Agriculture — F

Understanding and improving living systems.

Agricultural Scientist, Agronomist, Horticulturist

₹3–6 LPA to start

Pure Sciences & Research — G

Uncovering how the universe works.

Physicist, Astrophysicist, Astronomer

₹3–6 LPA to start (research)

Architecture, Design & Creative Arts — H

Shaping how the world looks, feels and functions.

Architect, Landscape Architect, Interior Designer

₹3–6 LPA to start

Media & Communication — I

Telling stories that reach the world.

Journalist, News Reporter, Investigative Journalist

₹2.5–5 LPA to start

Law, Government & Public Service — J

Upholding justice and serving the public.

Advocate, Corporate Lawyer, Criminal Lawyer

₹3–6 LPA to start

Education & Psychology — K

Helping people learn, grow and understand themselves.

Primary School Teacher, Secondary School Teacher, High School Teacher

₹2.5–5 LPA to start

Hospitality, Tourism & Events — L

Creating memorable experiences.

Hotel Manager, Resort Manager, Restaurant Manager

₹2.5–5 LPA to start

Defence, Aviation & Transportation — M

Protecting the nation and keeping the world moving.

Army Officer, Navy Officer, Air Force Officer

₹4–8 LPA to start

Environment & Sustainability — N

Protecting the planet for the future.

Environmental Consultant, Environmental Analyst, Environmental Planner

₹3–6 LPA to start

Sports & Fitness — O

Building performance, health and passion into a career.

Professional Athlete, Sports Coach, Fitness Trainer

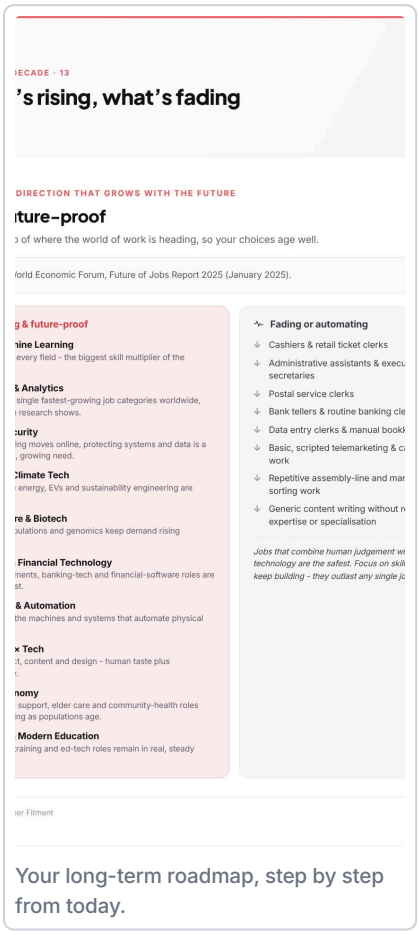

₹2.5–5 LPA to start

Salaries are typical starting ranges in India: indicative, not guarantees.

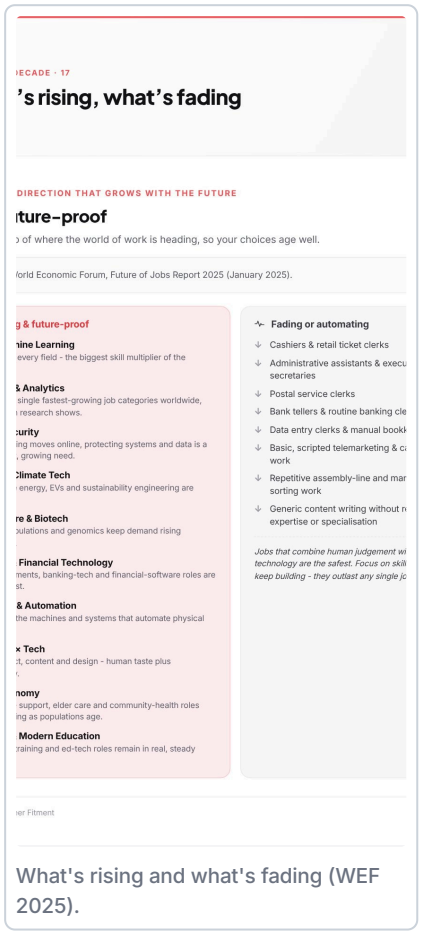

HOW TO GET THERE

Your roadmap and next steps.

The last part of your report turns your results into a route: what to do now, in school and after, plus where the world of work is heading.

Your long-term roadmap, step by step from today.

What's rising and what's fading (WEF 2025).

Learn, find work and get funded.

Use this part well

Circle the first step
Find the very first step of your roadmap and circle it.

Open a free course
Open one free course from the list.

01 02 03 04

Read one rising field
Pick one rising field to read about this week.

Read it together
Read the parents' page together.

TRY THIS

Write your first step here and the date you'll do it by: _____ by ___ / ___

WORKED EXAMPLE

Meet Ananya: her best fits and dream career.

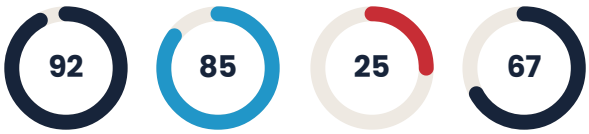

Ananya Rao is a sample Class 11 MPC student we created to show every screen in this handbook. Her answers were generated for demonstration: an ISFJ, Investigative, logical learner who dreams of software engineering.

Her top career fields

Computer Science / IT	92%
AI / Data Science	92%
Pure Science	90%
Research	89%
Mathematics / Statistics	88%
Biotechnology	88%
Engineering	87%
Economics	86%

Computer Science / IT and AI / Data Science tie at the top: both reward an investigative, logical, organised profile.

Her dream career: Software Engineer

IN SIMPLE WORDS

Her dream career **matches** her best-fit field. Her profile and stream fit strongly; her aptitude score is the gap to work on, and aptitude grows with practice.

Strengths to use

- Clear personality (100/100)
- Clear career interest (100/100)
- Learning style (74/100)

Areas to grow

- Motivator clarity (19/100)
- Aptitude and reasoning (25/100)
- Emotional intelligence (25/100)

What Ananya could do next

01 STEP 1
Week 1
Read 5 careers in Computer Science in the Career Library.

02 STEP 2
Week 2
Test-drive software engineering.

03 STEP 3
Week 3
Make a JEE Main study plan; take one mock.

04 STEP 4
Week 4
Start a free coding programme in Internships.

ACTIVITY 3 · AFTER YOUR REPORT

Reality check.

Remember Activity 1? Open your sealed prediction (page 6) and your report side by side. Score one point for every match. Who knows you best, you or your parent?

Dream-career fit				☐	☐
TOTAL				/10	/10

8–10
You know yourself well
Great. Now act on it: start the 30-day challenge in Part 10.

5–7
Some surprises
Read the deep dives for the dimensions you missed. Surprises are where you learn the most.

0–4
Big discovery
That's exactly why the assessment exists. Talk it through with a parent or counsellor.

My biggest surprise

What I'll do about it

08 Scholarships 57

09 Study Abroad 60

10 Internships & Jobs 63

OneGrasp

START HERE

How to use your dashboard

Your dashboard is where the report turns into action. Use it in this order the first time, then come back every week.

01 Sign in

Go to **careerfitment.onegrasp.com** and sign in with the email and password you used for the assessment.

02 Open your report

On the home screen tap **Open my full report**. Use **Download** to save the PDF.

03 Explore your results

In the left menu, open **Your results**: profile, 8 dimensions, best-fit fields, how you think, my plan.

04 Pick a tool

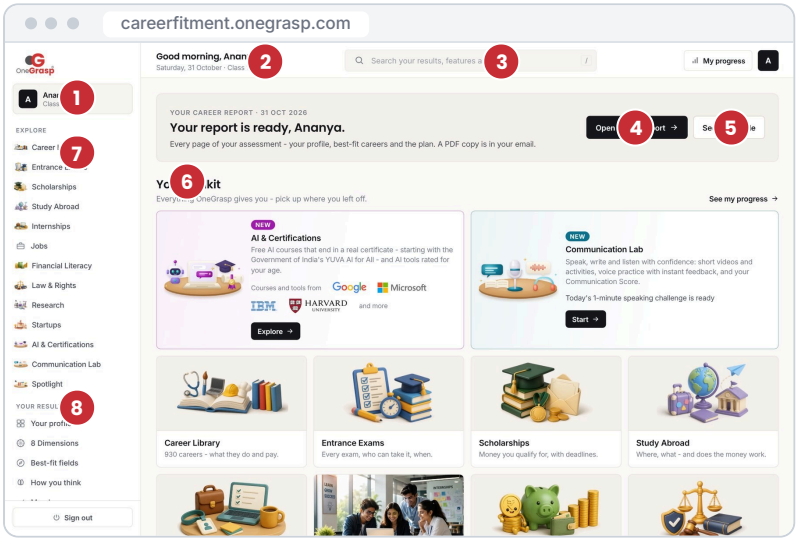

Choose a tool from **Explore** in the left menu, starting with your top career field in the Career Library.

05 Do the missions

Each tool chapter in this book ends with a mission card. Tick tasks off as you finish them on the dashboard.

06 Track your progress

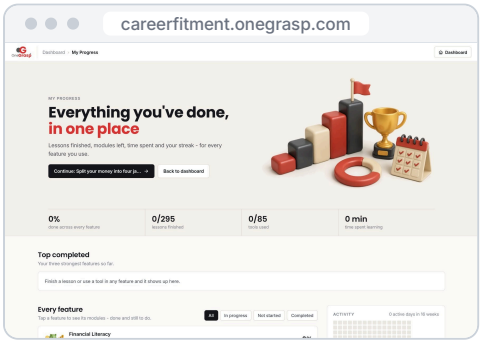

Open **My Progress** to see lessons done, time spent and your streak; collect certificates as you finish courses.

The dashboard home: report at the top, tools below, menu on the left.

What you see

1. **Your name and class** · You're in the right account.
2. **Search (press /)** · Find any tool or page.
3. **My progress** · Everything you've done.
4. **Open my full report** · Every page, with Download.
5. **See my profile** · Results at a glance.
6. **Your toolkit** · One card per tool; new ones say NEW.
7. **Explore menu** · Every tool, always on the left.
8. **Your results** · Profile, dimensions, fields, plan.

My Progress: everything you have done, in one place.

A simple weekly routine

Once a week	Twice a week
Do the three Career GPS missions Career GPS	**Work on one tool's mission card** Any tool in the Explore menu
Every day (10 min)	**Every month**
One lesson, game or speaking challenge Money, AI, Communication Lab	**Check your progress and update your plan** My Progress · My plan

MISSION Sign in today and open every menu item once. It takes 10 minutes and you'll never feel lost again.

MIND MAP

Your dashboard at a glance.

Every tool in one picture. Start in the centre with your results, then branch out to whatever you need this month. Page numbers show where each tool is explained in this book.

IN SIMPLE WORDS

You never need every tool at once. Pick the branch that matches this month's question: **What fits me?** (results), **How do I get there?** (careers, exams, money) or **How do I grow?** (skills, proof).

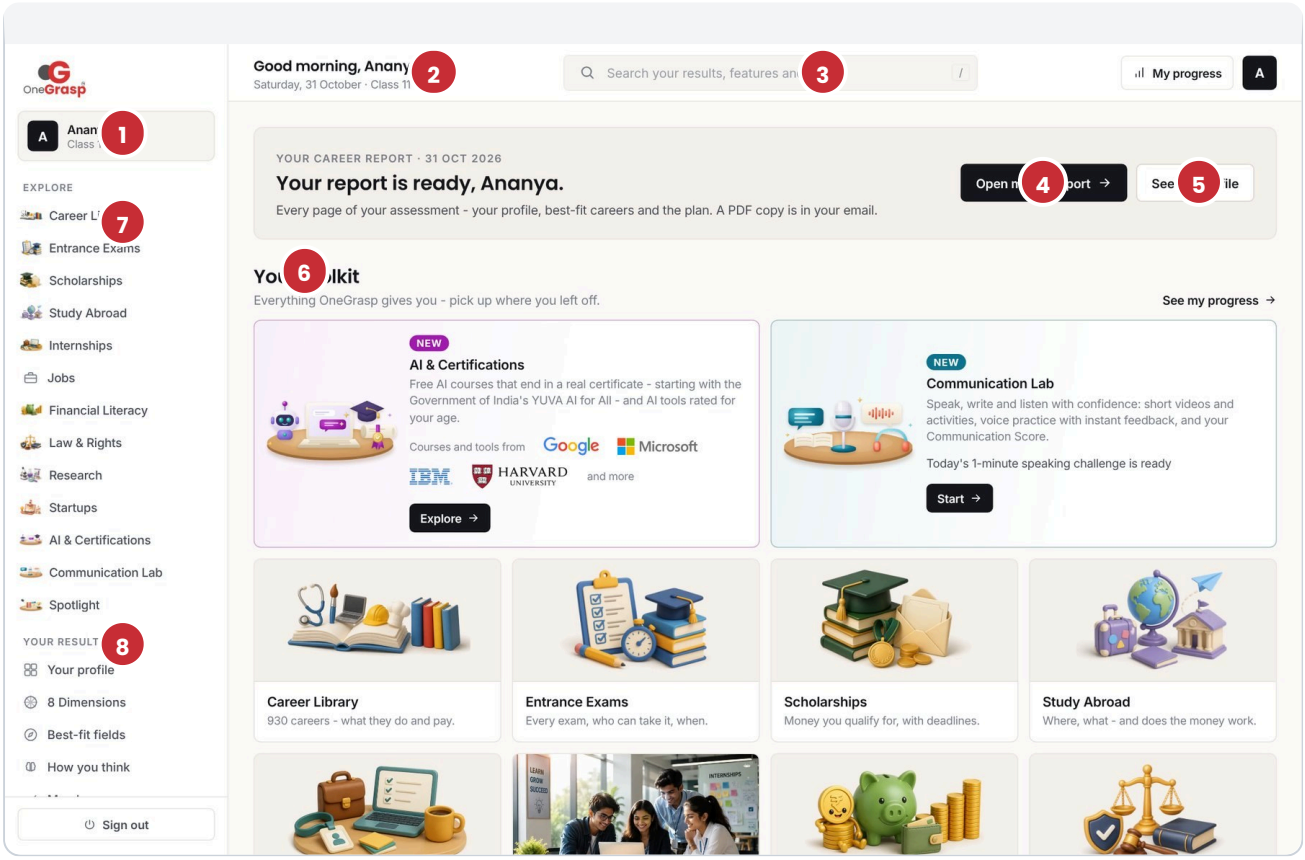

TRY THIS

Colour in the branches you have opened this week. By the end of the 30-day challenge (Part 10) every branch should be coloured.

DASHBOARD HOME

Your report becomes a dashboard you use.

Sign in at careerfitment.onegrasp.com. You land on the dashboard home: your report at the top, your toolkit below, the menu on the left.

1 **Your name and class**
You're in the right account.

2 **Search (press /)**
Find any tool or page.

3 **My progress**
Everything you've done.

4 **Open my full report**
Every page, with Download.

5 **See my profile**
Results at a glance.

6 **Your toolkit**
One card per tool; new ones say NEW.

7 **Explore menu**
Every tool, always on the left.

8 **Your results**
Profile, dimensions, fields, plan.

YOUR TASK

Sign in today and open every menu item once. It takes 10 minutes and you'll never feel lost again.

NAVIGATION

Finding your way, and your results.

The left menu stays on every screen. The Your results pages are your report made interactive.

