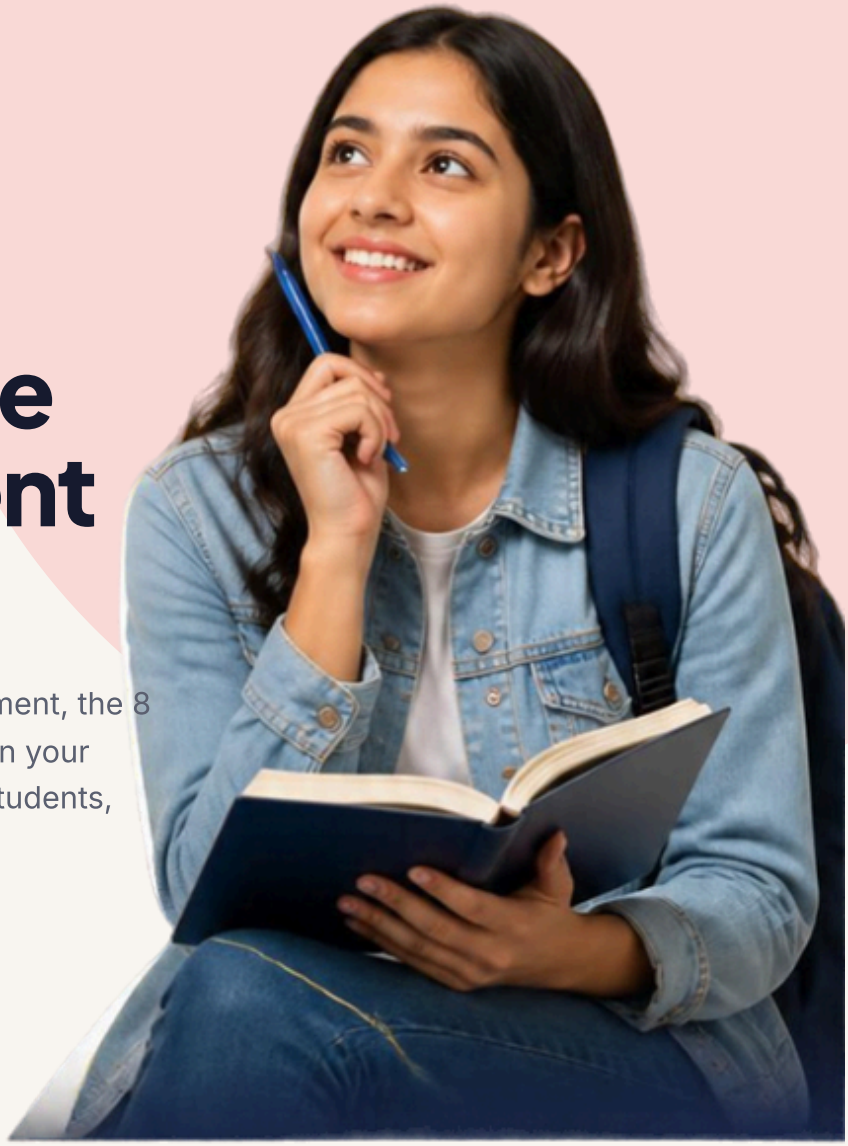
OneGrasp

Handbook · 2026–27 Edition



CAREER FITMENT ASSESSMENT

The Complete Career Fitment Handbook.

Everything about the OneGrasp assessment, the 8 dimensions, your report and every tool in your dashboard, explained step by step for students, parents and schools.

8
dimensions of you, measured in one sitting

4
editions: Class 6–8, 9–10, 11–12 and undergraduates

20+
tools in one dashboard

311
startup funding programmes listed

BEFORE YOU BEGIN

How to use this handbook.

This book is a printed companion to the OneGrasp Career Fitment Assessment and its dashboard. You do not need to read it cover to cover. Start with the part that fits you.

Students

Read Parts 2 and 3 before the test, Part 4 when your report arrives, and keep Part 5 open next to your dashboard. The task lists show you exactly what to do each week.

Parents

Start with Part 1 (what OneGrasp is), then the report pages for your child's class in Part 4, and the parents' chapter in Part 8. You will find questions to talk through together.

Teachers and counsellors

Parts 2, 3 and 4 explain the science and the report. Part 8 covers the Institution Portal: tracking, reminders, messages and decision briefs.

Founders and researchers

Part 6 lists all 311 startup funding programmes in the dashboard's Funding directory. Part 7 covers Research & Conferences and our international scientific committee.

Signs used in this book

FIND IT Dashboard menu › Tool › Section

Find it shows the exact path to open a tool in your dashboard.

Good to know: a tip, a limit, or a safety reminder you should not skip.

Three promises

- **Your answers are private.** Schools see progress, never individual answers.
- **No pass or fail.** Only the Aptitude section has right answers.
- **Facts you can check.** Exams, scholarships and funding link to official sources.

Please note: Screens in this book come from the live dashboard in October 2026 and use a sample student, **Ananya Rao** . Your screens will show your own name, results and class. Dates, fees, eligibility and amounts change, so always confirm them on the official website before you apply.

WELCOME

Every child is good at something.

> "Most career decisions are made on marks, peer pressure or guesswork. OneGrasp replaces guesswork with self-knowledge and a clear, honest plan the whole family can see."

A career choice is rarely one decision. It is a chain of them: which subjects to take, which stream, which entrance exam, which degree, which college, which first job. Each choice shapes the next one. When the first link is chosen on marks alone, or because a cousin did the same course, the whole chain can pull in the wrong direction.

The OneGrasp Career Fitment Assessment starts with you: how you think, what you enjoy, how you learn, what drives you and what you are naturally good at. It then connects that picture to real careers, real exams, real colleges and real money (scholarships, funding and salaries) so the next step is clear.

After the report, the work begins. Your dashboard turns the report into lessons, tools and weekly tasks: a career library of 930 careers, every major entrance exam, 40 scholarships, study abroad, free internships, money skills, your legal rights, research, startups, AI skills, communication and a job-ready resume.

This handbook walks you through all of it, page by page, so that a student, a parent and a teacher can sit at the same table, open the same page and have the same calm conversation.

The OneGrasp Team

OneGrasp Education Pvt. Ltd., Hyderabad

Start in three steps

1. **Scan the code or visit careerfitment.onegrasp.com**
   Open the assessment on any phone, tablet or laptop.
2. **Register in about two minutes**
   Students sign up themselves, or join through their school or college link.
3. **Take the test and get your report**
   Answer honestly. Your report is ready the moment you finish.

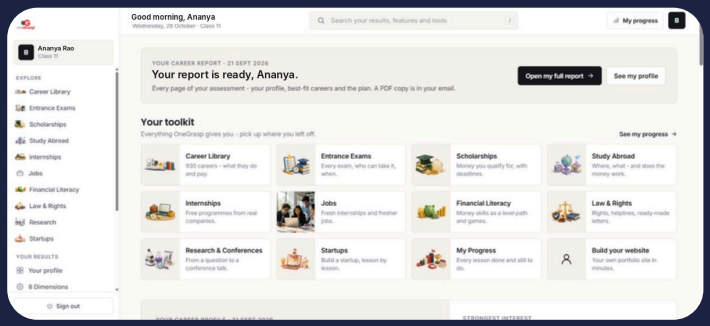
PART 01

Meet OneGrasp

Who we are, what we do, and why we built a career assessment that looks beyond marks.

IN THIS PART

1. What is OneGrasp?
2. What OneGrasp does
3. OneGrasp at a glance
4. Why career choices go wrong
5. Your journey with OneGrasp
6. OneGrasp in schools



ABOUT US

What is OneGrasp?

OneGrasp Education Pvt. Ltd. is an education company based in Hyderabad, India. We help students, families, professionals and institutions make better decisions about learning and work.

Our best-known product is the **Career Fitment Assessment**: a psychometric career assessment for Class 6 to undergraduates. It measures eight dimensions of a student (personality, interests, intelligences, emotional intelligence, learning style, motivators, strengths and aptitude) and turns them into a personal report and a dashboard of tools.

Around the assessment, OneGrasp runs international scientific conferences, startup and entrepreneurship programmes, certifications, workshops and internships, career counselling, and admissions guidance in India and abroad.

Our belief

Every student is good at something. The job of a career assessment is not to label a child. It is to show them where they will thrive, what to try next, and how to get there with real facts about exams, colleges, costs and jobs.

What makes OneGrasp different

01
Built on science
Well-established frameworks: personality type, Holland's RIASEC interests, Gardner's multiple intelligences, emotional intelligence and reasoning aptitude.

02
Written for each age
Class 6–8, Class 9–10, Class 11–12 and undergraduates each get a test and a report written for their stage.

03
A plan, not a PDF
The report opens a dashboard with lessons, tools and weekly tasks, so it never sits in a drawer.

04
Facts you can check
Every exam, scholarship and funding programme links to its official source.

OUR WORK

One company, many ways to help.

The Career Fitment Assessment is where most students meet us. Here is everything else OneGrasp does for students, families and institutions.

Career Fitment Assessment

A psychometric assessment for Class 6 to undergraduates, with an instant report and a dashboard of 20+ tools.

Career counselling

One-to-one sessions that help a student and their family read the report and choose the next step together.

Admissions guidance

Help with colleges and courses in India and abroad: shortlists, applications, SOPs and the money check.

International scientific conferences

Online, peer-reviewed conferences in 11 disciplines with a DOI for every accepted abstract and CPD-accredited certificates.

Startup and entrepreneurship programmes

Spot, Build, Pitch: short, intensive programmes run with universities, plus an 11-module startup course in the dashboard.

Certifications, workshops and internships

Practical, hands-on learning for students and professionals, with certificates that can be verified.