EXPLORE

Career Library · Entrance Exams · Scholarships · Study Abroad · Internships · Jobs · Financial Literacy · Law & Rights · Research · Startups · AI & Certifications · Communication Lab · Spotlight

YOUR RESULTS

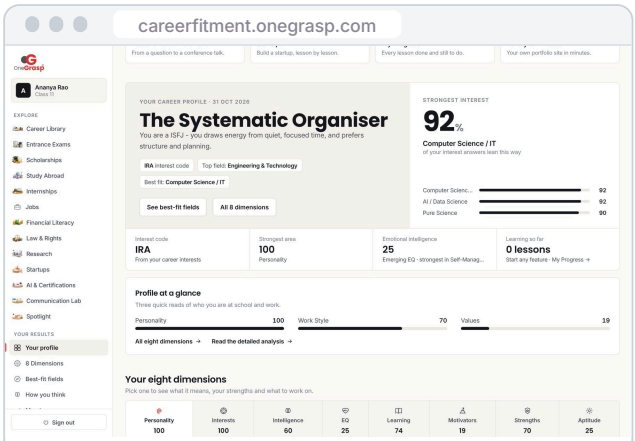

Your profile · 8 Dimensions · Best-fit fields · How you think · My plan

TRACK

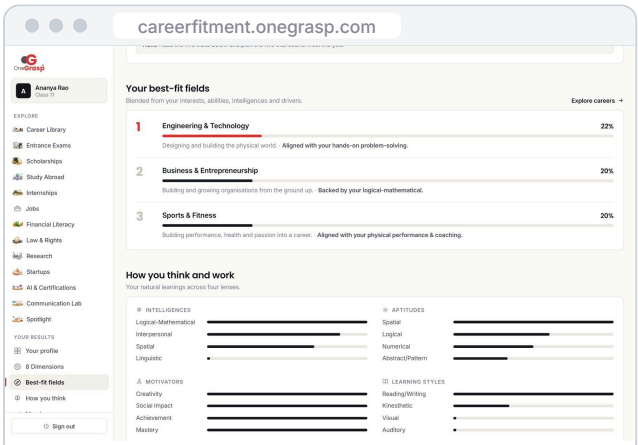

My Progress · Certificates

CREATE

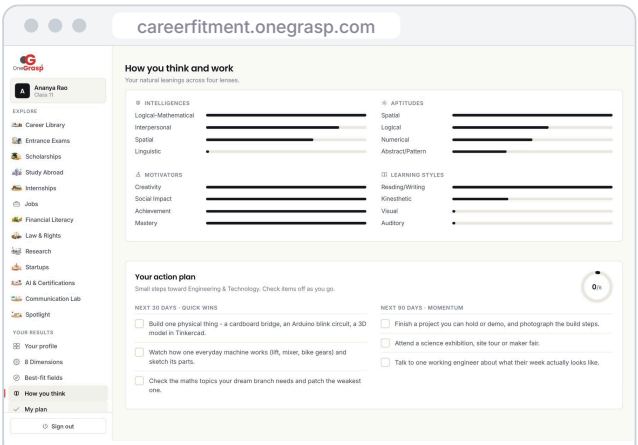

Resume & Interview · Build your website

Your profile: title, type, strongest interest, top field.

Best-fit fields with fit % and the reason.

My plan: next 30 and 90 days, with tick boxes.

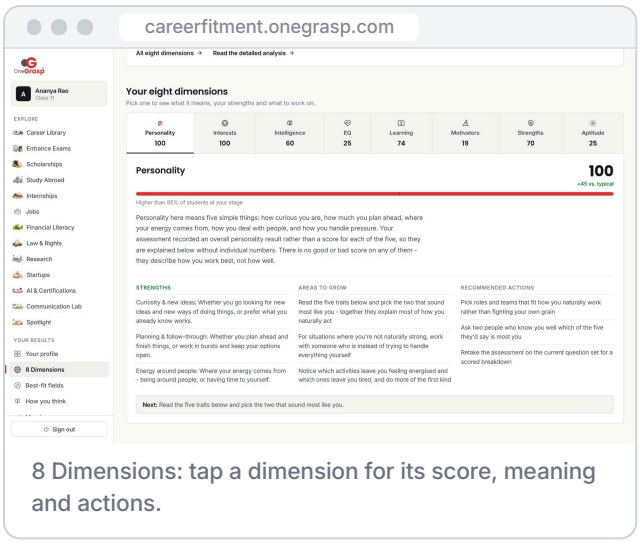

YOUR TASK

Open **My plan** and tick the three “next 30 days” items this month. They're chosen for your top field.

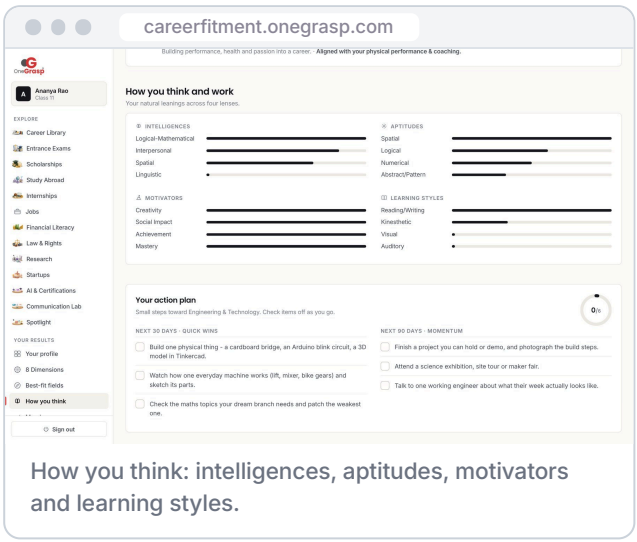

YOUR RESULTS

Your report, made interactive.

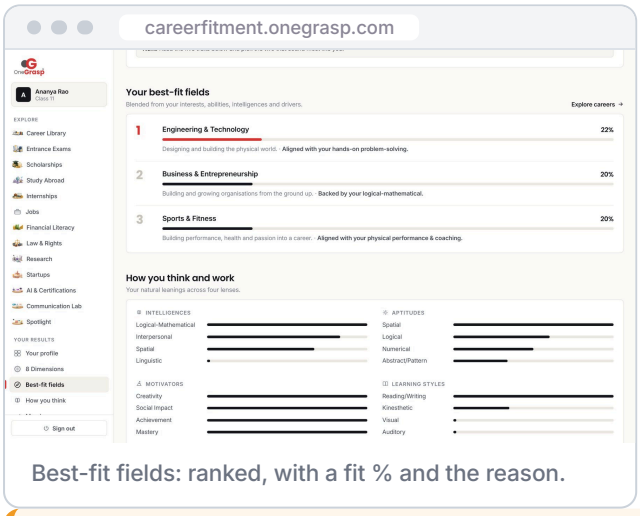

The **Your results** pages in the left menu show the same results as your PDF report, but you can tap into each one.

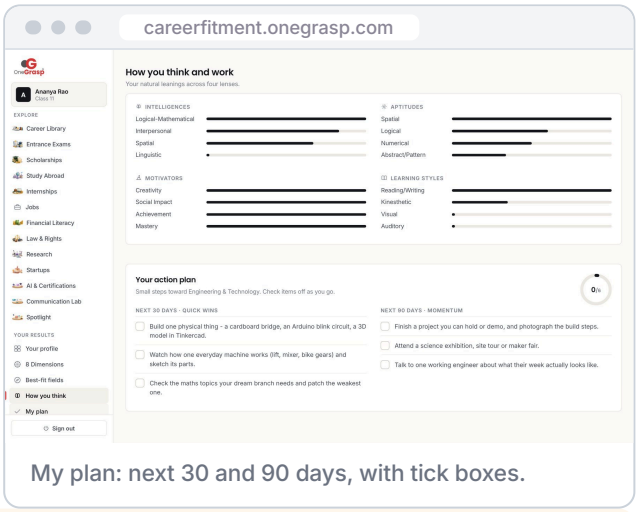

8 Dimensions: tap a dimension for its score, meaning and actions.

How you think: intelligences, aptitudes, motivators and learning styles.

Best-fit fields: ranked, with a fit % and the reason.

My plan: next 30 and 90 days, with tick boxes.

YOUR TASK

Tick all three “next 30 days” items in **My plan** this month. They're picked for your top field.

YOUR DASHBOARD

TOOL 01

Career Library

930 careers explained simply, with salaries, skills and a degree roadmap for each, plus a Test-Drive and a Family Decision Room.

930	8	2,500+
careers	fields	roadmaps

Why it matters

1. Most students can name only 10–15 careers. Seeing hundreds, with real pay and real routes, widens your choices.
2. A degree roadmap turns a dream into year-by-year steps.
3. Test-Drive lets you feel a career before you spend years on it.

Who it's for

Class 6–8: explore

Class 9–10: choose a stream

Class 11–12: choose a degree

Parents: compare paths

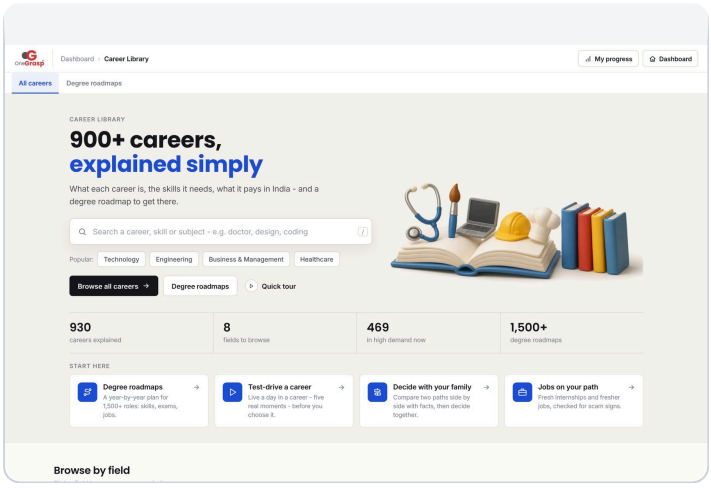

FIND IT Menu › Career Library

What's inside: the tool at a glance

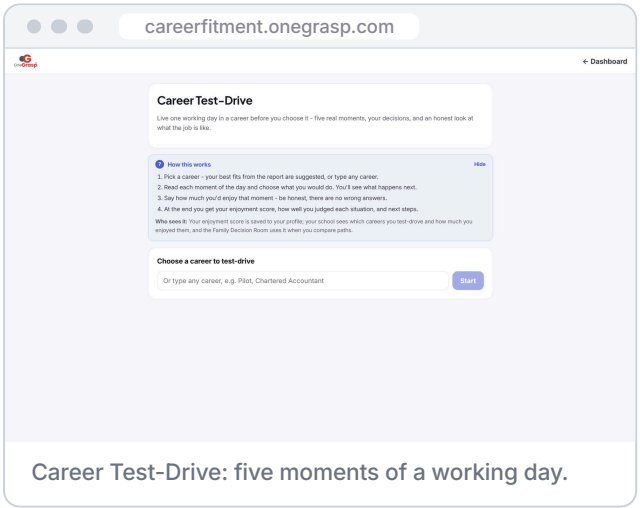

CAREER LIBRARY · HOW IT WORKS

How to use it, step by step.

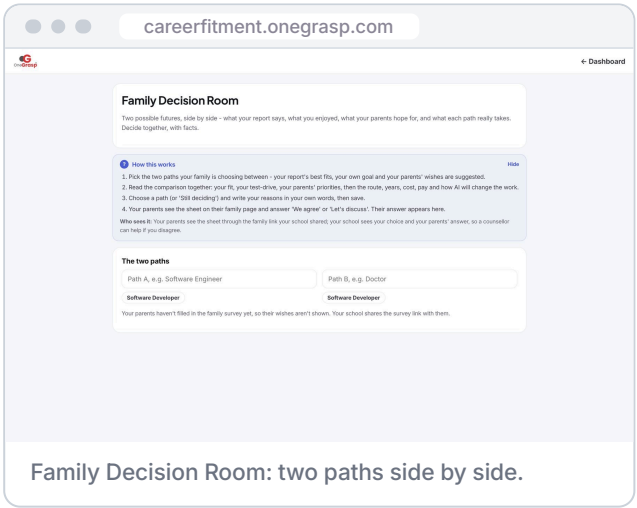

Search any career, or browse 8 fields.

1. **Search or browse**
   Type a job, skill or subject, or tap a field.
2. **Open a career**
   Read what it is, skills, salary, demand and entry routes.
3. **Open its roadmap**
   Year by year: skills, internships, exams, first jobs.
4. **Test-drive it**
   Live five real moments; rate each one; read the honest summary.
5. **Decide together**
   Compare your top two paths in the Decision Room.

Career Test-Drive: five moments of a working day.

Family Decision Room: two paths side by side.

IN SIMPLE WORDS

Read about it → feel it (Test-Drive) → decide with facts (Decision Room).

CAUTION

A roadmap is a guide, not a guarantee. Confirm entry routes with colleges and employers.

CAREER LIBRARY · DO IT NOW

Your missions. Tick them off.

Do these on your dashboard, then fill in the worksheet. Small, real actions beat reading about careers.

MISSION 1 · 20 MIN

Build your shortlist

- [ ] Open your top best-fit field
- [ ] Read 5 careers in it
- [ ] Fill the shortlist table below

MISSION 2 · 15 MIN

Feel the work

- [ ] Test-drive your #1 career
- [ ] Note one moment you loved
- [ ] Note one honest downside

MISSION 3 · 30 MIN

Decide as a family

- [ ] Put your top 2 paths in the Decision Room
- [ ] Each person adds their view
- [ ] Write the first step you agreed

Your worksheet

CAREER	WHAT THEY DO (ONE LINE)	STARTING PAY	DEGREE / EXAM NEEDED	MY INTEREST 1–5

One moment I loved

One honest downside

Mission complete!
You now have a real shortlist, not a guess.

TOOL 02

Entrance Exams

Every major entrance exam in one place: check if you're eligible, plan backwards from the date, practise with mocks and stay calm.

29	44	34
exams	lessons	tools & planners

Why it matters

1. Knowing early which exams you qualify for means no missed deadlines and no last-minute panic.
2. A plan that counts back from the exam date turns a huge syllabus into weekly steps.
3. Mocks with real marking show exactly what to revise.

Who it's for

Class 6: JNVST, AISSEE

Class 8: NMMS

Class 9–10: olympiads, NSEJS

Class 11–12: JEE, NEET, CUET, CLAT, NDA...

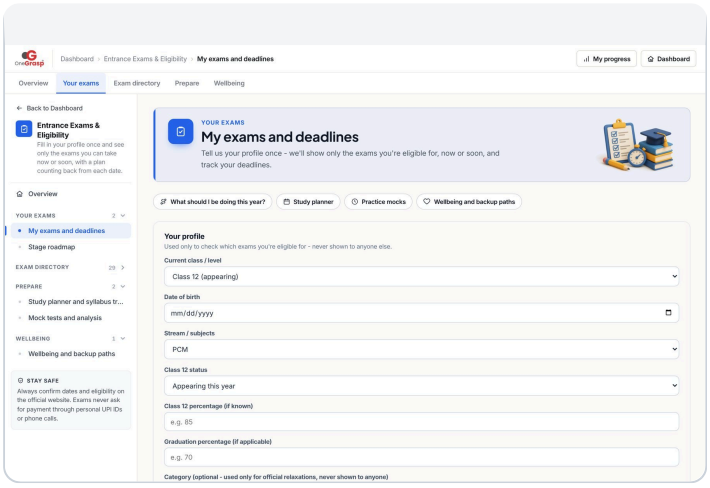

FIND IT Menu › Entrance Exams

What's inside: the tool at a glance

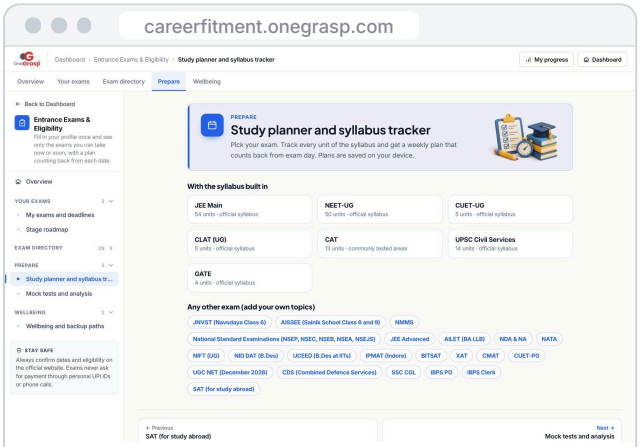

ENTRANCE EXAMS · HOW IT WORKS

How to use it, step by step.

1. **Fill your profile**
   Class, stream, marks, category and state, once.
2. **See what you can take**
   Exams open to you now or soon, with official links.
3. **Follow 2–3 exams**
   Their dates appear in My exams.
4. **Make a plan**
   Pick the exam and date; get a week-by-week plan.
5. **Practise weekly**
   One mock a week; revise what the analysis shows.

Study planner with syllabus tracker.

Mock tests and analysis.

GOOD TO KNOW

Dates and eligibility change every year. Always confirm on the official website linked from each exam.

IN SIMPLE WORDS

Mock scores are for learning, not prediction. The analysis matters more than the score.

ENTRANCE EXAMS · DO IT NOW

Your missions. Tick them off.

Do these on your dashboard, then fill in the worksheet. Small, real actions beat reading about careers.