Faculty development

Programmes for teachers and faculty, delivered with institutions on campus or online.

Spotlight career boosters

Present research at a conference, publish a paper, get an ISBN for a book, start a journal with an ISSN, or be featured in Awardees Magazine.

FOR INSTITUTIONS

Schools and colleges can run the assessment on campus: an orientation, the test in the computer lab, and a personal report for every student. The Institution Portal then tracks every student daily.

THE BIG PICTURE

OneGrasp at a glance.

3,000+ students assessed

10+ schools and colleges

2,500+ career roadmaps

1,000+ parents engaged

500+ counselling sessions

8 dimensions measured

Inside the dashboard

930 careers explained

29 entrance exams

40 scholarships

209 free internship programmes

311 startup funding programmes

24 legal guides

8 research studio units

11 startup modules

Beyond the assessment

500+ online conferences held

70+ countries represented

50 scientific committee members

11 conference disciplines

About these numbers: dashboard figures are counted from the live platform in October 2026. Library sizes grow as new careers, exams, scholarships and programmes are added.

WHY IT MATTERS

Most career choices are made on the wrong things.

Marks, peer pressure and guesswork decide too many careers. None of them tells a student what they will enjoy, keep doing, and be good at for years.

Myth	Fact
“JEE or NEET decides everything.”	Our library covers 930 careers. Many great routes need neither exam.
“Marks are enough to choose.”	Marks show how you did. Fit shows where you will do well.
“It's too late to change direction.”	Many degrees accept any stream. Your report shows which ones.
“My degree decides my career.”	Many roles hire from more than one degree. Your report shows which fit you.
“CGPA is all that matters.”	CGPA shows how you did. Skills and proof show what you can do.
“Only toppers need career guidance.”	Every student benefits from knowing their strengths and options.
“A test tells you one fixed career.”	It shows best-fit fields and a plan to test them in real life.

What employers want now

The World Economic Forum's *Future of Jobs Report 2025* lists the skills employers value most as AI takes over routine work. None of them shows on a mark sheet.

That is why the assessment measures how you think, learn, relate to people and stay motivated, not only what you scored in your last exam.

- Analytical thinking
- Resilience, flexibility and agility
- Leadership and social influence
- Creative thinking
- Motivation and self-awareness

THE JOURNEY

From “I don't know” to a clear plan.

Five steps take a student from the first click to real progress. Each part of this handbook covers one of them.

1	2	3	4	5
Register	Take the assessment	Read your report	Use your dashboard	Act and grow

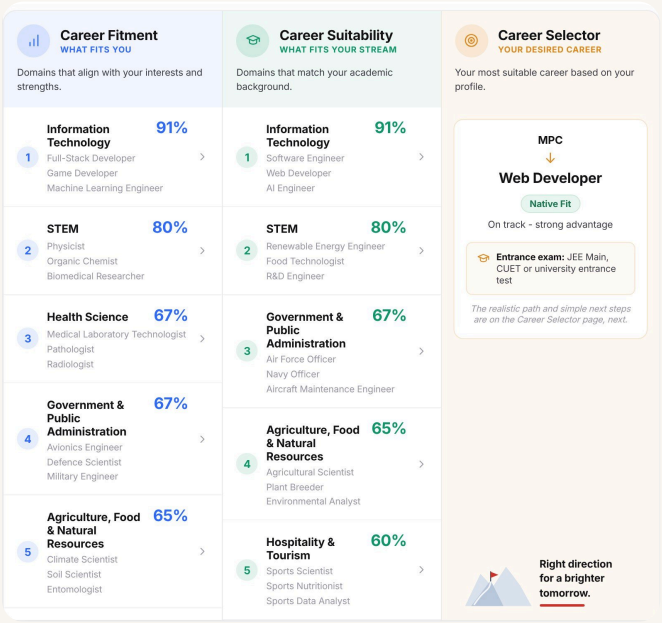
1 Register (2 minutes)
Choose your class or stage, say how sure you are about your career, and create your login. School students can join through their school's link.

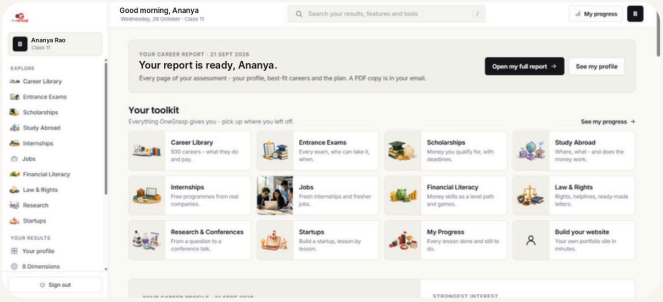
2 Take the assessment (up to 90 minutes)
Questions across the 8 dimensions, written for your age. Answers save as you go, and a timer shows the time left.

3 Read your report (instant)
Your profile, best-fit careers with a fit %, your strengths and growth areas, and a long-term roadmap. Download it as a PDF; a copy is emailed.

4 Use your dashboard (every week)
One login opens 20+ tools: careers, exams, scholarships, study abroad, internships, jobs, money, law, research, startups, AI, communication and more.

5 Act and grow (all year)
Weekly Career GPS missions, lessons that unlock step by step, certificates, a portfolio website and a verified Career Passport. My Progress shows how far you have come.





ON CAMPUS

How an assessment day runs in a school.

When a school or college partners with OneGrasp, our team runs the whole day with the students. Here is what happens, start to finish.

1 Orientation on campus
Our team meets the students, explains what the assessment is (and is not), and answers questions. Students learn that honest answers give the most useful report.

2 Assessment in the computer lab
Students take the test online on the school's computers, one question at a time, with a timer and a navigator. Answers save as they go.

3 Instant personal reports
Every student receives their own Career Fitment Report the moment they finish, on screen, as a PDF and by email.

4 One-to-one sessions
Counsellors sit with students (and parents, where possible) to read the report together and agree the first steps.

5 Daily tracking afterwards
The Institution Portal shows who has finished, who is active in the dashboard, and who needs a reminder.

Bring OneGrasp to your school: call +91 89777 60442 / 43 or write to support@onegrasp.com to plan a campus-wide rollout.

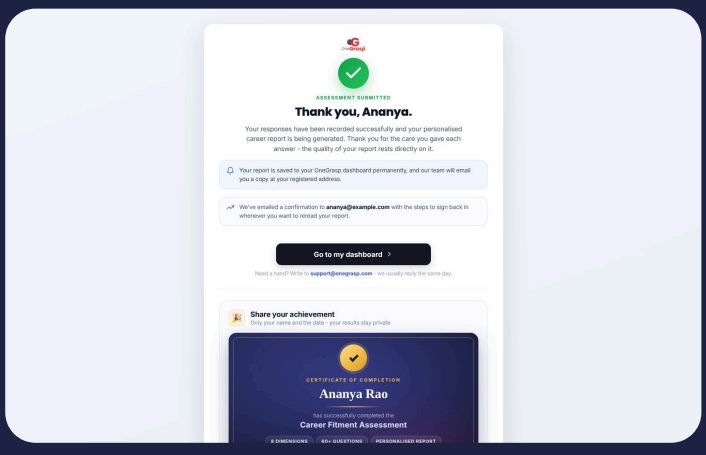
PART 02

The Assessment

What the Career Fitment Assessment is, who it is for, the science behind it, and exactly how to take it.

IN THIS PART

1. What is a psychometric career assessment?
2. Who is it for: four editions
3. The science behind the test
4. Before you begin
5. Registering, step by step
6. Inside the exam screen
7. Question types
8. Built to be trusted
9. After you finish



THE TEST

Is it just another test?

No. A psychometric career assessment is a structured tool that looks beyond marks to understand how you think, what interests you, and where your natural strengths lie.

The OneGrasp Career Fitment Assessment is built on well-established psychology frameworks. It asks short, everyday questions (what would you do, what do you enjoy, how do you prefer to learn) and reads your answers through those frameworks.

The result is not a single "right career". It is a clear picture of you, the career fields where that picture fits best, and a plan to explore them in real life.

What it is not

- Not an exam you can fail. Only the Aptitude section has right answers.
- Not a label. Results describe preferences today, and people grow.
- Not a replacement for a conversation. It is the best starting point for one.

What you get back

- Your profile across 8 dimensions, on one page
- Your top career areas, each with a fit %
- Where you are strong and where to grow
- A long-term roadmap: subjects, exams, degrees, skills, jobs
- Scholarships, funded routes and resources
- A page for parents: how to guide, not decide
- A dashboard of 20+ tools to act on it

Myth	Fact
Only toppers need it.	It helps every student. Knowing your strengths matters most when you are unsure.
It tells you one fixed career.	It shows best-fit fields and a plan to test them.
It's an exam you can fail.	There are no good or bad results, only better fits.
Marks are enough.	Marks show performance. This shows fit.

WHO IT IS FOR

One assessment, four editions.

Each class group takes a test written for its own age and its own decisions. The questions, the report and the advice all change with the stage.

Edition	For	The big question	Questions*	Report focus
Career Discovery	Class 6, 7 and 8	What am I like, and what could I enjoy?	about 60	Career DNA, best-fit domains, a 20-year picture, habits to build
Stream Selection	Class 9 and 10	Which stream after Class 10?	about 60	Best-fit domains, stream guidance, your choice vs your result
Career Planning	Class 11 and 12	Which exam, degree and college?	75	Fitment, Suitability and Career Selector; a 15-step roadmap
Employability Readiness	Undergraduates	What job, what skills, PG or work?	100	17 career clusters, skill gap, 2026–2046 career horizon

* Question counts can change slightly as the question banks are updated. Every edition has up to 90 minutes.

And for the adults around the student

For students

Understand yourself and see clear next steps you can take with confidence.