MISSION 1 · 15 MIN

Know your exams

- [ ] Fill your exam profile
- [ ] Follow 2–3 exams
- [ ] Write their dates below

MISSION 2 · 20 MIN

Build your plan

- [ ] Create a study plan for exam #1
- [ ] Block weekly study hours
- [ ] Tick 3 syllabus topics this week

MISSION 3 · 60 MIN

Practise and review

- [ ] Take one timed mock
- [ ] Read the analysis
- [ ] List 3 topics to revise

Your worksheet

EXAM	CONDUCTED BY	REGISTRATION OPENS	EXAM DATE	STATUS

TOOL 03

Scholarships

Find the money you qualify for: central, state and private schemes, with a deadline calendar, essay help and a safe document vault.

40	53	47
scholarships	lessons	tools

Why it matters

1. Cost should never decide a career on its own.
2. Many families never apply for money they already qualify for.
3. Deadlines are strict: a calendar and tracker mean you never miss one.

Who it's for

Class 8: NMMS

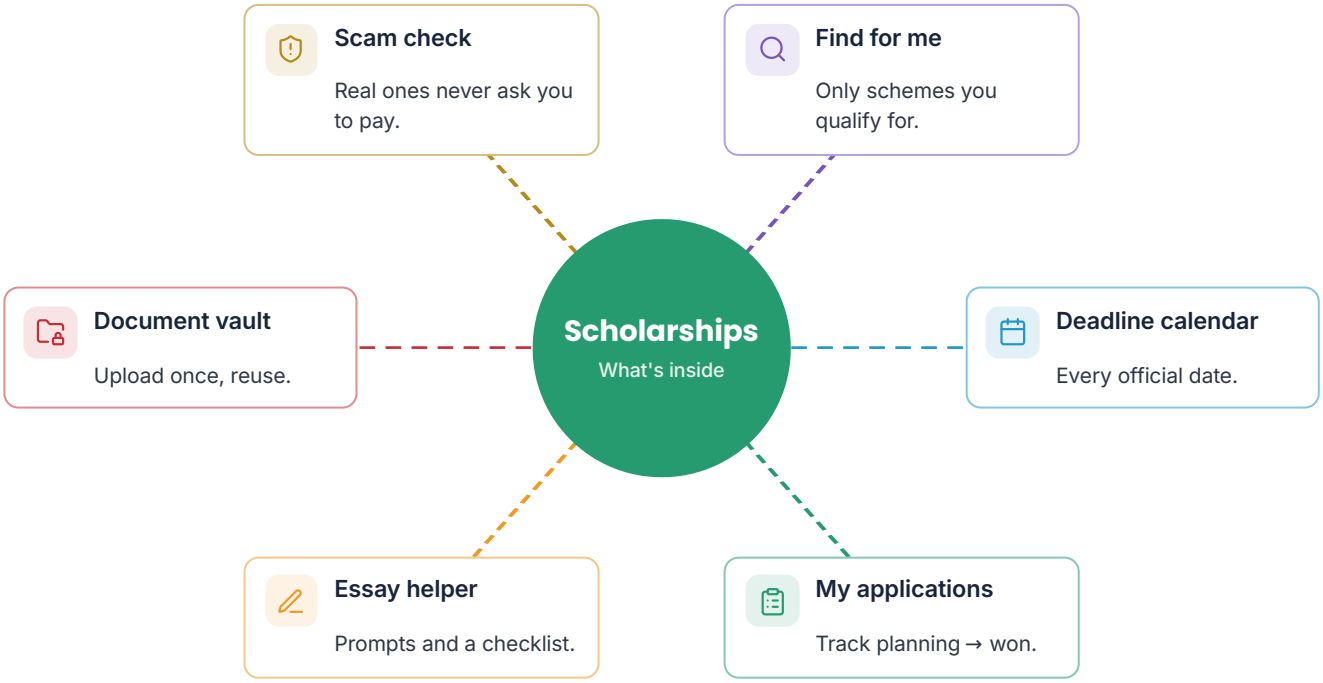

Class 11–12: Pankh, INSPIRE, Pragati

After Class 12: CSSS, Reliance, PM YASASVI

Parents: income & category schemes

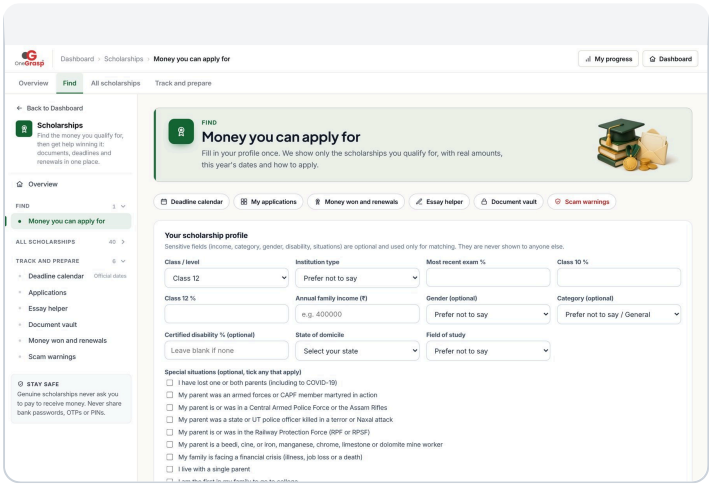

FIND IT Menu › Scholarships

What's inside: the tool at a glance

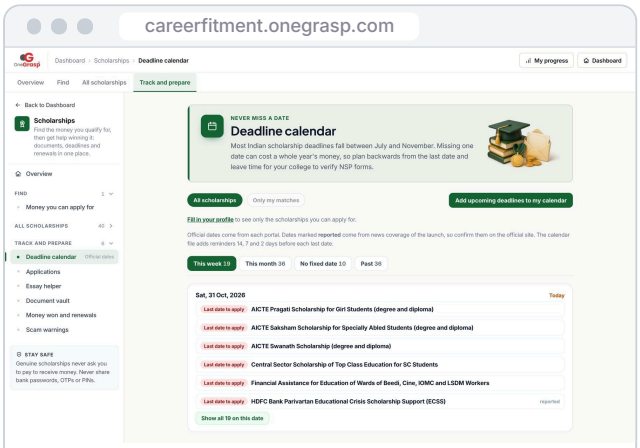

SCHOLARSHIPS · HOW IT WORKS

How to use it, step by step.

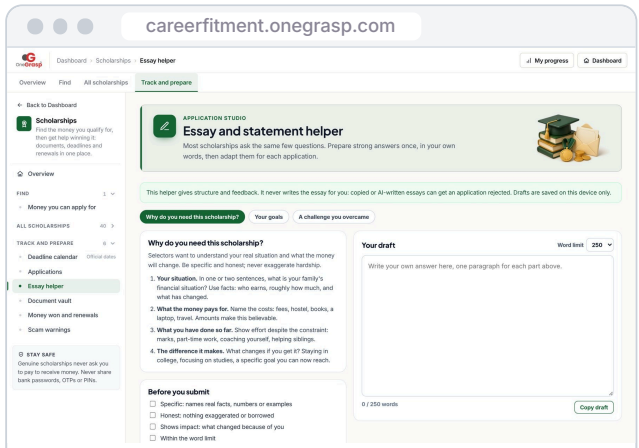

Money you can apply for: fill your profile once.

1. **Fill your profile**
   Class, marks, income, category, state, gender.
2. **See matches**
   Amount, eligibility and deadline for each.
3. **Add to My applications**
   Track each from planning to won.
4. **Prepare documents**
   Upload them once to the vault.
5. **Write and submit**
   Use the essay helper, then apply on the official site.

Deadline calendar.

Essay and statement helper.

CAUTION

Genuine scholarships never ask you to pay to receive money. Never share OTPs, PINs or bank passwords.

FOR PARENTS

Income and caste certificates take weeks. Start them early.

SCHOLARSHIPS · DO IT NOW

Your missions. Tick them off.

Do these on your dashboard, then fill in the worksheet. Small, real actions beat reading about careers.

MISSION 1 — 15 MIN

Find 5 matches

- [ ] Fill your scholarship profile
- [ ] Shortlist 5 schemes
- [ ] Copy them into the tracker

MISSION 2 — 1 WEEK

Get documents ready

- [ ] Collect every document below
- [ ] Upload to the vault
- [ ] Note what's missing

MISSION 3 — 45 MIN

Apply to 2

- [ ] Draft your essay with the helper
- [ ] Apply on the official site
- [ ] Mark them “applied”

Your worksheet

SCHOLARSHIP	AMOUNT	DEADLINE	DOCS READY?	APPLIED ✓

Document checklist

- [ ] Aadhaar card
- [ ] Latest marksheet
- [ ] Income certificate
- [ ] Caste / category certificate (if any)
- [ ] Bank passbook (student's name)
- [ ] Passport-size photo
- [ ] Bonafide / admission letter
- [ ] Disability certificate (if any)

Mission complete!
You have money on the way, not just a wish.

TOOL 04

Study Abroad

Abroad Compass: decide whether to go, where and for what, and check the money works before anyone sells you a university.

6	30	8
steps	lessons	countries

Why it matters

1. Study abroad is one of the biggest money decisions a family makes.
2. A calm, step-by-step check avoids expensive mistakes and agent pressure.
3. The ROI calculator shows how many years a degree takes to pay back.

Who it's for

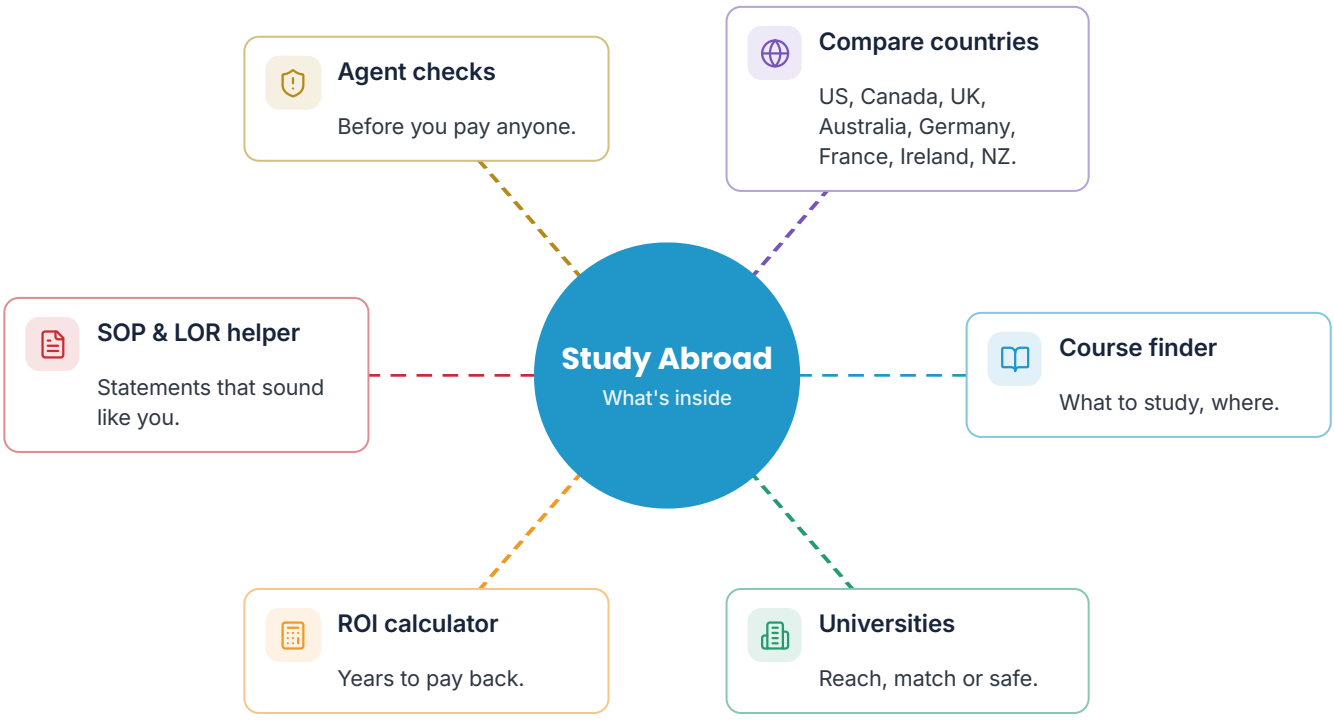

Class 9–10: plan early

Class 11–12: degree abroad

Parents: the money check

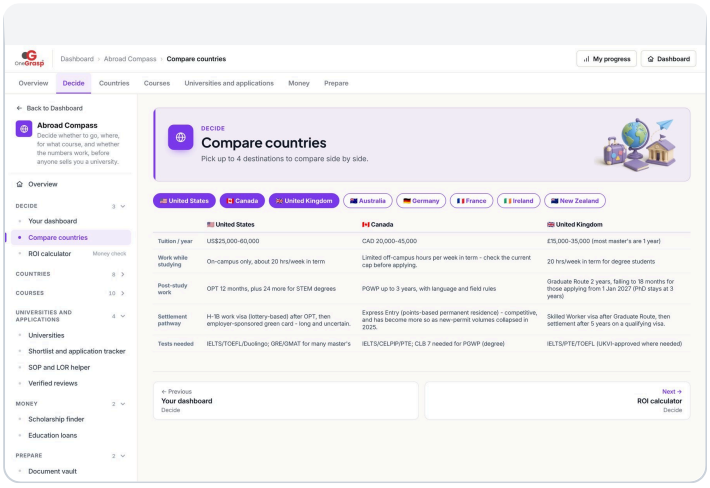

FIND IT Menu › Study Abroad

What's inside: the tool at a glance

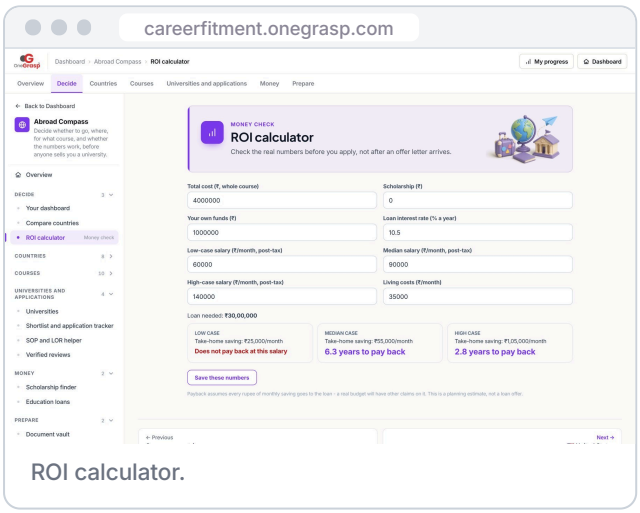

STUDY ABROAD · HOW IT WORKS

How to use it, step by step.

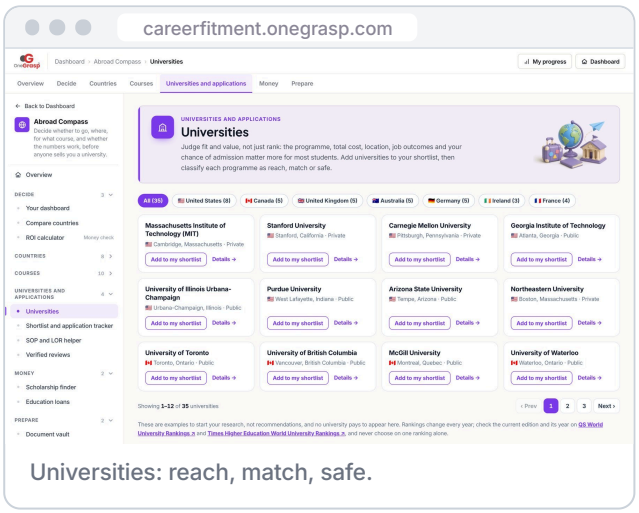

Compare up to four countries.

1. **Decide**
   Is abroad right for you, and when?
2. **Pick a country**
   Real costs, work rights, what's next.
3. **Pick a course**
   Match it to your report.
4. **Shortlist universities**
   2 reach, 3 match, 2 safe.
5. **Run the money check**
   ROI, loans, scholarships, then prepare SOP, LOR, documents.

ROI calculator.

Universities: reach, match, safe.

CAUTION

The calculator gives a planning estimate, not a loan offer. Real budgets have extra costs.

FOR PARENTS

Check the total cost (tuition + living + travel) before paying any application fee or agent.

STUDY ABROAD · DO IT NOW

Your missions. Tick them off.

Do these on your dashboard, then fill in the worksheet. Small, real actions beat reading about careers.

MISSION 1 — 30 MIN

Compare 3 countries

- [ ] Compare costs, work rights, visas
- [ ] Fill the comparison table
- [ ] Pick your top country

MISSION 2 — 20 MIN

Do the money check

- [ ] Run the ROI calculator
- [ ] Check 2 abroad scholarships
- [ ] Fill the budget box

MISSION 3 — 1 HOUR

Shortlist and prepare

- [ ] Shortlist 7 universities
- [ ] Outline your SOP
- [ ] List the documents you need

Your worksheet

COUNTRY	YEARLY TUITION	YEARLY LIVING	WORK RIGHTS	POST-STUDY VISA

My budget box

Tuition (total)	
+ Living (total)	
+ Travel & visa

TOOL 05

Internships & Jobs

209 free internship programmes from 135 companies, and fresh jobs every day, checked for scam warning signs.

209	135	₹0
free programmes	companies	to join

Why it matters

1. Employers look for proof, not just marks.
2. Certificates and projects from real companies make a CV stand out.
3. Fake job offers target freshers; Trust Shield checks every listing.

Who it's for

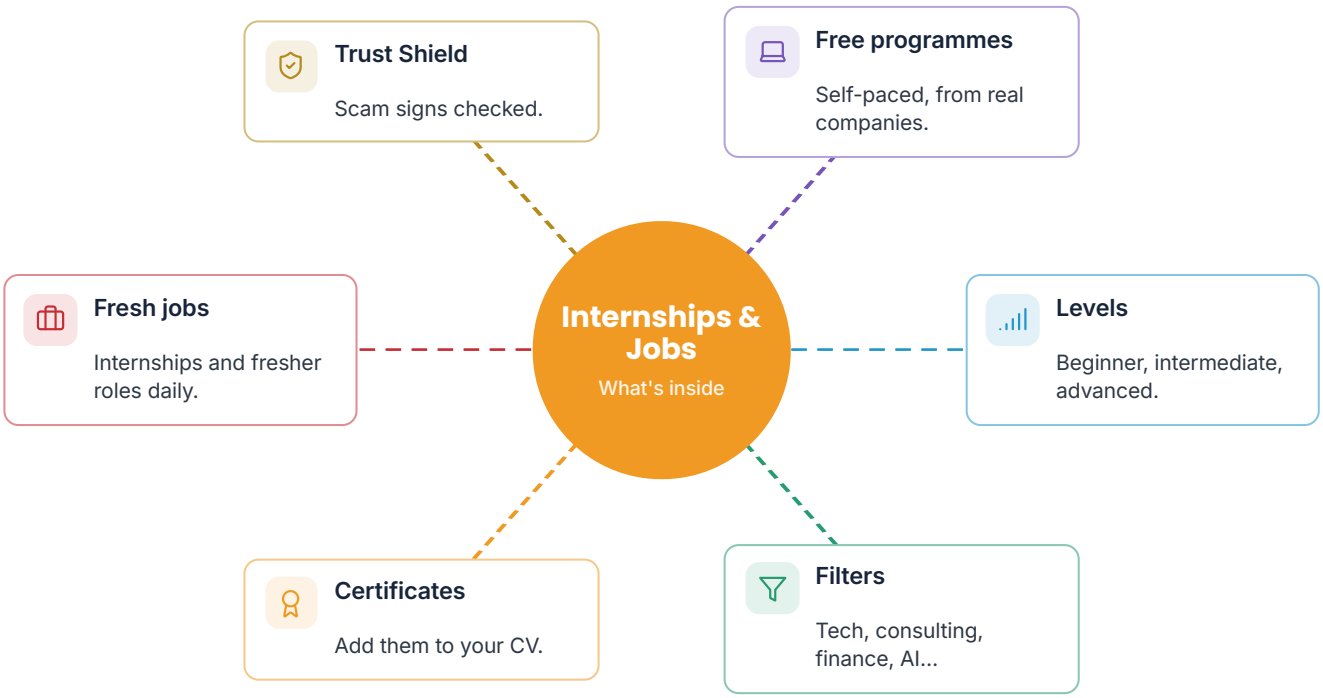

Class 9–12: beginner programmes

Class 11–12: summer internships

Everyone: certificates for your CV

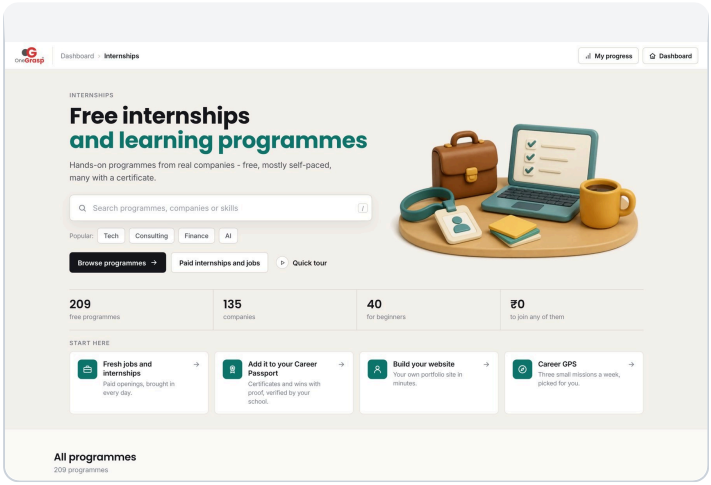

FIND IT Menu › Internships · Jobs

What's inside: the tool at a glance

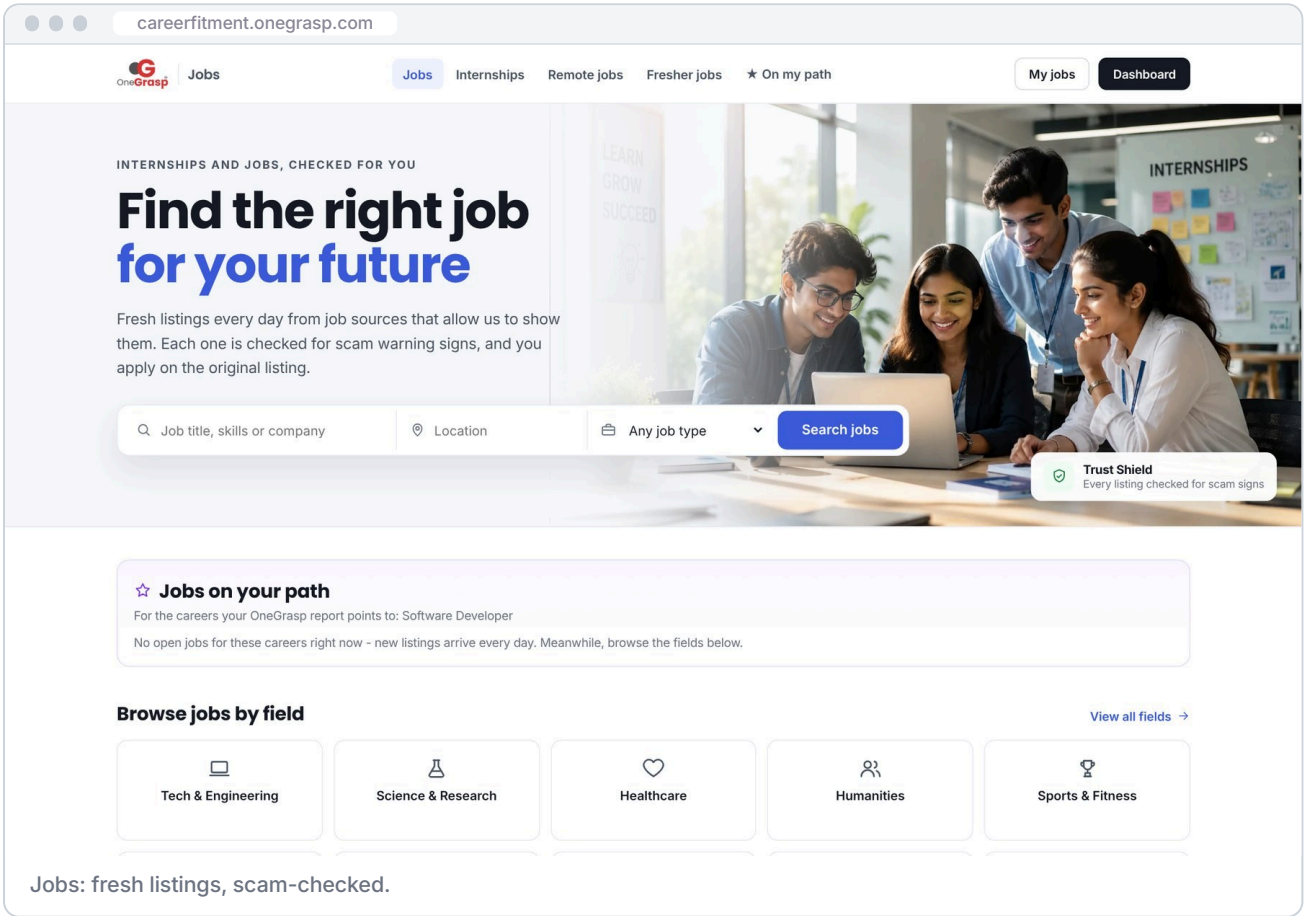

INTERNSHIPS & JOBS · HOW IT WORKS

How to use it, step by step.

Internships: filter by level and field.

1. **Pick your level**
   Start at beginner if it's your first one.
2. **Pick a field**
   Use your best-fit field from the report.
3. **Start the programme**
   Most are self-paced; 2–10 hours.
4. **Get the certificate**
   Add it to your Career Passport and CV.
5. **Apply for real roles**
   Use Jobs; apply on the original listing.

Jobs: fresh listings, scam-checked.

CAUTION

A real employer never asks you to pay for a job, training kit or "security deposit".

IN SIMPLE WORDS

One finished programme beats five half-started ones.

INTERNSHIPS & JOBS · DO IT NOW

Your missions. Tick them off.

Do these on your dashboard, then fill in the worksheet. Small, real actions beat reading about careers.

TOOL 06

Financial Literacy

Money skills, one level at a time: short lessons, a life simulation, eight money labs and Scam Shield games, with virtual money so mistakes cost nothing.

6	16	19
levels	lessons	tools

Why it matters

1. Every career pays a salary; few schools teach what to do with it.
2. Scams cost Indian families crores every year; spotting them is a life skill.
3. Compounding rewards people who start early, even with ₹500 a month.

Who it's for

Class 6–8: needs vs wants

Class 9–12: saving, banking, scams

Class 11–12: salary, tax, credit, EMIs

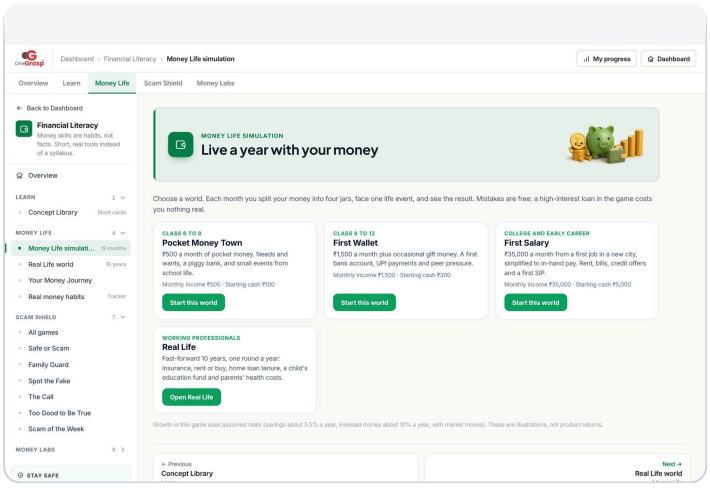

FIND IT Menu › Financial Literacy

What's inside: the tool at a glance

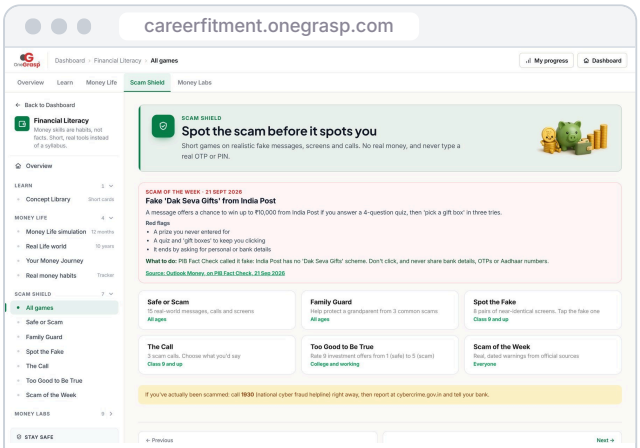

FINANCIAL LITERACY · HOW IT WORKS

How to use it, step by step.

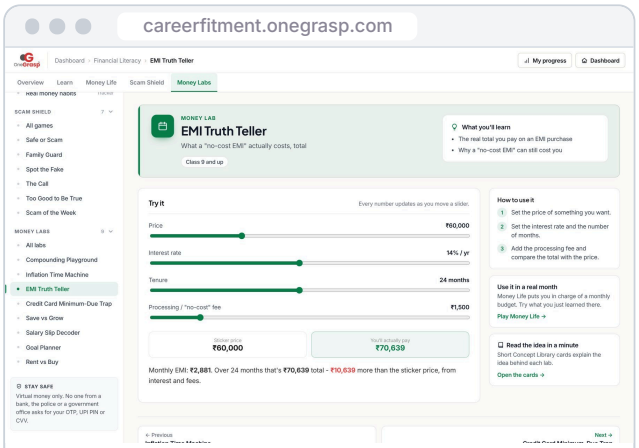

Money Life: split each month into needs, wants, savings and growth.

1. **Climb Level 1**
   Money basics: two or three short lessons.
2. **Play Money Life**
   See where your monthly choices lead.
3. **Try two labs**
   Compounding and EMI first.
4. **Play Scam Shield**
   Spot the Fake, Safe or Scam, The Call.
5. **Track a week**
   Use Habits to log what you spend.

Scam Shield: a real scam each week.

EMI Truth Teller.

CAUTION

Report fraud on **1930** or cybercrime.gov.in. Never share OTP, PIN or passwords, with anyone.

IN SIMPLE WORDS

Needs first, then save, then wants. Saving is not what's left over; it's paid first.

FINANCIAL LITERACY · DO IT NOW

Your missions. Tick them off.

Do these on your dashboard, then fill in the worksheet. Small, real actions beat reading about careers.

MISSION 1 · 20 MIN

Learn the basics

- [ ] Finish Level 1
- [ ] Read 3 money cards
- [ ] Unlock Level 2

MISSION 2 · 20 MIN

Play your life

- [ ] Play Money Life for 12 months
- [ ] Try the Compounding lab
- [ ] Note your money score

MISSION 3 · 15 MIN

Become scam-proof

- [ ] Play Safe or Scam
- [ ] Play The Call
- [ ] Teach Family Guard to a parent

TOOL 07

Law & Rights

Know your rights and what to do first. Answer two questions and get the right guide, the steps to take, ready-made letters and the helpline to call.

24	37	112
guides	lessons	always first

Why it matters

1. Knowing your rights is protection: most problems get worse when people don't know the first step.
2. Ready-made complaint and RTI letters save time and fear.
3. Helplines in your phone can save a life.

Who it's for

School: bullying, safe touch, cyberbullying

College: ragging, privacy, fraud

First job: offer letter, wages, harassment

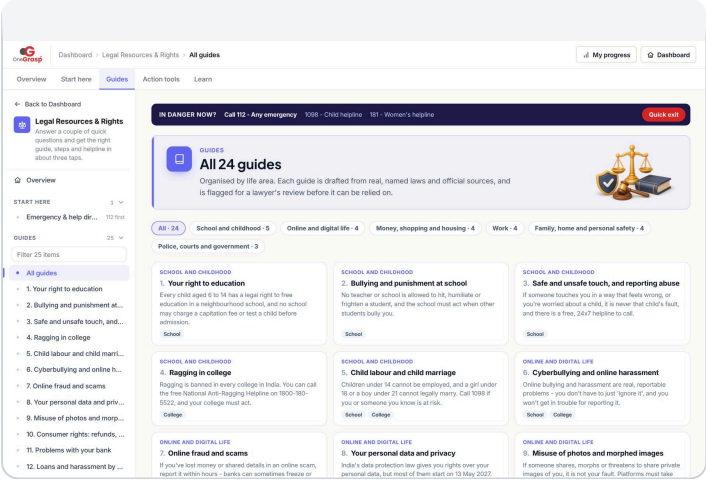

FIND IT Menu › Law & Rights

What's inside: the tool at a glance

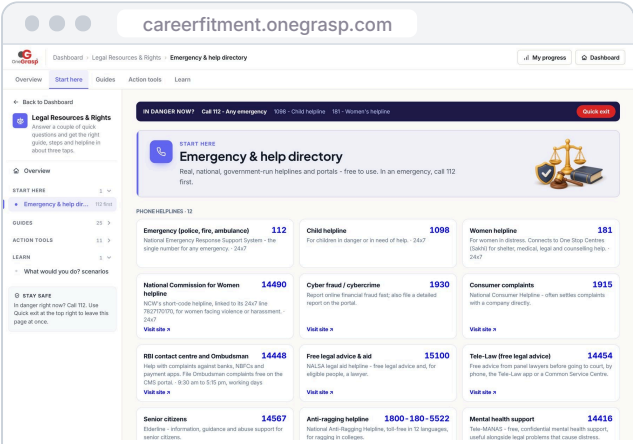

LAW & RIGHTS · HOW IT WORKS

How to use it, step by step.