For parents

Have a shared, calm conversation with practical questions that help you support better.

For schools and colleges

Track every student, send reminders and messages, and support guidance with care and privacy.

WORKING PROFESSIONALS

Professionals take a separate stress and wellbeing check in the dashboard rather than the student assessment.

THE SCIENCE

Built on frameworks psychologists trust.

Each dimension is read through a well-established model. Here is what sits behind every part of your report.

Dimension	Framework behind it	How questions look
Personality	Personality-type preferences (introvert–extravert, sensing–intuition, thinking–feeling, judging–perceiving), widely known as MBTI-style typing; the Big Five traits for some stages	Situations: pick the option most like you
Career Interests	Holland's RIASEC model: Realistic, Investigative, Artistic, Social, Enterprising, Conventional	Pick the activity that appeals most
Multiple Intelligences	Howard Gardner's theory of multiple intelligences (8 kinds)	Pick the role you'd enjoy most
Emotional Intelligence	Self-awareness, self-management, social awareness, relationship management	Pick what you'd genuinely do
Learning Style	Visual, auditory, reading/writing and hands-on preferences	Pick how you naturally learn
Motivators	Work-values and motivation research: security, mastery, achievement, leadership, learning and more	Pick what feels MOST like you
Strengths	A strengths model with eight domains, using forced-choice situations	Pick the option most like you
Aptitude	Standard reasoning areas used in entrance-style tests: verbal, numerical, abstract, spatial, data	One best answer, like a real test
Class 11–12 extras	Subject fit, career and stream fit, career aspiration	Your stream, subjects and goals
Undergraduate areas	Eight career-readiness pillars (see Part 3)	Work situations and skill checks

Why it matters: a framework turns your answers into something meaningful and comparable. The same answers always give the same result, and every result is explained in plain words in your report.

PREPARE

Before you begin.

No studying is needed. A calm 90 minutes and an honest mind are all it takes. Use this checklist the day before.

Your checklist

- [ ] A phone, tablet or laptop with a stable internet connection (a laptop is easiest)
- [ ] Up to 90 minutes in a quiet place, ideally in one sitting
- [ ] Your login email and password (or your school's link)
- [ ] For Class 11–12: your current stream and the career you are aiming for
- [ ] For undergraduates: your degree, specialisation and year
- [ ] Headphones if you want questions read aloud
- [ ] Water, and phone notifications switched off

One tip before you start

Answer as you really are, not as you think you should be.

There are no good or bad results, only better fits. If you answer the way a parent, teacher or friend would like you to, the report will describe them, not you.

If two options both feel true, pick the one that is true **more often**.

Good habits during the test

Don't overthink

Your first honest reaction is usually the most accurate.

Use Next to skip

Not sure? Move on and come back using the navigator.

Take the aptitude part seriously

It is the only section with right answers. Read each question fully.

Save progress

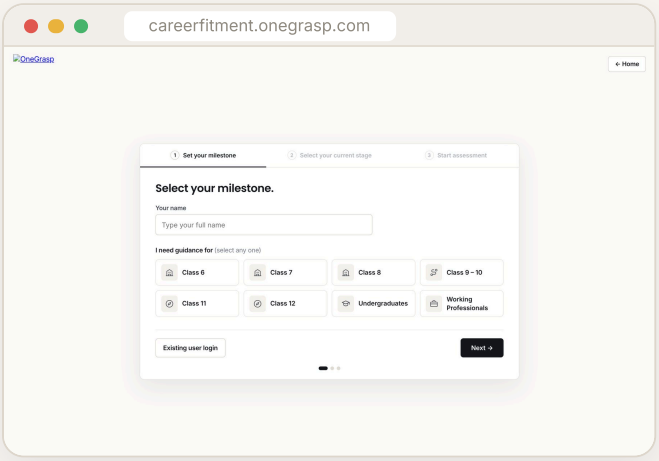
Need a break? Tap Save Progress. You resume with the same questions and time.

For parents: please let your child answer alone. You will see the report together afterwards, and Part 8 of this book explains how to talk about it.

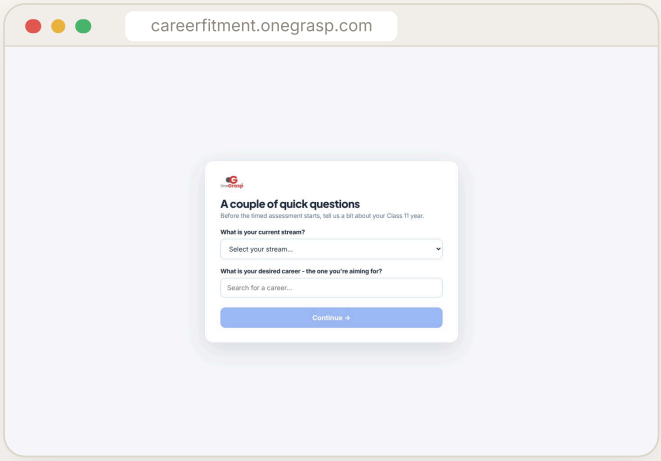
GETTING IN

Registering, step by step.

Registration takes about two minutes. Students can sign up themselves, or join through their school or college link so the institution can follow their progress.



Step 1. Set your milestone: enter your name and pick your class or stage.



Step 4. Class 11–12: your stream and dream career (undergraduates give their degree).

1 Set your milestone
Go to careerfitment.onegrasp.com, enter your name and pick Class 6, 7, 8, 9–10, 11, 12, Undergraduates or Working Professionals.

2 Set your current stage
Say how sure you are today: no idea, confused among options, a bit sure but exploring, or sure but needing an execution plan.

3 Create your login
Your email and password are your login. You will use them to open your report and dashboard any time. Existing users tap “Existing user login”.

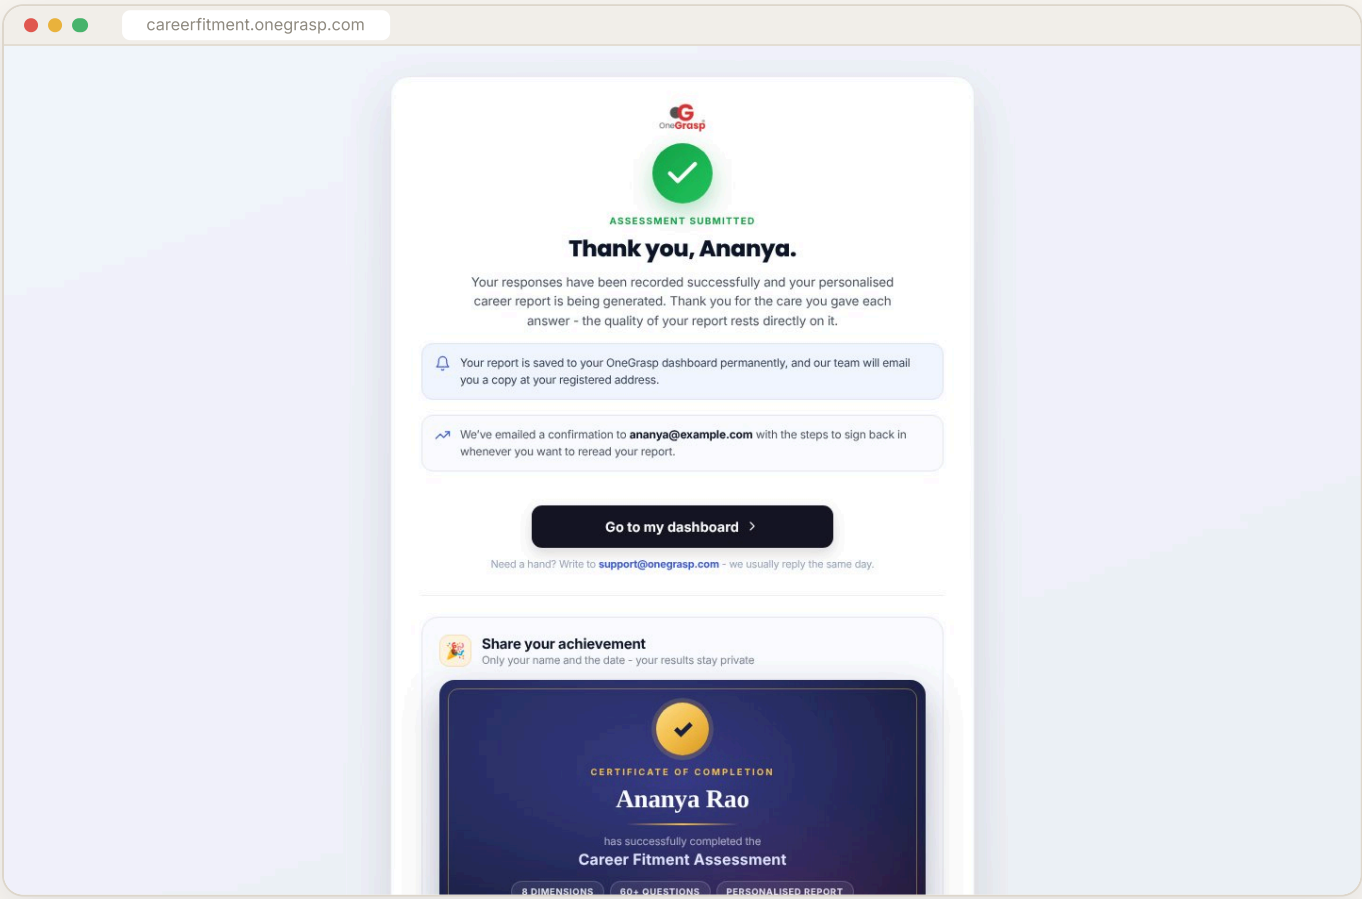
4 Answer a couple of quick questions
Class 11–12 students pick their stream (MPC, BiPC, PCMB, MEC, CEC, Humanities, Vocational) and search for their dream career; undergraduates pick their degree, specialisation and year. These do not score you; they shape Career Suitability and Career Selector.