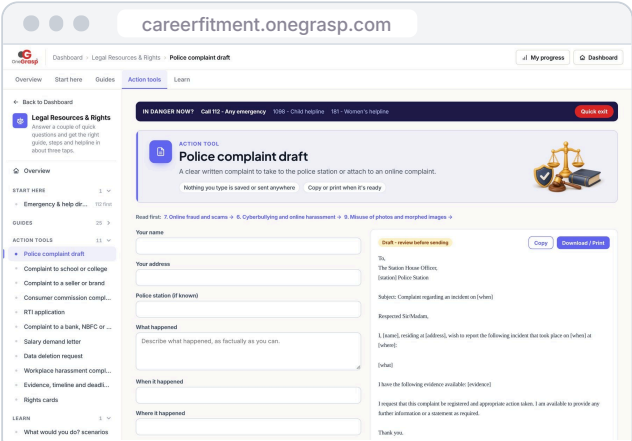

All 24 guides, by situation.

1. **Start with what happened**
   Answer two quick questions.
2. **Read the guide**
   Your rights and the first steps, in plain words.
3. **Call the right helpline**
   One tap from the guide.
4. **Use the letter**
   Fill in the blanks; print or send.
5. **Keep an evidence log**
   Dates, screenshots, deadlines.

Emergency and help directory.

Police complaint draft.

CAUTION

In danger? Call **112** first. Guides explain rights; they don't replace a lawyer. Free legal aid: **15100**.

FOR PARENTS

Read the safe-touch and cyberbullying guides with younger children.

LAW & RIGHTS · DO IT NOW

Your missions. Tick them off.

Do these on your dashboard, then fill in the worksheet. Small, real actions beat reading about careers.

MISSION 1 — 10 MIN

Save the helplines

- [ ] Save 112, 1098, 181, 1930 in your phone
- [ ] Fill the emergency card
- [ ] Keep it in your bag

MISSION 2 — 20 MIN

Know your rights

- [ ] Read 2 guides for your age
- [ ] Save your rights cards
- [ ] Tell one friend one right

MISSION 3 — 15 MIN

Practise

- [ ] Do 3 “What would you do?” scenarios
- [ ] Open the police complaint draft
- [ ] Learn where RTI lives

TOOL 08

AI & Certifications

Learn AI for free and get certified: courses from the Government of India's YUVA AI for All to Harvard, Google, IBM and Kaggle, plus AI tools rated for your age.

4 levels

Free certificates

Age-rated tools

Why it matters

1. AI and big data are among the fastest-growing skills employers want (WEF 2025).
2. Free certificates from Google, IBM or Harvard add real weight to a CV.
3. Using AI safely and honestly is now part of being a good student.

Who it's for

Everyone: AI Aware

Class 9–10: AI User

Class 11–12: AI Maker & Builder

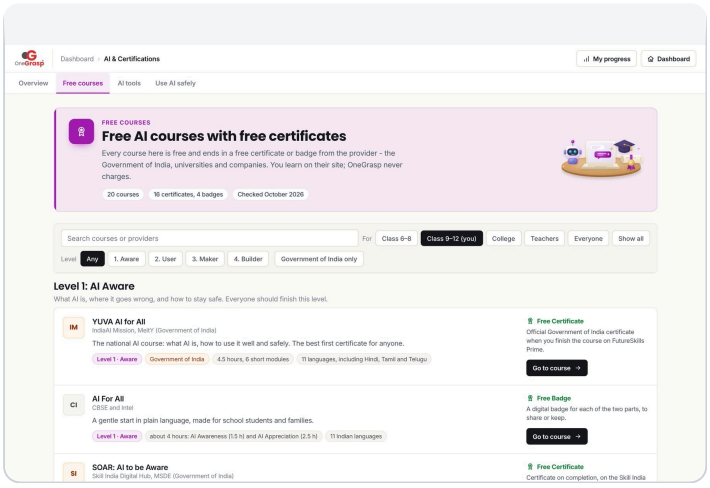

FIND IT Menu › AI & Certifications

What's inside: the tool at a glance

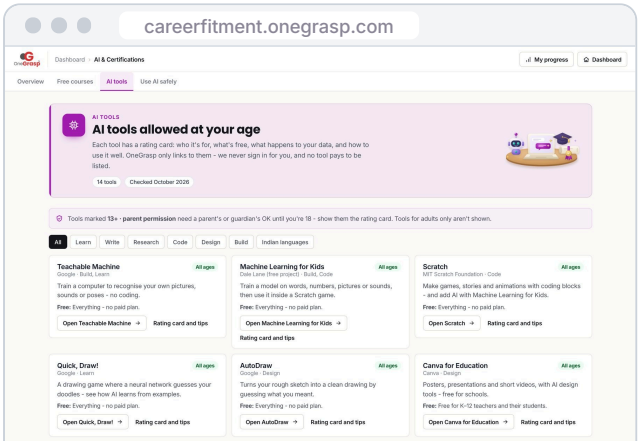

AI & CERTIFICATIONS · HOW IT WORKS

How to use it, step by step.

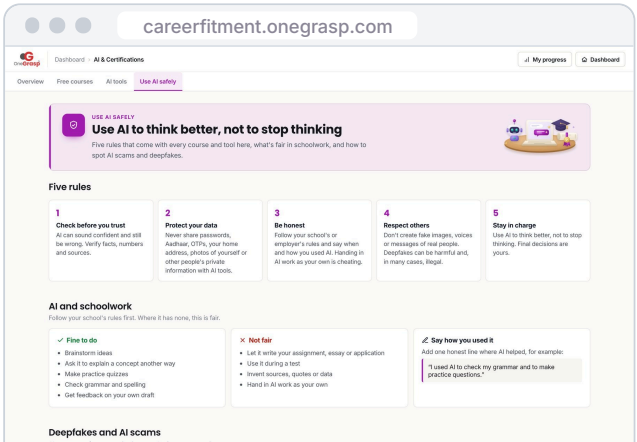

Free certificate courses by level.

1. **Start at AI Aware**
   What AI is, where it goes wrong, staying safe.
2. **Pick one free course**
   At your level; note the hours.
3. **Try one rated tool**
   Only the ones shown for your age.
4. **Finish and certify**
   Download the certificate or badge.
5. **Climb a level**
   User → Maker → Builder.

AI tools allowed at your age.

Use AI to think better, not stop thinking.

CAUTION

Never paste personal details into AI tools. Check every AI answer; it can be confidently wrong.

IN SIMPLE WORDS

Use AI like a tutor, not a ghost-writer: ask it to explain, then do the work yourself.

AI & CERTIFICATIONS · DO IT NOW

Your missions. Tick them off.

Do these on your dashboard, then fill in the worksheet. Small, real actions beat reading about careers.

MISSION 1 · 30 MIN

Become AI Aware

- [ ] Finish the AI Aware level
- [ ] Read “Use AI safely”
- [ ] Sign the pledge below

MISSION 2 · 2–8 HOURS

Earn a certificate

- [ ] Pick one free course
- [ ] Finish it
- [ ] Add it to your Passport

MISSION 3 · 45 MIN

Make something

- [ ] Try Teachable Machine or Scratch

TOOL 09

Communication Lab

Speak, write and listen with confidence: a course for your class, a one-minute daily speaking challenge with instant feedback, and your Communication Score (CQ).

4	1 min	CQ
class tracks	daily challenge	your score

Why it matters

1. Interviews, presentations, group discussions and vivas all reward clear speaking.
2. Feedback on pace, filler words and pauses improves you fast.
3. A rising CQ is visible proof of growth.

Who it's for

Class 6–8 track
Class 9–10 track
Class 11–12 track
College track

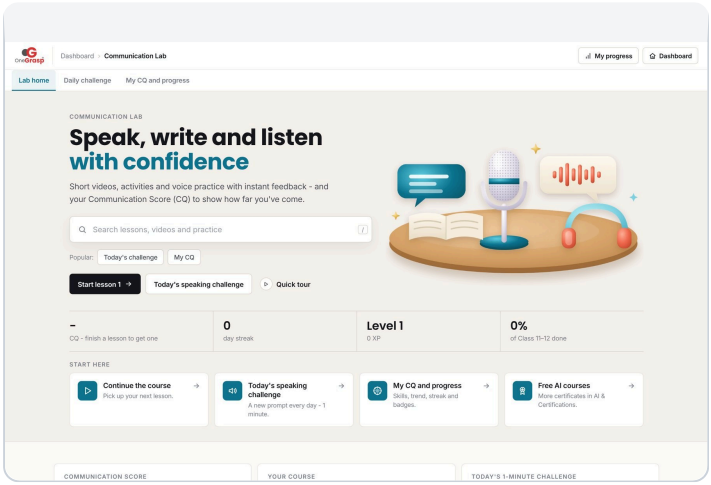

FIND IT Menu › Communication Lab

What's inside: the tool at a glance

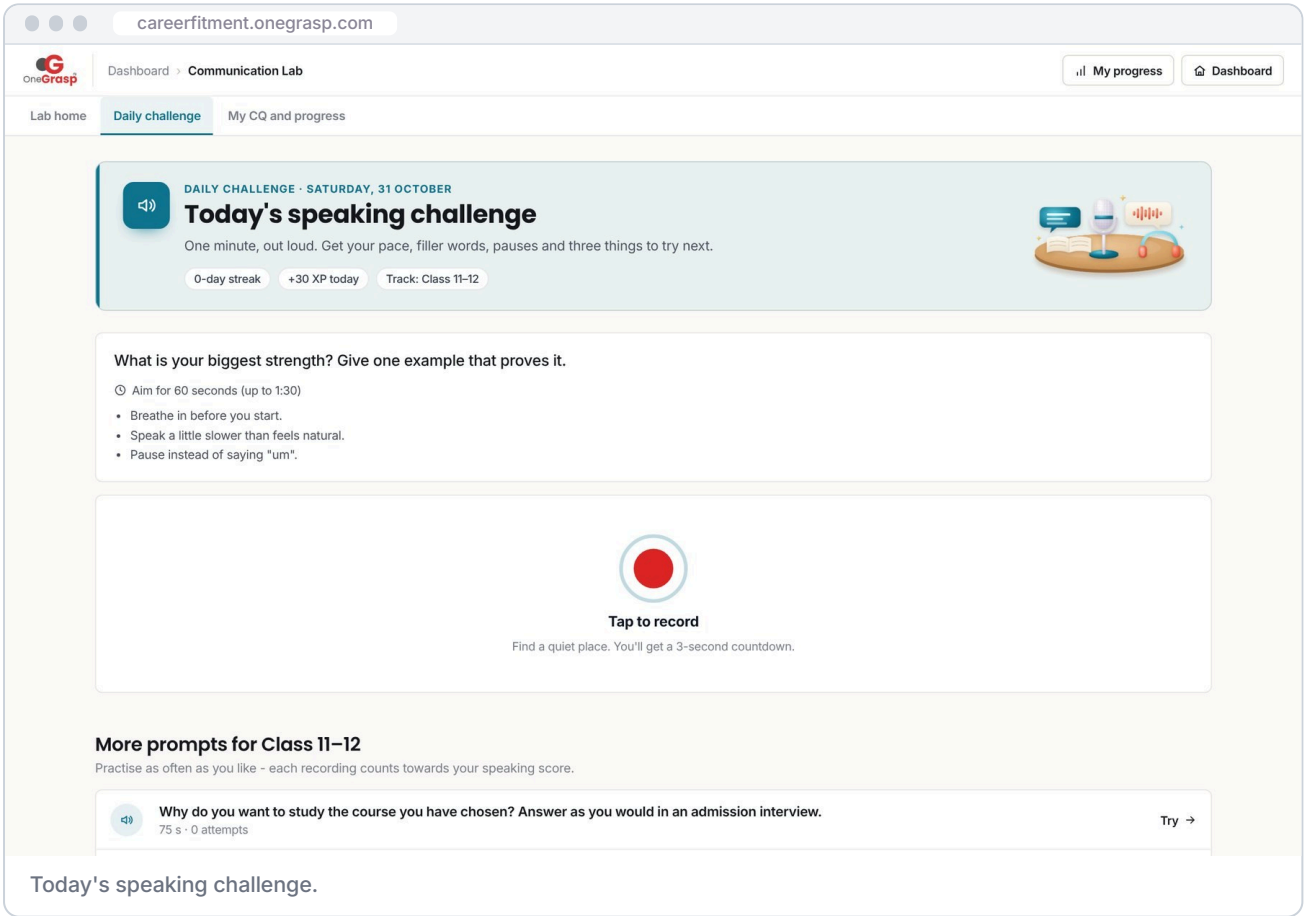

COMMUNICATION LAB · HOW IT WORKS

How to use it, step by step.

A course for your class, module by module.

1. **Open your track**
   It matches your class automatically.
2. **Do this week's module**
   Video, activity, short check-in.
3. **Take the daily challenge**
   Speak for one minute.
4. **Read your feedback**
   Pace, filler words, pauses, 3 tips.
5. **Watch your CQ**
   Check the trend every Sunday.

Today's speaking challenge.

IN SIMPLE WORDS

Fewer "umm"s and slower pace are the two fastest wins for most students.

TRY THIS

Record the same prompt on Monday and Friday. Hear the difference.

COMMUNICATION LAB · DO IT NOW

Your missions. Tick them off.

Do these on your dashboard, then fill in the worksheet. Small, real actions beat reading about careers.

MISSION 1 · 15 MIN

Start strong

- [ ] Open your track
- [ ] Finish module 1
- [ ] Note your starting CQ

MISSION 2 · 5 × 1 MIN

Five-day streak

- [ ] Do the daily challenge 5 days running
- [ ] Read each feedback
- [ ] Fix one habit

MISSION 3 · 20 MIN

Your introduction

- [ ] Write your 60-second intro below
- [ ] Record it
- [ ] Re-record until it flows

Your worksheet

TOOL 10

Resume & Interview

From your resume to your first offer: an ATS-friendly resume with AI help, jobs matched with a fit score, tailored cover letters and interview practice out loud.

6	100	PDF
steps to an offer	interview questions	resume download

Why it matters

1. Most companies screen resumes with software (ATS) before a human reads them.
2. Tailoring each application raises your chances sharply.
3. Practising answers out loud is the best cure for interview nerves.