5 Read the instructions and start
The test opens in full screen for focus. You can exit any time.

THE EXAM SCREEN

Everything on one screen.

The exam shows one question at a time. Everything you need (time, progress, sections and a navigator) stays in view.



TOP BAR

Time left, question, answered, marked

A 90-minute timer counts down and auto-submits at zero. Counters show your progress.

SECTION BAR

Jump between dimensions

Personality, Interests, Aptitude and the rest. A tick appears when a section is complete.

NAVIGATOR

Every question as a tile

Green = answered, blue = current, amber = marked for review, grey = pending. Tap any tile to jump.

READ ALOUD

Speaker button

Hear the question read out. Useful for younger students and different learners.

MARK

Bookmark for review

Unsure? Mark the question and come back before you finish.

SAVE / EXIT

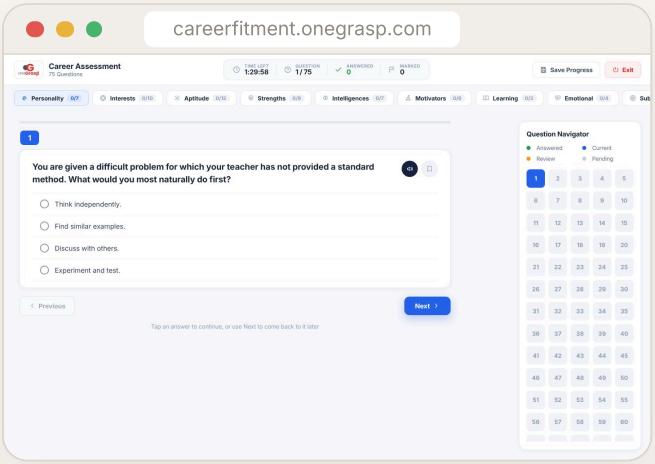
Save progress any time

Close and sign back in later; you resume with the same questions and time.

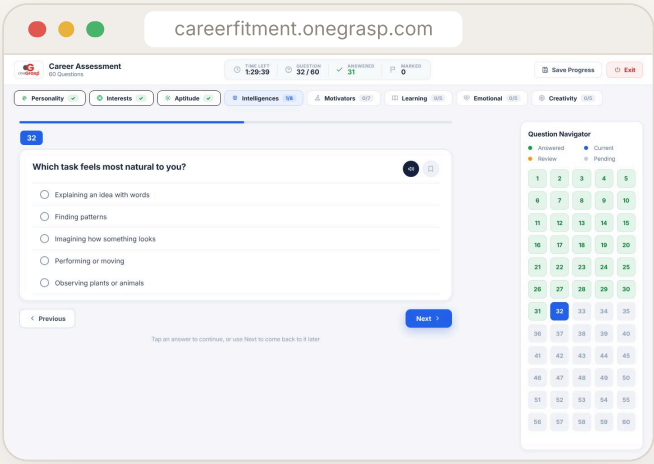
QUESTION TYPES

Six kinds of questions.

Most questions take a few seconds. Here is what each type looks like and how to answer it.



A situation question: tap the option most like you.



Questions save as soon as you answer; use Next to move on.

Type	What you do	Tip
Situation (most like me)	Pick the one option that sounds most like you	Think of what you usually do, not what you'd ideally do
Scale (1 to 10)	Tap a number from “not at all” to “very”	Use the whole scale; 5 is not a safe answer
Pick up to three	Choose up to 3 options (careers or fields)	Search the list; remove a pick with ×
Dropdown	Pick your favourite or hardest subject	Choose honestly; this shapes your subject advice
Aptitude (one best answer)	Reasoning with words, numbers, logic, shapes, data	Read fully; skip and return if stuck
Yes / No	Simple facts about you	Answer for today, not for next year

TRUST

Built to be trusted.

A report is only useful if it reflects the student. Three safeguards protect every result.

01

Answer-quality check

When you submit, the test looks at how the paper was answered: how many answers came in under 3 seconds, and whether the same option was chosen again and again. It never changes your scores. It only flags a report that may not reflect you (high, medium or low trust), so a rushed test can be retaken.

02

Your answers stay private

Your report belongs to you. If you joined through a school or college, the institution sees your progress and activity, never your individual answers.

03

Facts linked to sources

Entrance exams, scholarships, funded routes and funding programmes link to their official websites, so anyone can check them.

How your data is used

- Your answers are used to build your report and dashboard.
- Your results are saved to your account so you can reopen the report any time.
- A PDF copy is emailed to your registered address.
- Tools that store documents (such as the scholarship and study abroad vaults) keep them for your applications only.
- Recordings in the research practice recorder stay on your device.
- The Law & Rights section has a quick-exit button and private browsing for shared devices.
- AI tools in the dashboard are rated for age and privacy before you see them.
- You decide what goes on your public portfolio page.

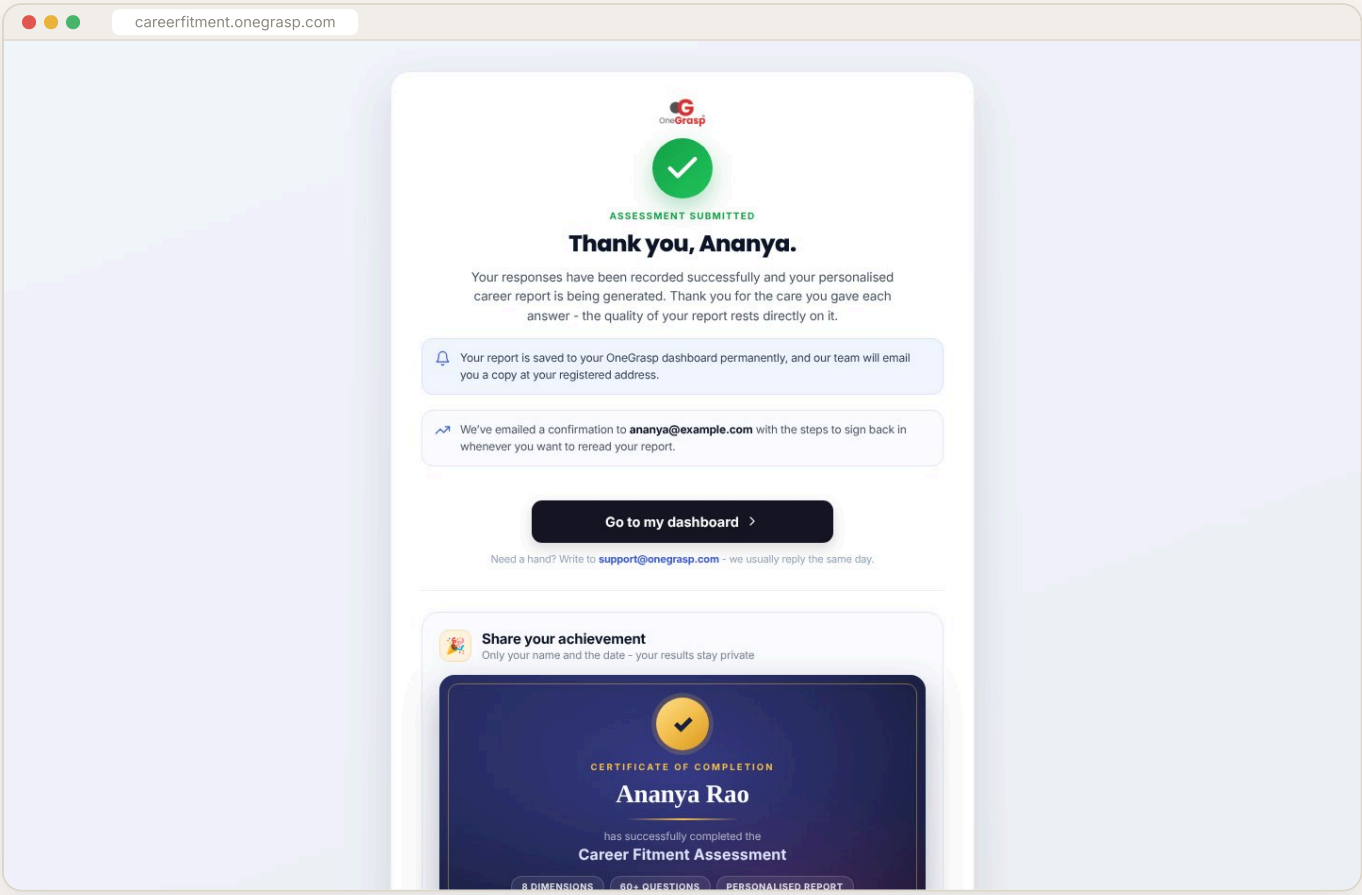
OUR HONESTY NOTE

Your results come from your own answers, read through established psychometric frameworks. Nothing in the report is a limit on what you can become.

SUBMITTED

What happens after you finish.

Tap “Finish & see report” when every question is answered. Your report is generated instantly.



The confirmation screen: your answers are recorded and your personalised report is being generated.

1. **Your report is saved to your dashboard**
   It stays there permanently. Open it any time from “Open my full report” on the dashboard home.

2. **A copy arrives by email**
   A confirmation email explains how to sign back in whenever you want to reread your report.

3. **Your dashboard unlocks**
   Your results (profile, 8 dimensions, best-fit fields, how you think, my plan) and every tool appear in the menu.

4. **Share it with someone who guides you**
   Download the PDF and read it with a parent, teacher or counsellor. Part 4 of this book shows you how.