Who it's for

Class 11–12: first resume for internships

Parents: help with the first CV

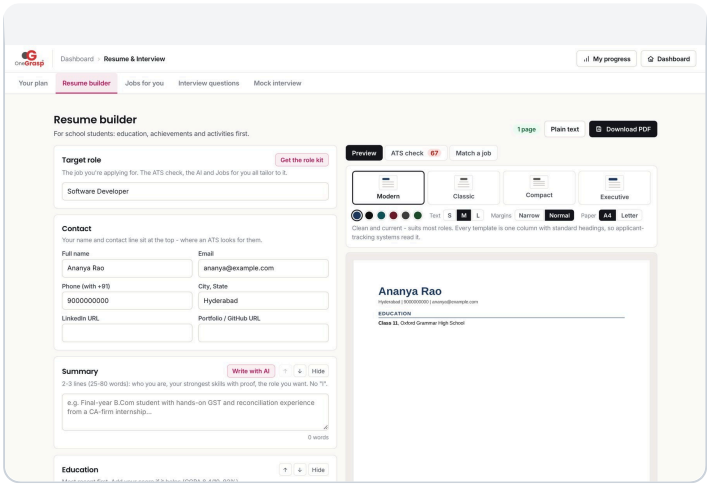

FIND IT Menu › Resume & Interview

What's inside: the tool at a glance

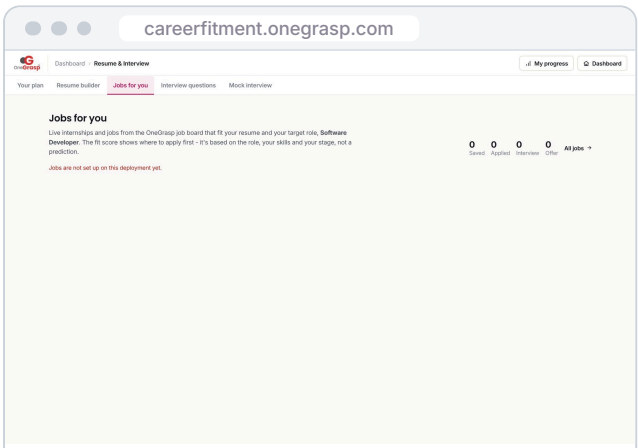

RESUME & INTERVIEW · HOW IT WORKS

How to use it, step by step.

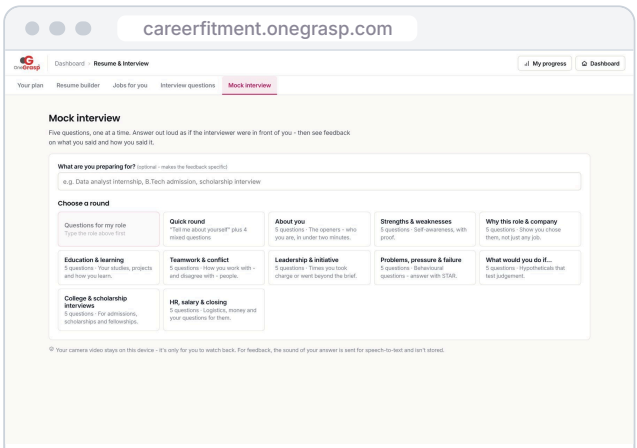

Resume builder with live preview and PDF.

1. **Pick a target role**
   From your best-fit fields.
2. **Build your resume**
   Use the role kit; let AI polish your own words.
3. **Check it like an ATS**
   Fix missing keywords.
4. **Apply with a cover letter**
   One tailored letter per job.
5. **Practise interviews**
   Answer out loud; read the feedback.

Jobs matched to your resume.

Mock interview.

IN SIMPLE WORDS

Use the **STAR** method for answers: Situation, Task, Action, Result.

CAUTION

Only write what's true. Interviewers ask about every line.

RESUME & INTERVIEW · DO IT NOW

Your missions. Tick them off.

Do these on your dashboard, then fill in the worksheet. Small, real actions beat reading about careers.

MISSION 1 · 45 MIN

Build your resume

- [ ] Choose your target role
- [ ] Complete every section
- [ ] Download the PDF

MISSION 2 · 30 MIN

Apply smart

- [ ] Find 3 jobs with a high fit score
- [ ] Generate a cover letter for one
- [ ] Apply on the original listing

MISSION 3 · 30 MIN

Practise out loud

- [ ] Do one mock interview
- [ ] Prepare the 3 STAR answers below
- [ ] Redo your weakest answer

Your worksheet

QUESTION	SITUATION	TASK	ACTION	RESULT
Tell me about a challenge you solved				
A time you worked in a team				
A mistake you learned from				

Mission complete!
Your resume is ready and your three best stories are rehearsed.

TOOL 11

Proof & Progress

Build your website, collect verified achievements in your Career Passport, follow three Career GPS missions every week, and watch it all add up in My Progress.

3	+10	QR
missions a week	points each	verified passport

Why it matters

1. Colleges and employers trust proof more than claims.
2. Three small missions a week build a habit that lasts.
3. Seeing your streak and progress keeps you going.

Who it's for

Every class

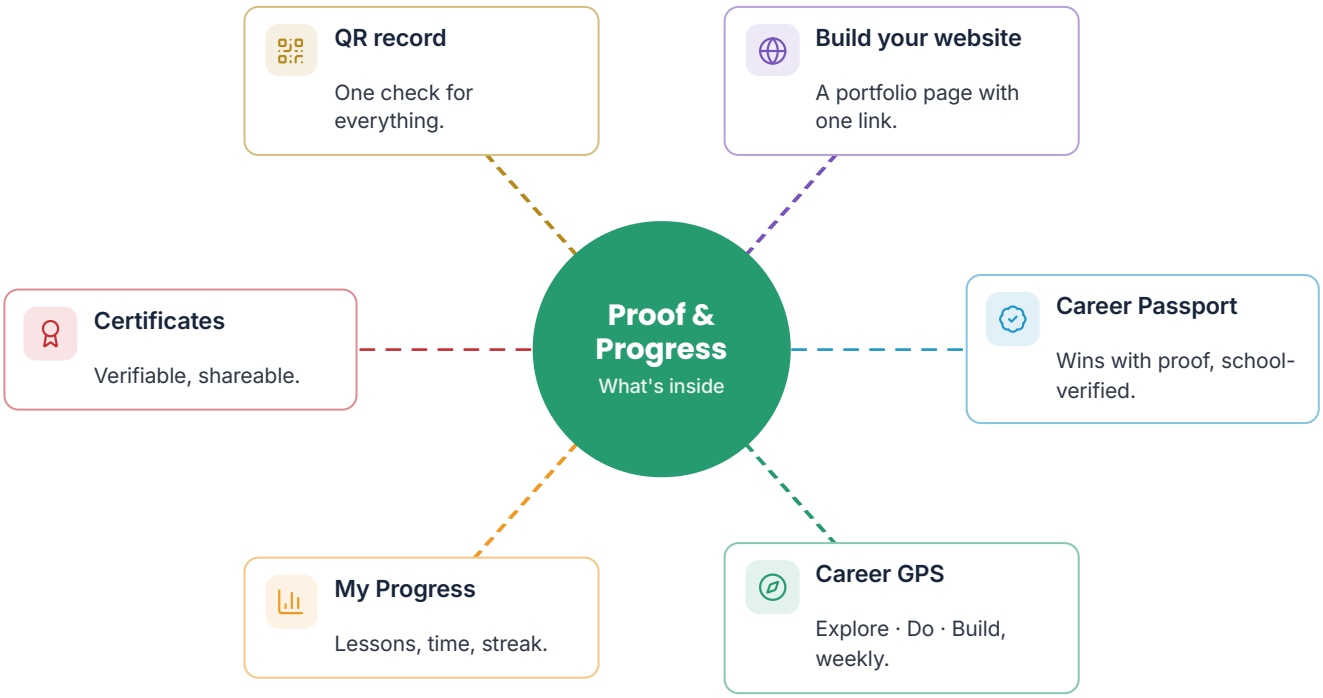

Parents see weekly progress

Schools verify achievements

FIND IT Menu ›

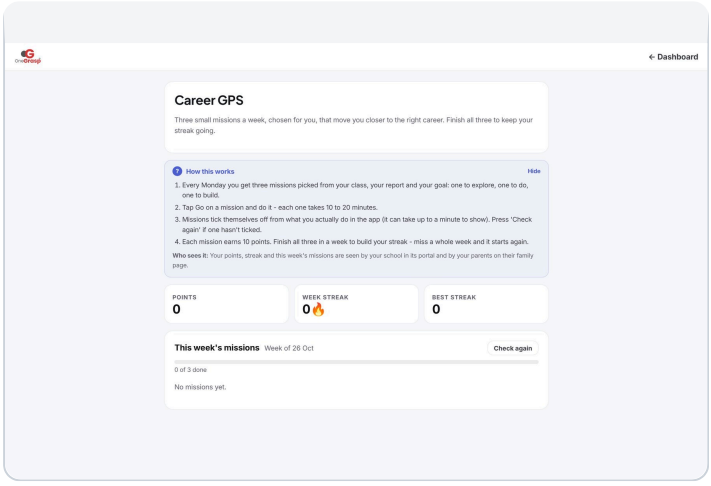

My Progress · Certificates · Build your website

What's inside: the tool at a glance

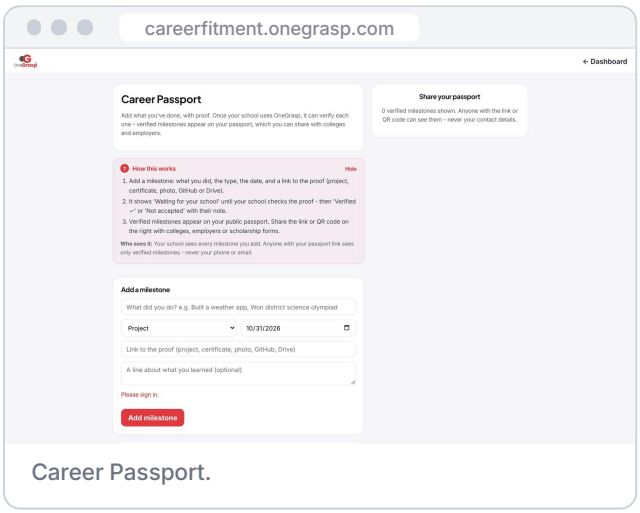

PROOF & PROGRESS · HOW IT WORKS

How to use it, step by step.

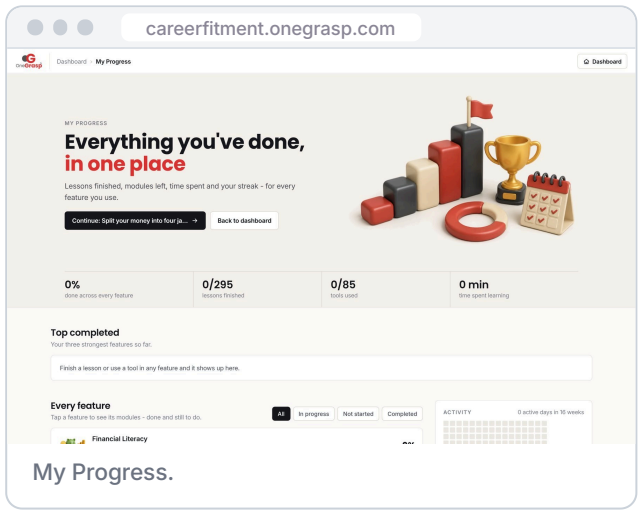

Career GPS: three missions every Monday.

1. **Do this week's GPS**
   Explore a career, try a task, build something.
2. **Log achievements**
   Add proof to your Passport.
3. **Get them verified**
   Your school confirms them.
4. **Publish your website**
   Share the link only when ready.
5. **Check My Progress weekly**
   Continue where you stopped.

Career Passport.

My Progress.

IN SIMPLE WORDS

GPS = small steps, every week. Passport = proof. Website = your shop window.

GOOD TO KNOW

Add only what's true and what you can prove. A short, honest profile beats a long one.

PROOF & PROGRESS · DO IT NOW

Your missions. Tick them off.

Do these on your dashboard, then fill in the worksheet. Small, real actions beat reading about careers.

MISSION 1 — 40 MIN

Go live

- [ ] Fill every tab of your website
- [ ] Preview it
- [ ] Copy your link

MISSION 2 — 20 MIN

Collect proof

- [ ] Add 2 achievements to your Passport
- [ ] Upload proof for each
- [ ] Ask your school to verify

MISSION 3 — 4 WEEKS

Keep the streak

- [ ] Do all 3 GPS missions each week
- [ ] Tick the grid below
- [ ] Check My Progress every Sunday

Your worksheet

WEEK	EXPLORE ✓	DO ✓	BUILD ✓	POINTS	WHAT I DID

TOOL 12

Spotlight

Career boosters from OneGrasp: present research at an international conference, publish a paper, get an ISBN for your book, start a journal with an ISSN, or be featured in Awardees Magazine.

5	DOI	Free
boosters	for abstracts	to ask

Why it matters

1. A published paper, a DOI or an ISBN is permanent, checkable proof of your work.
2. Presenting internationally builds confidence and a network.
3. The team guides you through official rules step by step.

Who it's for

- Class 11–12 researchers
- Young authors
- Faculty and professionals

FIND IT Menu › Spotlight

What's inside: the tool at a glance

SPOTLIGHT · DO IT NOW

Your missions. Tick them off.

Do these on your dashboard, then fill in the worksheet. Small, real actions beat reading about careers.

MISSION 1 — 10 MIN

Pick your booster

- [ ] Read all five boosters
- [ ] Choose one that fits your goal
- [ ] Note it below

MISSION 2 — 1–4 WEEKS

Prepare

- [ ] Finish your abstract, article or manuscript
- [ ] Use writing help if needed
- [ ] Get a mentor's feedback

MISSION 3 — 15 MIN

Submit

- [ ] Send the request in Spotlight
- [ ] Read the fee and next steps
- [ ] Add the result to your Passport

Your worksheet

My booster plan

Booster I chose:

Title of my work:

Mentor / guide:

Target date:

Abstract in 5 lines

1 · Problem 2 · Why it matters 3 · What I did 4 · What I found 5 · What it means

Mission complete!
Your work is ready for an international audience.

07

PART 07

Startups & Funding

OneGrasp's startup programmes, and every grant, loan, subsidy, equity and credit-guarantee programme in the dashboard's Funding directory: 311 of them.

IN THIS PART

01 The Startups course 89

02 Spot, Build, Pitch 92

03 How to use the Funding directory 93

04 Funding for early-stage startups 94

YOUR DASHBOARD

TOOL 13

Startups

Build a startup, lesson by lesson: 11 modules, 52 video lessons, a quiz after each, a mission on your own idea, and 311 funding programmes when you're ready.

11	52	311
modules	video lessons	funding programmes

Why it matters

1. Entrepreneurship is learned by doing, not by reading about it.
2. Every module ends with a mission on your own idea, so you finish with a real plan.
3. Funding is listed in one place, with amounts and deadlines.