PART 03

The 8 Dimensions

Eight questions about you. Together they show where you will thrive. Plus the eight career-readiness areas of the undergraduate edition.

IN THIS PART

1. The whole you, at a glance
2. 01 Personality
3. 02 Career Interests
4. 03 Multiple Intelligences
5. 04 Emotional Intelligence
6. 05 Learning Style
7. 06 Motivators
8. 07 Strengths
9. 08 Aptitude
10. Undergraduates: 8 areas of career readiness

WHAT WE MEASURE

Eight dimensions. One complete you.

Each dimension answers one simple question about you. On their own they are interesting; together they point to the careers where you will do well and stay happy.

#	Dimension	The question it answers
01	**Personality**	How do I naturally work and decide?
02	**Career Interests**	What kind of work excites me?
03	**Multiple Intelligences**	In which ways am I smart?
04	**Emotional Intelligence**	How well do I handle feelings and people?
05	**Learning Style**	How do I prefer to study?
06	**Motivators**	What drives me?
07	**Strengths**	What do I naturally contribute?
08	**Aptitude**	How quickly can I pick up new skills?

How the dimensions work together

Who you are
Personality and Emotional Intelligence describe how you work, decide and get on with people.

What pulls you
Career Interests and Motivators show the work that excites you and the reasons you will keep going.

How you think and learn
Multiple Intelligences and Learning Style show the ways you are smart and how you take in new ideas.

What you can do
Strengths and Aptitude show what you naturally give and how fast you can pick up a field's skills.

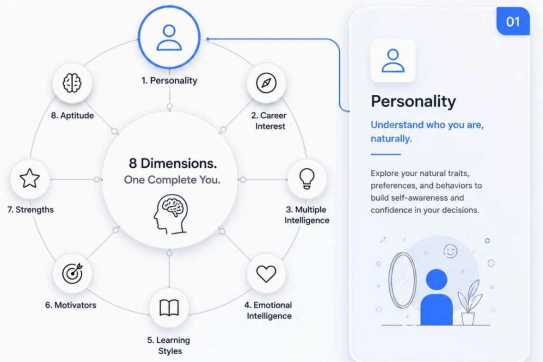
Class 6–8: younger students see the same idea in friendlier words, with Emotional Awareness and Creativity in place of two of the older dimensions (see Part 4).

THE 8 DIMENSIONS · 01

01

Personality

How do I naturally work and decide?



What it measures

Where you get your energy, how you take in information, how you make decisions and how you like to plan. These patterns shape how you prefer to work with others, handle tasks and make choices.

The framework behind it

Personality-type preferences in four pairs, widely known as MBTI-style typing. Some stages also look at the five everyday traits psychologists call the Big Five (openness, conscientiousness, extraversion, agreeableness, emotional steadiness).

What it looks at

Energy: Introvert or Extravert

Do you recharge alone or with people?

Information: Sensing or Intuition

Do you trust facts and details, or patterns and possibilities?

Decisions: Thinking or Feeling

Do you decide by logic first, or by values and people first?

Planning: Judging or Perceiving

Do you like a plan, or prefer to keep options open?

Good to know: There is no good or bad personality, only better fits. Your type is a preference, and you can act outside it whenever you need to.

PERSONALITY · IN YOUR REPORT

What your report shows you.

Your four-letter type (for example ISTP, “The Virtuoso”, or ENFP, “The Campaigner”), how clear each preference is, where you are strong, where you can grow and your next steps.

Example result

Illustrative only, not a real result.

Why it matters

Different work settings suit different patterns. Knowing your personality helps you choose paths where you can contribute in your natural way, enjoy the work more and grow steadily.

Why it matters in the AI era

- Keep learning new skills
- Know how they work best
- Work well with different kinds of people
- Adapt quickly when plans change

How to use it this month

Stage	Try this
Class 6–8	Notice when you feel most energetic: in a group, or working alone. Tell a parent.
Class 9–10	Read your type's strengths. Pick one club or activity that uses them.
Class 11–12	Compare your type with the work style of your top career (Career Library › career page).
Undergraduates	Use your type to explain how you work best in interviews and teams.

REMEMBER

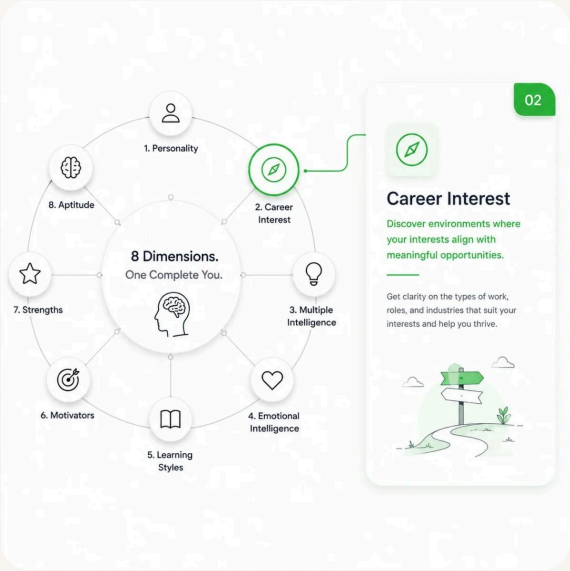
A dimension describes you today. It is a lens for reflection, not a label, and every part of it can grow with practice.

THE 8 DIMENSIONS · 02

02

Career Interests

What kind of work excites me?



What it measures

Your natural interests and the kinds of work and activities that energise you. Most people are strongest in two or three of six interest types.

The framework behind it

Holland's theory of career interests (RIASEC). People and work environments can both be described with the same six themes, so your code points straight at matching careers.

What it looks at

Realistic (doing)

Hands-on work with tools, machines, nature.

Investigative (thinking)

Research, analysis, solving puzzles.

Artistic (creating)

Design, writing, music, new ideas.

Social (helping)

Teaching, caring, counselling.

Enterprising (leading)

Persuading, selling, starting things.

Conventional (organising)

Data, order, systems and accuracy.

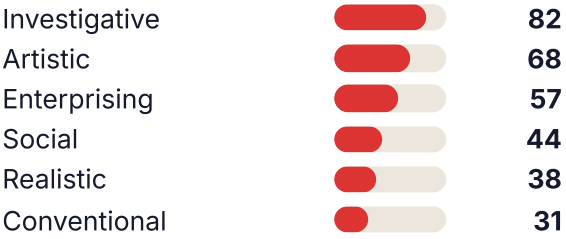
Good to know: Interests can change once you try a field for real. That is why the dashboard pushes you to try small tasks, not just read about careers.

CAREER INTERESTS · IN YOUR REPORT

What your report shows you.

Your three-letter interest code (for example IAE) and how strongly you lean to each type, with an archetype such as “The Analytical Investigator” or “The Hands-On Builder”.

Example result



Illustrative only, not a real result.

Why it matters

Interests drive motivation, persistence and satisfaction. When your studies and work match what genuinely holds your attention, you are far more likely to thrive.

Why it matters in the AI era

- Choose work they are curious about
- Keep learning as their field changes
- Bring energy and ideas, not only skills
- Stay with hard problems until they are solved

How to use it this month

Stage	Try this
Class 6–8	Try one activity from each of your top two themes this month.
Class 9–10	Match your code to streams: Investigative + Realistic often suit Science; Enterprising + Conventional often suit Commerce.
Class 11–12	Test-drive one career from your top theme (Career Library › Test-drive a career).
Undergraduates	Look for an internship that sits in your top theme, not only your degree.

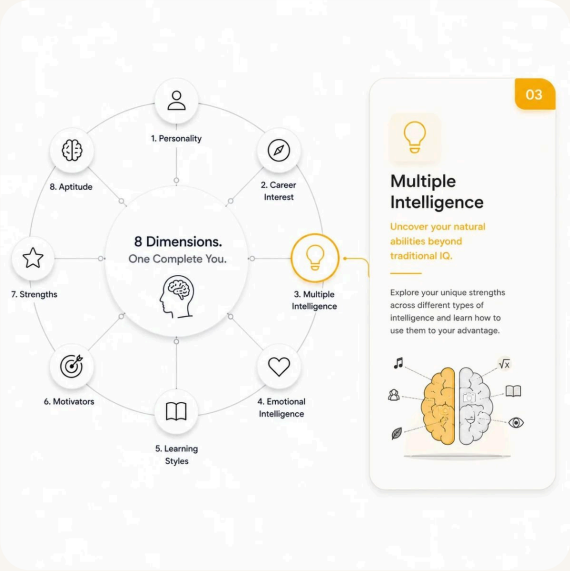
REMEMBER A dimension describes you today. It is a lens for reflection, not a label, and every part of it can grow with practice.

THE 8 DIMENSIONS · 03

03

Multiple Intelligences

In which ways am I smart?



What it measures

Your natural strengths across eight different ways of thinking, creating and solving problems. It shows how you prefer to learn, express ideas and contribute.

The framework behind it

Howard Gardner's theory of multiple intelligences, which recognises that intelligence is not one-size-fits-all.

What it looks at

Linguistic
Words, reading, writing.

Logical-Mathematical
Numbers, logic, reasoning.

Spatial
Pictures, shapes, 3D.

Bodily-Kinaesthetic
Learning by doing and moving.

Musical
Rhythm, melody, sound.

Interpersonal
Understanding people, teamwork.

Intrapersonal
Self-awareness and reflection.

Naturalistic
Nature, patterns, living things.

Good to know: Your lowest score is not a flaw. It is just not how you think first.

MULTIPLE INTELLIGENCES · IN YOUR REPORT

What your report shows you.

All eight intelligences ranked, with your top two named and explained, plus the kinds of study and work that use them.

Example result

Illustrative only, not a real result.

Why it matters

When you understand your mix of intelligences, you can choose learning approaches that suit you, build confidence, and contribute your strengths in real-world ways.

Why it matters in the AI era

- Learn new tools quickly
- Solve problems creatively
- Think in more than one way
- Explain ideas to different people

How to use it this month

Stage	Try this
Class 6–8	Learn one school topic using your top intelligence (draw it, act it, or explain it).
Class 9–10	Pick an elective or club that uses your top intelligence.
Class 11–12	Use your top two to choose between two similar degrees.
Undergraduates	Build one portfolio project that shows your strongest intelligence.

REMEMBER

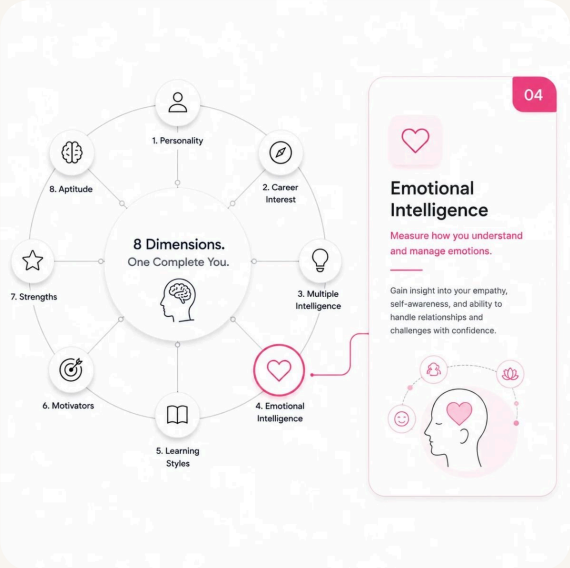
A dimension describes you today. It is a lens for reflection, not a label, and every part of it can grow with practice.

THE 8 DIMENSIONS · 04

04

Emotional Intelligence

How well do I handle feelings and people?



What it measures

Your ability to understand yourself and others, manage emotions, build positive relationships and respond wisely in different situations.

The framework behind it

Widely used emotional-intelligence models that look at four areas shaping how you think, feel and interact every day.

What it looks at

Self-awareness

Recognising your emotions, strengths, values and how your actions affect others.

Self-management

Staying calm and focused, and adapting to change.

Social awareness

Understanding others' feelings and points of view with empathy.

Relationship management

Building trust, resolving conflict and working well with others.

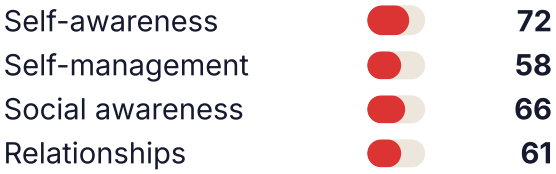
Good to know: Every part of EQ improves with practice and support. Answer honestly to see where you are today and how you can grow.

EMOTIONAL INTELLIGENCE · IN YOUR REPORT

What your report shows you.

Your EQ level, a score for each of the four areas, and the one area to practise first.

Example result



Illustrative only, not a real result.

Why it matters

Strong emotional intelligence improves communication, builds healthier relationships, helps you work in teams and prepares you to adapt, lead and thrive.

Why it matters in the AI era

- Stay calm under pressure
- Handle conflict with respect
- Listen before they respond
- Lead and support a team

How to use it this month

Stage	Try this
Class 6–8	Name one feeling a day. Talk about it at dinner.
Class 9–10	Before exams, try the wellbeing tools in Entrance Exams › Wellbeing.
Class 11–12	Practise one hard conversation (a disagreement with a friend) calmly.
Undergraduates	Ask for feedback after a group project and act on one point.

REMEMBER

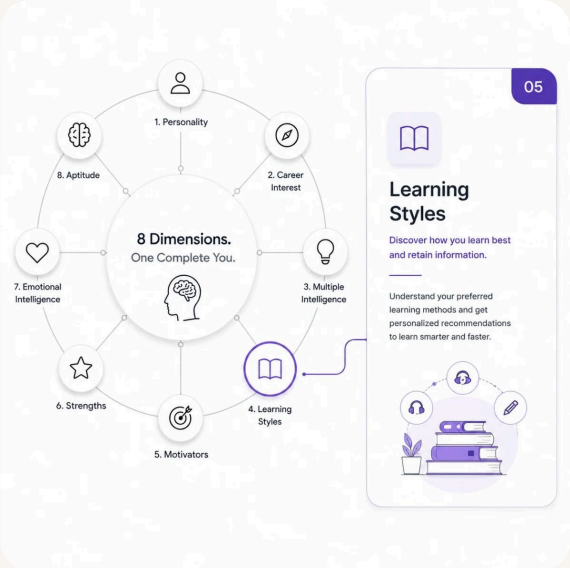
A dimension describes you today. It is a lens for reflection, not a label, and every part of it can grow with practice.

THE 8 DIMENSIONS · 05

05

Learning Style

How do I prefer to study?



What it measures

The ways you naturally like to take in, process and organise information. It shows preferences, not potential, so you can choose methods that help you learn with less effort.

The framework behind it

Four common learning preferences. You can be good at all four; this shows which ones you prefer more.

What it looks at

Seeing (visual)

Diagrams, charts, images, videos and demonstrations.

Hearing (auditory)

Listening, discussions, explanations and spoken examples.

Reading / writing

Reading text, taking notes, summarising and writing things down.

Doing (hands-on)

Trying, practising, experimenting and applying.

Good to know: A learning style is a preference, not an ability, and never a reason to pick or rule out a career.

LEARNING STYLE · IN YOUR REPORT

What your report shows you.

Your preferred and second style, with revision and exam-preparation techniques that suit them.

Example result

Seeing	74
Doing	66
Reading / writing	49
Hearing	41

Illustrative only, not a real result.

Why it matters

When you study in the ways you prefer, revision is easier to start and to keep up. Building flexibility across all four makes you a stronger, more adaptable learner.

Why it matters in the AI era

- Adapt when the way of working changes
- Learn new tools and skills quickly
- Know how they learn best
- Keep learning without being told

How to use it this month

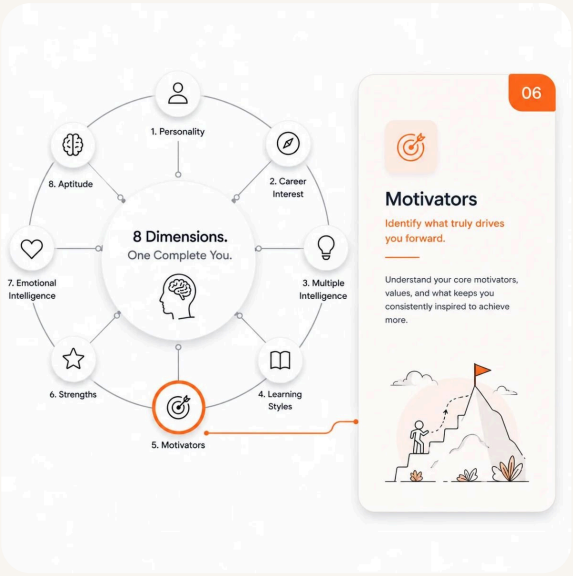
Stage	Try this
Class 6–8	Turn one chapter into a picture, a song, a summary or a model, whichever fits you.
Class 9–10	Plan board-exam revision with your top style; use the second for variety.
Class 11–12	Use the Entrance Exams planner and pick a method per subject.
Undergraduates	Choose courses and certifications that match how you learn best.

REMEMBER A dimension describes you today. It is a lens for reflection, not a label, and every part of it can grow with practice.

THE 8 DIMENSIONS · 06

06 Motivators

What drives me?



What it measures

What energises you to put in effort, keep going through challenges and feel satisfied with your work: the reasons that make a task feel meaningful.

The framework behind it

Work-values and motivation research. Situations tag your choices with values; your result is your personal ranking, not a fixed label.

What it looks at

Achievement
Reaching goals and seeing results.

Learning
Growing and understanding more.

Mastery
Becoming excellent at something.

Security
Stability and a steady future.

Leadership
Guiding people and decisions.

Social impact
Helping people and society.

Autonomy
Freedom to work your way.

Creativity
Making new things.

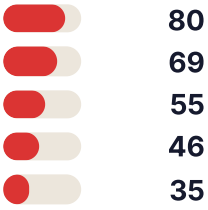
Good to know: Motivators shift over life. Revisit your report as you grow.

MOTIVATORS · IN YOUR REPORT

What your report shows you.

Your core driver, how your other drivers rank (including recognition, collaboration and financial security), and what kind of role feeds them.

Example result



Illustrative only, not a real result.

Why it matters

A role that feeds your top driver keeps you engaged for years. A role that ignores it can feel empty even when it pays well.

Why it matters in the AI era

- Start work without being pushed
- Keep going when the work gets hard
- Finish what they begin
- Know what keeps them motivated

How to use it this month

Stage	Try this
Class 6–8	Notice which reward works for you: praise, learning something new, or helping someone.
Class 9–10	Ask of each stream: will it feed my top driver?
Class 11–12	Compare two careers by how well they feed your top two drivers.
Undergraduates	When choosing between job offers, rank them against your drivers, not just salary.

REMEMBER

A dimension describes you today. It is a lens for reflection, not a label, and every part of it can grow with practice.

THE 8 DIMENSIONS · 07

07 Strengths

What do I naturally contribute?

What it measures

How you naturally add value in a group, across strength domains such as leading, analysing, relating to people, creating, design thinking, strategy and planning ahead.

The framework behind it

A strengths model with eight domains. You answer forced-choice situations (pick the option most like you), and there are no wrong answers.

What it looks at

Problem-solving
Finding a way through.