Who it's for

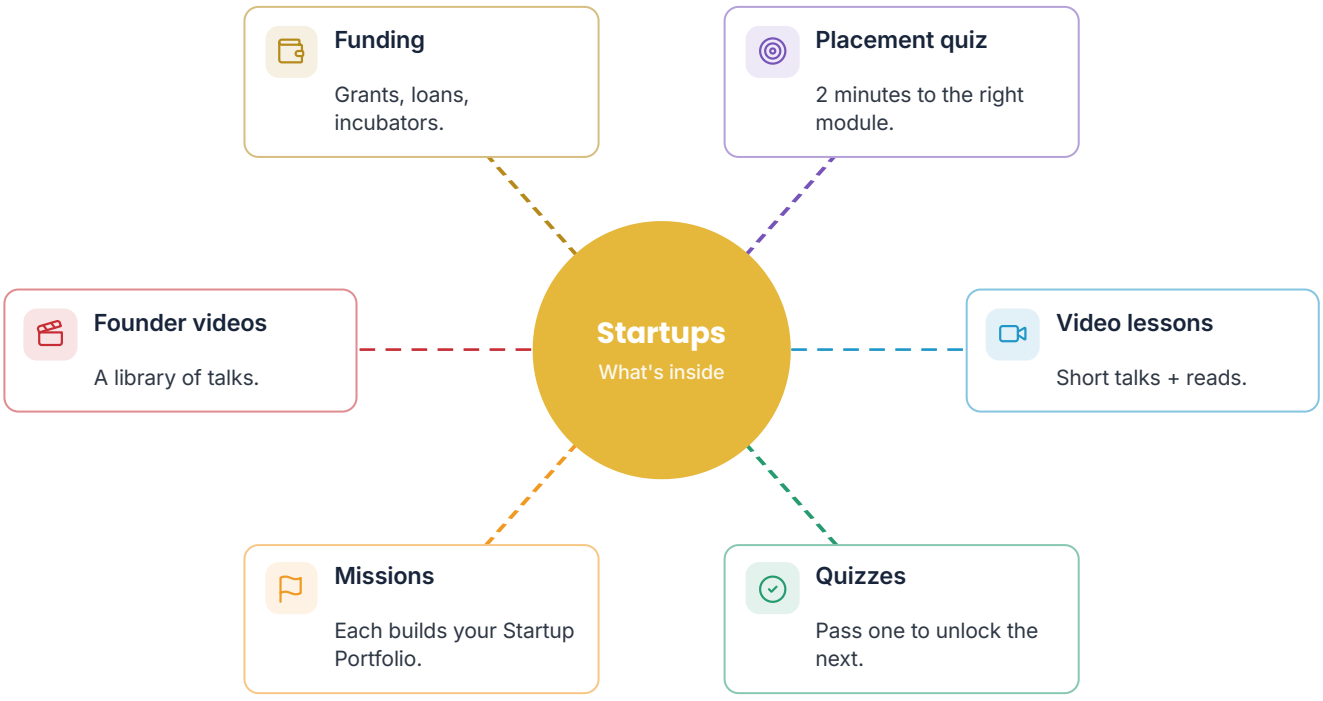

Class 9–12: founder mindset

Class 11–12: build and pitch

Anyone with an idea

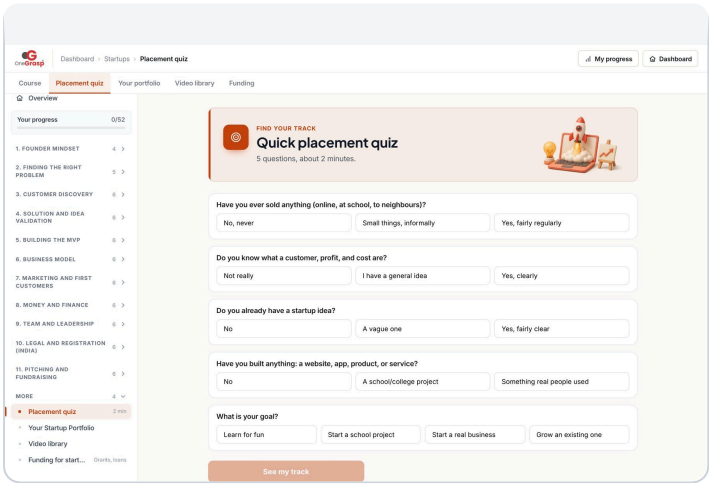

FIND IT Dashboard › Career Toolkit › Startups

What's inside: the tool at a glance

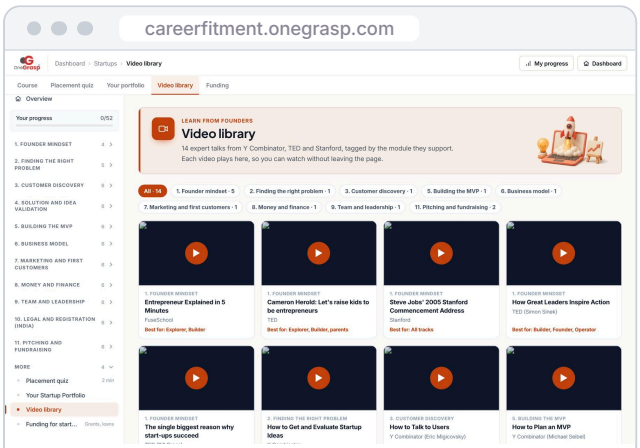

STARTUPS · HOW IT WORKS

How to use it, step by step.

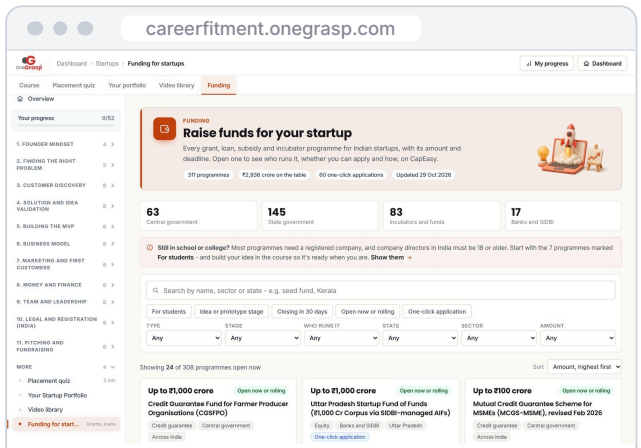

The 2-minute placement quiz.

1. **Take the placement quiz**
   It points you to the right module.
2. **Watch and read**
   Each lesson is short.
3. **Do the task on your idea**
   Every lesson, a small action.
4. **Pass the quiz**
   Unlocks the next lesson; a test ends each module.
5. **Build your portfolio**
   Missions become pages; then find funding.

Video library.

Funding directory.

IN SIMPLE WORDS

Modules: Founder Mindset → Right Problem → Customer Discovery → Validation → MVP → Business Model → First Customers → Money → Team → Legal (India) → Pitching.

GOOD TO KNOW

Learning from failure is part of the course.

STARTUPS · DO IT NOW

Your missions. Tick them off.

Do these on your dashboard, then fill in the worksheet. Small, real actions beat reading about careers.

MISSION 1 — 30 MIN

Find the right problem

- [ ] Take the placement quiz
- [ ] Finish module 1 or 2
- [ ] Write your problem below

MISSION 2 — 1 WEEK

Talk to 5 people

- [ ] Interview 5 people who have the problem
- [ ] Ask about their past, not your idea
- [ ] Note what you learned

MISSION 3 — 45 MIN

Shape your idea

- [ ] Fill the idea canvas
- [ ] Find 2 funding programmes for your stage
- [ ] Share it with a mentor

Your worksheet

Problem
What hurts, for whom?

Customer
Who exactly has it?

Solution
My first simple answer

Proof
What the 5 interviews said

First customers
How I'll reach 10 people

Money
Who pays, how much, why

Team
Who I need

Funding to try
2 programmes from Part 7

Mission complete!
You have a tested problem and a one-page plan.

DONE ON _____

CHECKED BY PARENT / TEACHER _____

ENTREPRENEURSHIP

Entrepreneurship is best learned by doing.

Most students meet entrepreneurship as a chapter, a guest lecture or a case study. OneGrasp's startup programmes give them a real occasion to take one problem, build a first answer and defend it in front of people who ask hard questions.

01

SPOT

Observe, investigate and define a real problem.

02

BUILD

Develop a prototype or a structured business solution.

03

PITCH

Present the idea, answer questions and plan the next steps.

From problem to pitch: what students actually do

01 STEP 1
Meet a real-world problem
Chosen by the team.

02 STEP 2
Find out who lives with it
Talk to real users.

03 STEP 3
Build and test a first solution
Something people can handle.

04 STEP 4
Shape a business model
Who pays, and why.

05 STEP 5
Present it
Answer hard questions.

In the lecture hall

Learning about business: a chapter on business models, a guest lecture, a case study.

In the OneGrasp programme

Building and testing an idea: a real problem chosen by the team, a first solution people can handle, a panel that asks hard questions.

For universities: OneGrasp designs the cohort with the institution and delivers it on campus. Talk to us at support@onegrasp.com.

FUNDING DIRECTORY

Money to start your startup.

The dashboard's Funding directory lists every grant, loan, subsidy, equity and credit-guarantee programme for Indian startups from CapEasy's scheme directory (CapEasy is OneGrasp's own company). The next two pages list the 121 programmes open at idea, proof-of-concept or prototype stage, where student founders start. All 311 are in the dashboard (data as of 2026-10-29).

311 programmes

₹2,936 cr on offer in total

121 for idea / prototype stage

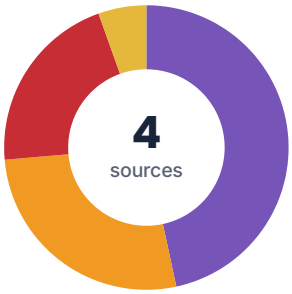

60 one-click applications

What kind of money?

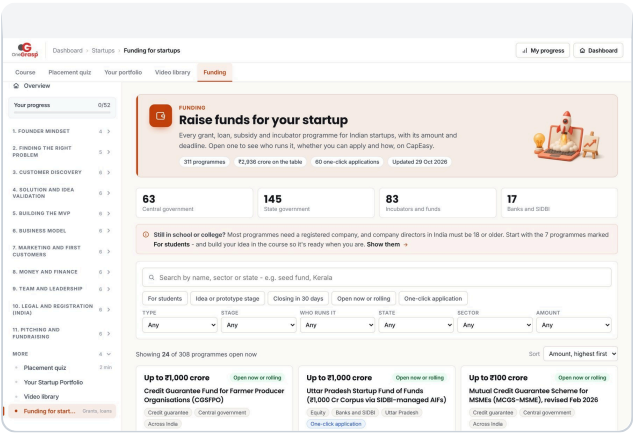

Grant	174
Subsidy	73
Loan	48
Equity	12
Guarantee	4

Who runs them?

State government	145
Incubators and funds	84
Central government	65
Banks and SIDBI	17

Startups › Funding: filter by stage, amount, type, state and sector.

1. **Filter for students** — Tick “For students” or pick Idea, Proof of concept or Prototype.
2. **Pick your state and sector** — State schemes only fund startups registered in that state.
3. **Open the programme** — Each opens its CapEasy page: details, eligibility, how to apply.
4. **Check the deadline** — “Open now or rolling”, or a date. Plan back from it.

Reading the listing

Grant · Subsidy · Loan · Equity · Guarantee

Grant: money you don't repay · **Subsidy:** part of a cost paid back to you · **Loan:** repaid, often at low interest · **Equity:** investment for a share · **Guarantee:** cover that helps you get a loan

CAUTION

Never pay an agent to “guarantee” a government grant. Real schemes apply directly or through registered incubators.

FUNDING DIRECTORY

Funding for early-stage startups (1 of 2)

02 International scientific conferences 100

03 The researcher journey 101

04 The OneGrasp Scientific Committee 102

05 Featured member: Dr Rudrarup Gupta 103

06 Keynotes, awards and the conference day 104

YOUR DASHBOARD

TOOL 14

Research Studio

From a good question to your first conference talk: eight short units, a project planned backwards from a real conference date, a mentor check and a practice recorder.

8	14	5
studio units	lessons	levels

Why it matters

1. Research shows colleges and employers that you can think independently.
2. Planning back from a real conference date turns curiosity into a finished project.
3. Presenting your work builds confidence that lasts.

Who it's for

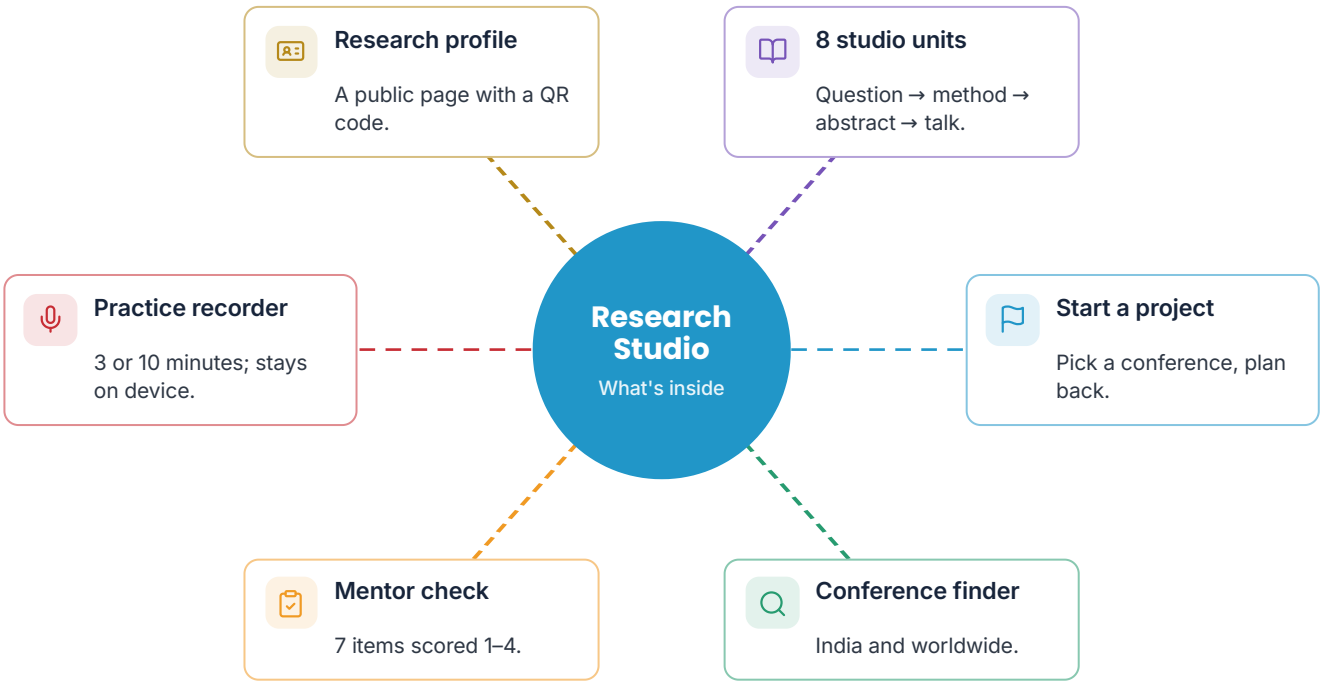

Class 9–12: first project

Class 11–12: conferences

Teachers: mentor checks

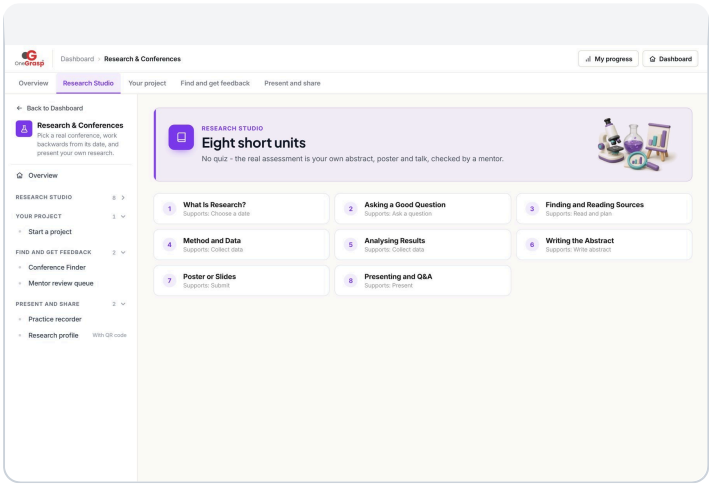

FIND IT Dashboard › Career Toolkit › Research

What's inside: the tool at a glance

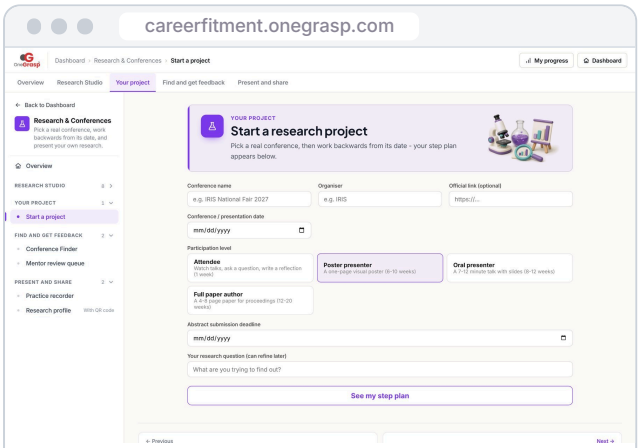

RESEARCH STUDIO · HOW IT WORKS

How to use it, step by step.

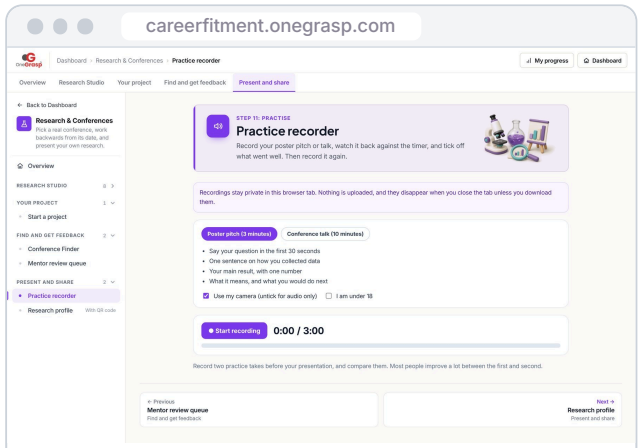

Eight studio units.

1. **Do unit 1**
   What research is, in 10 minutes.
2. **Pick a conference**
   Find one 3–6 months away.
3. **Plan backwards**
   Question, sources, method, results, abstract, slides.
4. **Mentor check**
   7 items, each 1–4, before you submit.
5. **Rehearse and present**
   Record, compare tries, then submit via Spotlight.

Start a project from a conference date.

Practice recorder.

IN SIMPLE WORDS

The 8 units: What is research · A good question · Sources · Method & data · Results · Abstract · Poster or slides · Presenting & Q&A.