Communication
Explaining and persuading.

Organisation
Planning and order.

Creativity
New ideas and design.

Empathy
Understanding people.

Persistence
Sticking with it.

Leadership
Taking the lead.

Strategy
Thinking ahead.

Good to know: Your last-ranked strength is not a weakness, just not your first instinct.

STRENGTHS · IN YOUR REPORT

What your report shows you.

Your two signature strengths, a Strong / Moderate / Developing view of the others, and the fields that reward your signature strengths.

Example result

Illustrative only, not a real result.

Why it matters

Your strengths are already there. Knowing them helps you choose paths where you contribute in meaningful ways and build confidence by practising what comes naturally.

Why it matters in the AI era

- Know their top strengths and can name them
- Use them to solve real problems
- Work well with people who are different
- Keep building what they do best

How to use it this month

Stage	Try this
Class 6–8	Ask two people what you are good at. Compare with your report.
Class 9–10	Use a signature strength in one school event or project.
Class 11–12	Write one paragraph on each signature strength for future SOPs and interviews.
Undergraduates	Add proof of each strength to your Career Passport.

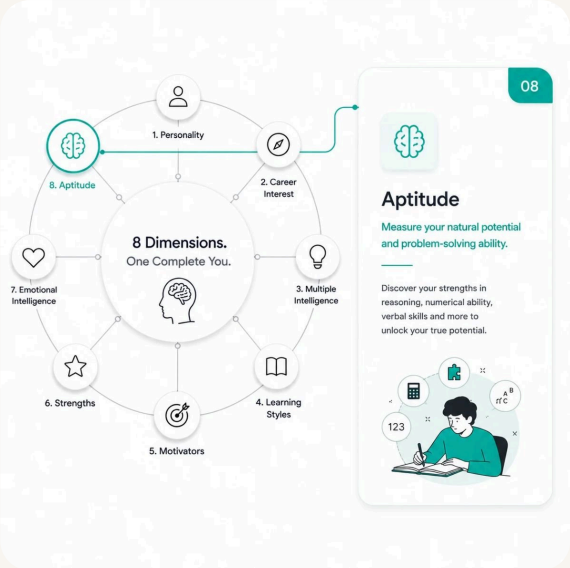
REMEMBER A dimension describes you today. It is a lens for reflection, not a label, and every part of it can grow with practice.

THE 8 DIMENSIONS · 08

08

Aptitude

How quickly can I pick up new skills?



What it measures

Your ability to learn new concepts, solve problems and think logically across different kinds of challenge. It shows how quickly you can pick up the skills a field demands.

The framework behind it

Standard reasoning areas used in entrance-style tests. This is the only section with right-or-wrong answers, and each question has one best answer.

What it looks at

Verbal reasoning
Words, ideas and meaning.

Numerical reasoning
Numbers and quantities.

Abstract reasoning
Patterns in shapes and relationships.

Spatial reasoning
Visualising and turning objects.

Logical reasoning
Rules, sequences and deductions.

Data interpretation
Reading charts and tables.

Good to know: Aptitude improves with regular, timed practice. It is not fixed, and the overall assessment is still not a pass-or-fail exam.

APTITUDE · IN YOUR REPORT

What your report shows you.

Your overall aptitude, how many reasoning questions you got right area by area, your sharpest area and practice tips for exams.

Example result

Illustrative only, not a real result.

Why it matters

A strong aptitude helps you grasp new ideas faster, adapt to change and tackle complex problems. It also helps with entrance-exam preparation. Analytical thinking is the number one skill employers want (World Economic Forum, 2025).

Why it matters in the AI era

- Think through unfamiliar problems
- Check whether an answer makes sense
- Pick up technical skills quickly
- Work confidently with numbers and data

How to use it this month

Stage	Try this
Class 6–8	Do 10 minutes of puzzles three times a week.
Class 9–10	Try NMMS or olympiad-style practice in Entrance Exams.
Class 11–12	Take a timed mock test and study the analysis of what you got wrong.
Undergraduates	Practise placement-style aptitude sets before campus drives.

REMEMBER

A dimension describes you today. It is a lens for reflection, not a label, and every part of it can grow with practice.

UNDERGRADUATE EDITION

Eight areas of career readiness: who you are and how you think.

AREA 01

Personality & Behaviour

Measures: How you naturally work, decide and react to change.

Your report shows: Your four-letter type and how clear your preferences are. A score, your strengths, where to grow and next steps.

AREA 02

Interests & Motivation

Measures: The work you enjoy, what keeps you going, and the life you want your career to give you.

Your report shows: Your top interest types and what drives you. A score, your strengths, where to grow and next steps.

AREA 03

Cognitive Capability

Measures: Reasoning with numbers, words, logic, patterns, charts and practical problems.

Your report shows: How many reasoning questions you got right, area by area. A score, your strengths, where to grow and next steps.

AREA 04

Academic & Domain Fit

Measures: How well you know your subject, where your degree leads, and whether you enjoy it.

Your report shows: A score and breakdown for your degree and specialisation. A score, your strengths, where to grow and next steps.

UNDERGRADUATE EDITION

Eight areas of career readiness: how ready you are for work.

AREA 05

Human & Professional Skills

Measures: Explaining ideas, handling feedback, teamwork, leading, finishing and bouncing back.
Your report shows: How you would handle real work situations. A score, your strengths, where to grow and next steps.

AREA 06

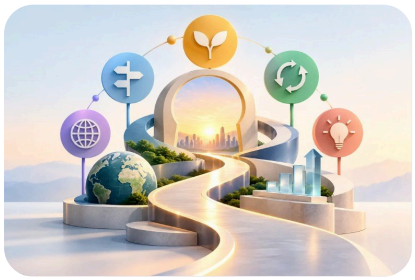
Digital & Future Skills

Measures: Learning new tools, using AI sensibly, checking data, preparing for future skills.
Your report shows: Your digital and AI readiness. A score, your strengths, where to grow and next steps.

AREA 07

Career & Employability Readiness

Measures: Knowing the role you want, real experience, proof of your skills, showing your value.
Your report shows: How ready you are for your first job. A score, your strengths, where to grow and next steps.



AREA 08

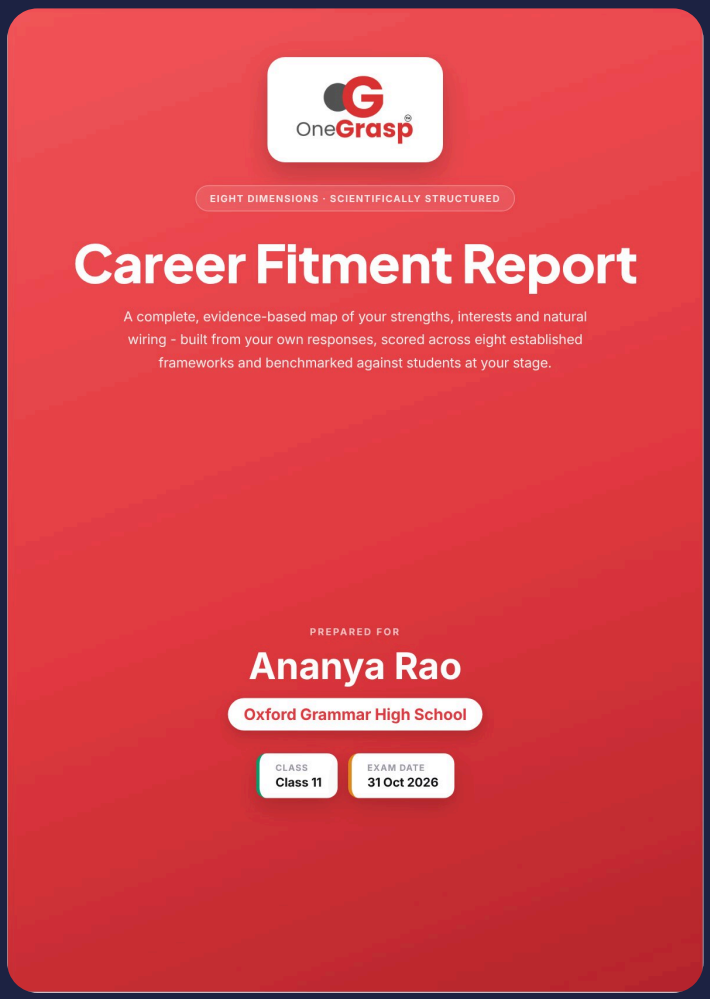
Future Career Adaptability & Fit

Measures: How quickly you learn, handle change, and the career, industry and place that suit you.
Your report shows: How well you adapt, and your long-term preferences. A score, your strengths, where to grow and next steps.

PART 04

Your Report

What every class receives, page by page, and how to read it with confidence.



IN THIS PART

1. One assessment, four reports
2. Class 6–8: Career Discovery
3. Class 9–10: Stream Selection
4. The 15 career domains
5. Class 11–12: Career Planning
6. Undergraduates: Employability Readiness
7. How to read your report

BY STAGE

One assessment, four reports.

Every report is built only from the student's own answers, but what it focuses on changes with the decisions in front of them.