FOR TEACHERS

Use the mentor check as a simple rubric for school projects.

RESEARCH STUDIO · DO IT NOW

Your missions. Tick them off.

Do these on your dashboard, then fill in the worksheet. Small, real actions beat reading about careers.

MISSION 1 — 30 MIN

Ask a good question

- [ ] Finish units 1 and 2
- [ ] Write 3 questions below
- [ ] Pick the best one

MISSION 2 — 20 MIN

Plan from the date

- [ ] Find a conference
- [ ] Fill the backward plan
- [ ] Tell your mentor

MISSION 3 — 1 HOUR

Present

- [ ] Write a 5-line abstract
- [ ] Record a 3-minute talk
- [ ] Submit through Spotlight

Your worksheet

My research question

I wonder why / how / whether...

A good question is specific, answerable and interesting to someone else.

My backward plan

WEEKS BEFORE	I WILL FINISH
12	Question + sources
9	Method and data
6	Results
4	Abstract (mentor check)
2	Slides + rehearsal
0	Present!

Mission complete!

You have a real question, a plan and a date.

SCIENTIFIC COMMITTEE

Featured member
Dr Rudrarup Gupta

Member, OneGrasp International Scientific Committee

Profile
Researcher, Business & Economics
Also
Cricket commentator with the BCCI; founder
Country
India
Committee disciplines
Business & Economics · Education · Social Sciences & Humanities

Role on the committee

Members of the OneGrasp International Scientific Committee review submitted abstracts in their disciplines, chair paper sessions and deliver keynotes at OneGrasp's online conferences. Dr Gupta serves across three of the eleven disciplines listed above.

Why it matters to students

When a student presents at a OneGrasp conference, their work is reviewed by experienced researchers and professionals such as Dr Gupta, so the feedback reflects both academic and real-world practice.

CONFERENCES

Keynotes from leading experts.

Committee members and invited experts open each day with keynotes that bridge research and practice.

Dr Manjunath G N

Professor & Head, Pharmacology, Sri Siddhartha Medical College, India

Mental health & psychological stress in athletes · Brain–computer interfaces

Dr Bishnu Pada Bose

Professor, Partner & Advisor, Invosystems, Singapore

Outcome-based vs traditional education · Greenhouse gases & global warming

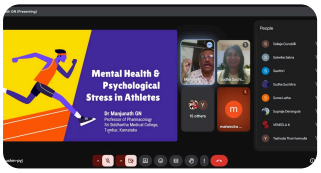

Dr Ju Lee Kim

Senior Researcher, R&D Center, RedGene, Republic of Korea

Organoids and gene circuits in stem-cell research

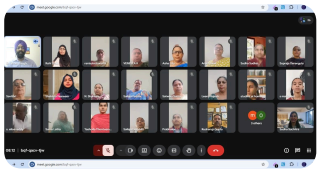

Moments from recent conferences

Dr Manjunath G N: stress in athletes

Dr Bishnu Pada Bose: outcome-based education

Participants joining a live plenary

Dr Ju Lee Kim presenting live

Two evenings, one clear format (IST)

DAY 1	
6:00	Inaugural ceremony & welcome
6:30	Keynote I
7:15	Keynote II
8:00	Networking & Q&A
8:15	Paper session I
9:00	Paper session II
9:45	Panel & open Q&A

DAY 2	
6:00	Welcome & Day 1 recap
6:30	Keynote III
7:15	Keynote IV
8:00	Open networking
8:15	Paper sessions III & IV
9:00	Award ceremony
9:45	Valedictory & certificates

Awards at every conference

Best Paper Award

For the strongest paper in each discipline.

Young Researcher Award

Recognising early-career excellence.

Outstanding Presenter

For clarity and impact on stage.

TRY THIS

Students: start with the **Research Studio** this term, aim for a student conference next term, and a OneGrasp international conference after that.

09

PART 09

Parents & Schools

How families and institutions can support students with care, and what everyone gains.

IN THIS PART

01 For parents: guide, not decide 106

02 Ten questions to talk through 107

03 For schools: the Institution Portal 108

04 What everyone gains 109

05 Questions people often ask 110

FOR PARENTS

Guide, not decide.

Your child's report is a map of who they are today. Your role is to help them read it, test it in real life, and make their own choice, with your support.

Reading the report together in a partner school.

> A child who chooses a path that fits them works harder, stays longer and recovers faster from setbacks than one who was told what to do.

FOR PARENTS

Your experience is valuable. Use the report as a **neutral third voice** at the table, so the conversation is about facts, not who wins.

Do

- Read the report together, slowly, the first time
- Start with strengths. Say them out loud.
- Ask what surprised them, and what felt true
- Help them try things: a visit, a course, a conversation with someone in the field
- Check facts together: fees, exams, deadlines
- Use the Decision Room to compare two paths calmly
- Revisit the report every 6–12 months

Avoid

- Choosing for them because of marks, relatives or neighbours
- Treating a lower score as a failure
- Comparing with siblings or friends
- Pushing a stream or exam they have no interest in
- Paying anyone who promises a guaranteed admission, job or scholarship
- Ending the talk with “because I said so”

What you can see

The full report

Your child can share the PDF or open it with you.

Weekly progress

Career GPS shows the week's missions.

A parents' page

Every report ends with “Supporting your child”.

FOR PARENTS

Ten questions to talk through together.

Use one or two questions per conversation, over a meal or a walk. Listen more than you speak.

01 Which part of the report sounds most like you?

02 Which part surprised you, and why?

03 What are your top two strengths? Where did you use them recently?

04 Which of your top fields would you like to try first, and how?

05 What would a normal working day look like? (Try the Test-Drive together.)

06 Which subjects or exams does that path need? Are you ready to work for them?

07 What does it cost, and which scholarships could help?

08 What's our backup plan if the first choice doesn't work out?

09 Who could you talk to who already does this work?

10 What's one small thing you'll do this week?

FOR PARENTS

For Class 6–8, keep it light: ask what they enjoyed in the test and which careers sounded fun. The goal is curiosity, not a decision.

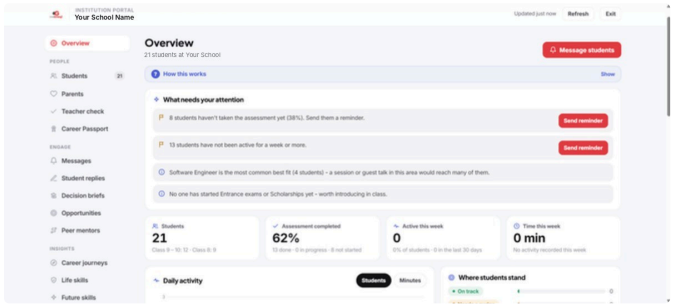

TRY THIS

Write your child's answers to questions 4 and 10 on page 2 of this handbook. Read them again in three months.

FOR SCHOOLS AND COLLEGES

See every student. Nudge the ones who need it.

The Institution Portal shows a school or college its own students every day: who has taken the assessment, who is active, and who needs a reminder.

The Institution Portal overview.

1. **Daily tracking**
   Assessment status, activity and time spent for every student.
2. **One-click reminders**
   Nudge students who haven't started or have gone quiet.
3. **Messages**
   Send updates and learning nudges; students can reply.
4. **Decision briefs**
   Short summaries that support career conversations.

Opportunities
Share useful opportunities with students.

Insights
Career journeys, life skills and future skills at a glance.

School report
A whole-school view of results and progress.

Parents & mentors
Coordinate parents, mentors and counselling.

Observations
Teachers record what they notice.

Career Passport
Verify students' achievements with proof.

Privacy: Schools only ever see their own students, never a student's individual answers. A trust flag shows if a test looks rushed, so it can be retaken.

BENEFITS

What everyone gains.

Students

- Know yourself: type, interests, strengths
- Careers that fit, with real facts
- A plan: subjects, exams, degree, college
- Money: scholarships and funding
- Skills school doesn't teach
- Proof: certificates, portfolio, passport
- Confidence to choose, and to change

Parents

- A calm conversation based on evidence
- Practical questions to support better
- Visibility of weekly progress
- Honest cost checks before big spends
- Protection from scams and false promises
- A report to revisit as your child grows

Schools and colleges

- A structured guidance programme on campus
- Daily tracking and one-click reminders
- Decision briefs for counsellors
- Life and future skills for every student
- Privacy built in
- Better-prepared students for admissions and placements

Built for the world of work that's coming

WHAT EMPLOYERS WANT (WEF 2025)	WHERE ONEGRASP BUILDS IT
Analytical thinking	Aptitude practice, mock tests, research projects, Money Labs
Resilience, flexibility, agility	Career GPS streaks, exam wellbeing, startup missions
Leadership and social influence	Communication Lab, startup pitching, research talks
Creative thinking	Startup Builder, research questions, portfolio projects
Motivation and self-awareness	Your report, My plan, My Progress
AI and big data	AI & Certifications: AI Aware to AI Builder

FAQ

Questions people often ask.

How long does the test take?
Up to 90 minutes. Answers save as you go, and you can stop and resume.

Can I fail?
No. Only the Aptitude section has right answers, and the report is never pass or fail.

Can I retake it?
Yes. Many students retake it as they move up a stage (Class 8, then 10, then 12).

Who sees my answers?
Only you. Schools see progress and activity, never answers.

Is the report accurate?
It reflects your honest answers through established frameworks. A trust check flags rushed tests.

My result doesn't match my dream career.
A gap is a plan to build, not a no. Use the Career Selector, Test-Drive and My plan.

Can I use a phone?
Yes: phone, tablet or laptop. A laptop is easiest for the test.

Are the salaries real?
They're indicative ranges for India, for planning. Actual pay varies.

Are exams and scholarships current?
They link to official sources. Always confirm dates and eligibility there.

Do the tools cost extra?
Dashboard tools are included. Spotlight services are paid; asking is free.

I lost my password.
Tap “Forgot password” on the sign-in page for a reset link.

How do I get help?
Email support@onegrasp.com or call +91 89777 60442 / 43.

Glossary

Aptitude	How quickly you learn a field's skills.
Career domain	A broad family of careers.
CQ	Your Communication Score.
Fit %	How closely you match what a field rewards.
MBTI-style type	A four-letter personality type, e.g. ISFJ.
ROI	How long a cost takes to pay back.
Stream	MPC, BiPC, MEC, CEC, HEC after Class 10.
ATS	Software that screens resumes.
CPD	Continuing professional development credit.
DOI	A permanent link to published work.
ISBN / ISSN	Official numbers for a book / journal.
RIASEC	Holland's six interest themes.
SOP / LOR	Statement of purpose / letter of recommendation.
WEF	World Economic Forum.

PART 10

Your Action Plan

Reading changes nothing. Doing does. This part is your workbook: a 30-day kickstart, a month-by-month plan for your stage, and trackers to keep you going all year.

IN THIS PART

01 The 30-day kickstart challenge 112

02 Your year: Class 6–10 114

03 Your year: Class 11–12 115

04 Your 90-day plan 116

05 My profile on one page 117

06 My weekly tracker 118

07 My achievements and certificates 119

KICKSTART

The 30-day kickstart challenge (1/2).

One small action a day, about 15 minutes. Tick the box when it's done. By day 30 you'll have used the whole dashboard and built real proof.

DAY 1 ☐
Sign in and open every menu item
Dashboard

DAY 2 ☐
Read your full report once
Report

DAY 3 ☐
Fill in page 2 of this book
Handbook

DAY 4 ☐
Read Your profile and 8 Dimensions
Your results

DAY 5 ☐
Tick one "next 30 days" item
My plan

DAY 6 ☐
Read 5 careers in your top field
Career Library

DAY 7 ☐
Test-drive your #1 career
Career Library

DAY 8 ☐
Talk to your family using 2 questions (Part 9)
Family

DAY 9 ☐
Fill your exam profile
Entrance Exams

DAY 10 ☐
Follow 2 exams; write their dates
Entrance Exams

DAY 11 ☐
Fill your scholarship profile
Scholarships

DAY 12 ☐
Shortlist 5 scholarships
Scholarships

DAY 13 ☐
Finish Money Level 1
Financial Literacy

DAY 14 ☐
Play Safe or Scam
Scam Shield

DAY 15 ☐
Week 2 review: fill the tracker
Handbook

FOR PARENTS

Sit with your child for Days 2, 8 and 30. Ten minutes of interest from you matters more than any tool.

My streak

1 2 3 4 5 6 7 8
9 10 11 12 13 14 15

KICKSTART

The 30-day kickstart challenge (2/2).

Halfway there. Keep the streak going; a missed day is fine, two in a row is a habit breaker.

DAY 16 ☐
Save the emergency helplines
Law & Rights

DAY 17 ☐
Read 2 rights guides for your age
Law & Rights

DAY 18 ☐
Start AI Aware
AI & Certifications

DAY 19 ☐
Do the 1-minute speaking challenge
Communication Lab

DAY 20 ☐
Speaking challenge, day 2
Communication Lab

DAY 21 ☐
Start one free internship programme
Internships

DAY 22 ☐
Do this week's 3 GPS missions
Career GPS

DAY 23 ☐
Week 3 review: fill the tracker
Handbook

DAY 24 ☐
Write your 60-second introduction
Communication Lab

DAY 25 ☐
Start your resume or portfolio
Resume · Website

DAY 26 ☐
Add 2 achievements to your Passport
Career Passport

DAY 27 ☐
Finish research unit 1 or startup module 1
Research · Startups

DAY 28 ☐
Make a study plan for exam #1
Entrance Exams

DAY 29 ☐
Check My Progress; continue one course
My Progress

DAY 30 ☐
Celebrate! Plan the next 30 days
Handbook

TRY THIS

Photograph these two pages when you finish and share them with a teacher or mentor.

YOUR YEAR

Class 6–10: a plan for every term.

Typical timings. Exam and scholarship dates change every year, so always confirm on official websites.

Class 6–8 · Career Discovery

WHEN	DO THIS	TOOL
Term 1	Take the assessment; read the report with parents; explore 3 domains	Report · Career Library
Term 1	Money Level 1–2; play Money Life	Financial Literacy
Term 2	Communication Lab track; 1-minute challenges	Communication Lab
Term 2	AI Aware; one Scratch or Teachable Machine project	AI & Certifications
Term 3	One hobby project; add it to your Passport	Career Passport
Class 5–6	JNVST (Navodaya) / AISSEE (Sainik) if relevant	Entrance Exams
Class 8	NMMS scholarship exam (usually Nov–Dec)	Exams · Scholarships

Class 9–10 · Stream Selection

WHEN	DO THIS	TOOL
Class 9 start	Take the assessment; note your top 5 domains	Report
Class 9	Read 3 careers per top domain; 2 Test-Drives	Career Library
Class 9	Olympiads / NSEJS practice; aptitude puzzles weekly	Entrance Exams
Class 10 Term 1	Stream map (Part 4); Decision Room with family	Career Library
Class 10 Term 2	Board-exam plan using your learning style	Exams planner
Before Class 11	Confirm stream; list target exams; find scholarships	Exams · Scholarships
All year	3 GPS missions a week	Career GPS

My goals this year

Term 1

Term 2

Term 3

YOUR YEAR

Class 11–12: two years, month by month.

Typical timings for the major exams. Dates change every year; confirm everything on the official websites linked in Entrance Exams.

MONTHS	CLASS 11 · BUILD	CLASS 12 · DECIDE AND APPLY
Apr–Jun	Take the assessment; choose target exams; set up exam & scholarship profiles	Settle subjects; read Career Selector roadmap
Jul–Sep	Study planner live; weekly mocks; one internship or AI course	Follow exam notifications; NDA forms if relevant
Oct–Dec	NSE olympiads (Nov); research or startup project	JEE Main registration (usually Nov); CLAT (Dec); scholarship deadlines
Jan–Mar	School exams; finish a project; communication practice	JEE Main (Jan); board exams (Feb–Mar); NEET / CUET registration
Apr–May	Summer internship; portfolio website	JEE Main (Apr); NEET, CUET, JEE Advanced (May)
Jun–Jul	Plan Class 12; update your report	Counselling (JoSAA etc.); apply for college scholarships

My target exams

EXAM	REGISTRATION	EXAM DATE

My backup plan

If my first-choice exam doesn't go my way, my next best route is:

FOR PARENTS

Class 12 is stressful. Use Entrance Exams › Wellbeing together, and remember the backup plan is a real plan, not a failure.

READING GUIDE

Turn your report into a 90-day plan

Fill this in with your report open. Keep it on your desk, or photograph it and pin it to your phone.