Report section	Class 6–8	Class 9–10	Class 11–12	Undergraduates
Dimension scorecard on one page	✓ 8–9 dimensions	✓ 8 dimensions	✓ 8 dimensions	✓ 8 career-readiness areas
Deep dive per dimension	✓	✓	✓	✓
Personality type and interest code	✓	✓	✓	✓
Best-fit fields with a fit %	Top 5 of 15 domains	Top 5 of 15 domains	16 career clusters	17 career clusters

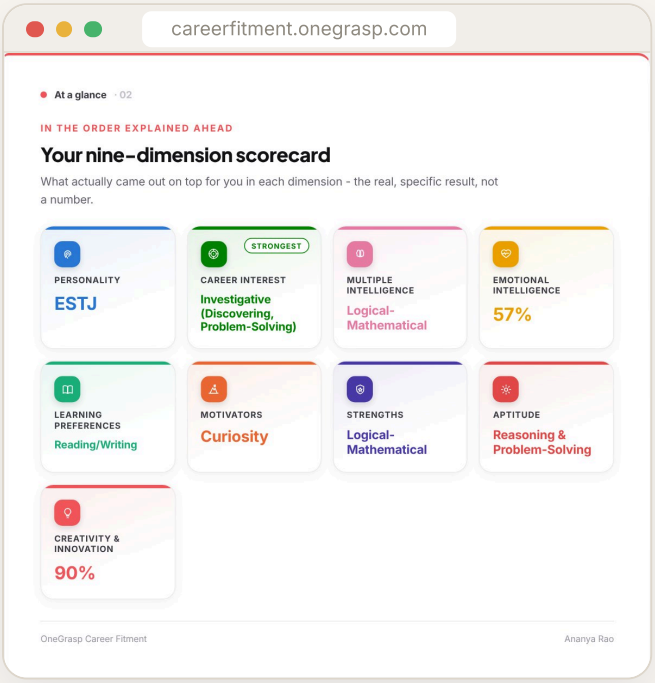
Delivered instantly: see it on screen, download the PDF, and get a copy by email. The same report also powers the “Your results” pages in the dashboard.

CLASS 6–8 · CAREER DISCOVERY

Curiosity first, labels never.

For students beginning the journey. The Class 6–8 edition is shorter, friendlier and built to spark curiosity, not to pick a career at 11.



The Class 6–8 scorecard: every dimension's real result, at a glance.

What Class 6–8 students get

- About 60 short, age-appropriate questions
- A scorecard across Personality, Career Interest, Strengths, Aptitude, Motivators, Learning Style, Emotional Awareness and Creativity & Innovation
- Your four-letter personality type and three-letter interest code, in simple words
- Top 5 career domains from 15, each with a fit %
- “Your career, in one page”: a profile wheel and best-fit fields
- A 20-year roadmap: what to explore now, in school and beyond
- Free resources, and a page for parents

Two dimensions made for younger students

Emotional Awareness

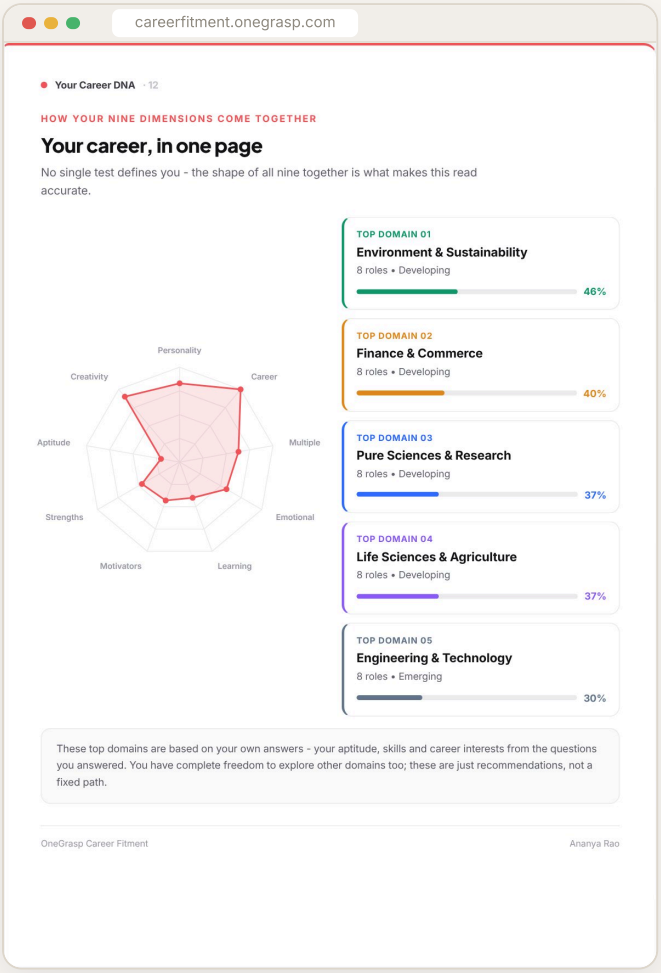
Noticing your own feelings and other people's, in everyday school and home situations. It grows into full Emotional Intelligence in later editions.

Creativity & Innovation

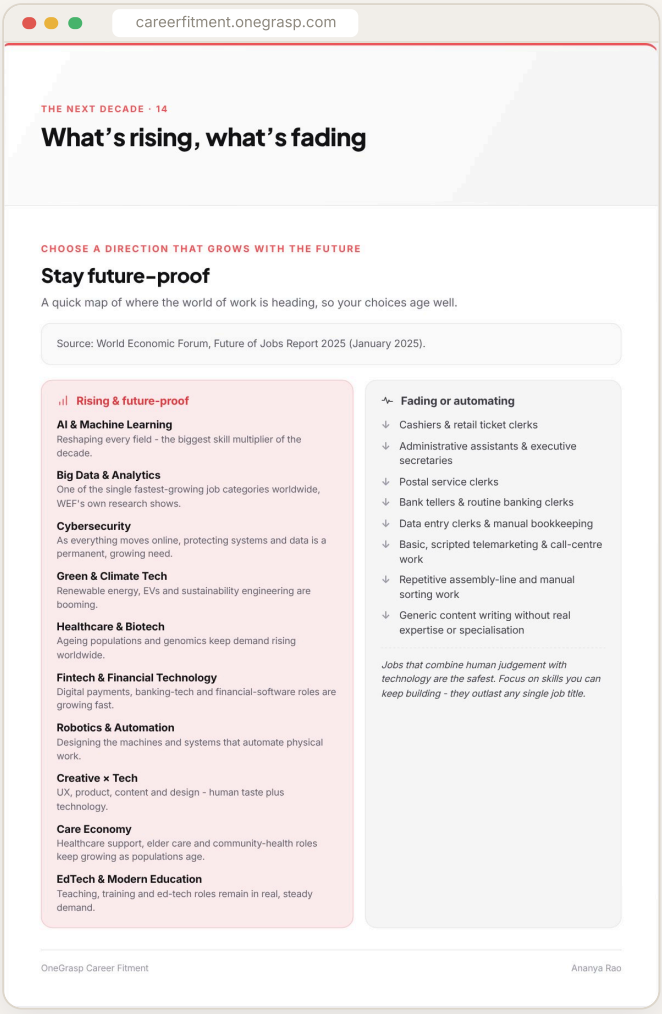
Four indicators: problem-solving, adaptability, innovation and future orientation. How you come up with ideas and handle the new.

CLASS 6–8 · CAREER DISCOVERY

Reading the Class 6–8 report together.



"Your career, in one page": the profile wheel and best-fit domains.



The 20-year roadmap, rising step by step from today.

What to do with it at this age

Explore, don't decide

Use the top 5 domains as a menu of things to try: clubs, books, videos, visits.

Build habits

The roadmap's first steps are habits: reading, curiosity, money basics, asking good questions.

Try the dashboard tools

Financial Literacy, Communication Lab and AI Aware are built for younger students too.

Watch for exams

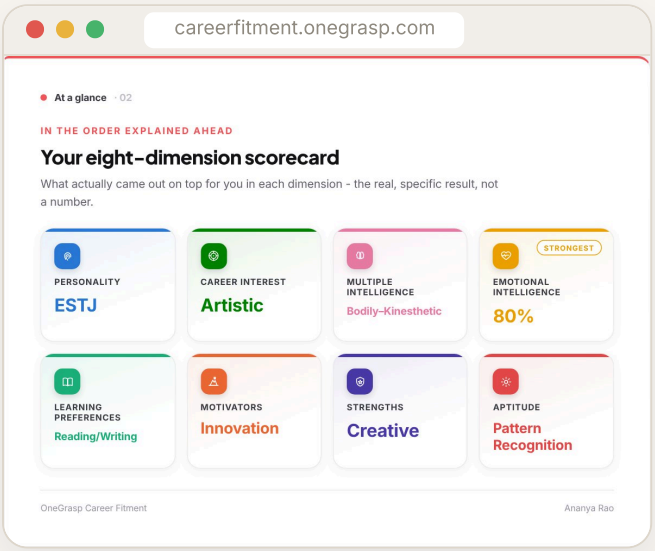
JNVST (Navodaya, Class 6), AISSEE (Sainik School, Class 6 and 9) and NMMS (Class 8) are in Entrance Exams.

For parents: a Class 7 report is a snapshot of a growing child. Celebrate the strengths, don't worry about the lowest scores, and plan to retake the assessment in Class 9–10.

CLASS 9–10 · STREAM SELECTION

The first big choice: your stream.

After Class 10, students pick a stream: MPC, BiPC, MEC, CEC, HEC or vocational. The Class 9–10 report shows which fields fit, so the stream follows the student, not the crowd.



The Class 9–10 scorecard: eight dimensions with the real result in each.

What Class 9–10 students get

- About 60 questions across the 8 dimensions, ordered interests and aptitude first
- Your personality type, interest code and signature strengths
- Top 5 career domains from 15, each with a fit % and Strong / Good / Worth exploring
- What each domain is, its key roles, skills, how to get in and salary ranges
- “Your choice vs your result”: the career you want, compared with your profile
- A 20-year roadmap and next steps for this year
- Scholarships, free courses and a parents' page

WHY IT MATTERS

A stream is easier to choose than to change. Two calm conversations now, with the report on the table, save years later.

CLASS 9–10 · STREAM SELECTION

From your top domains to a stream.

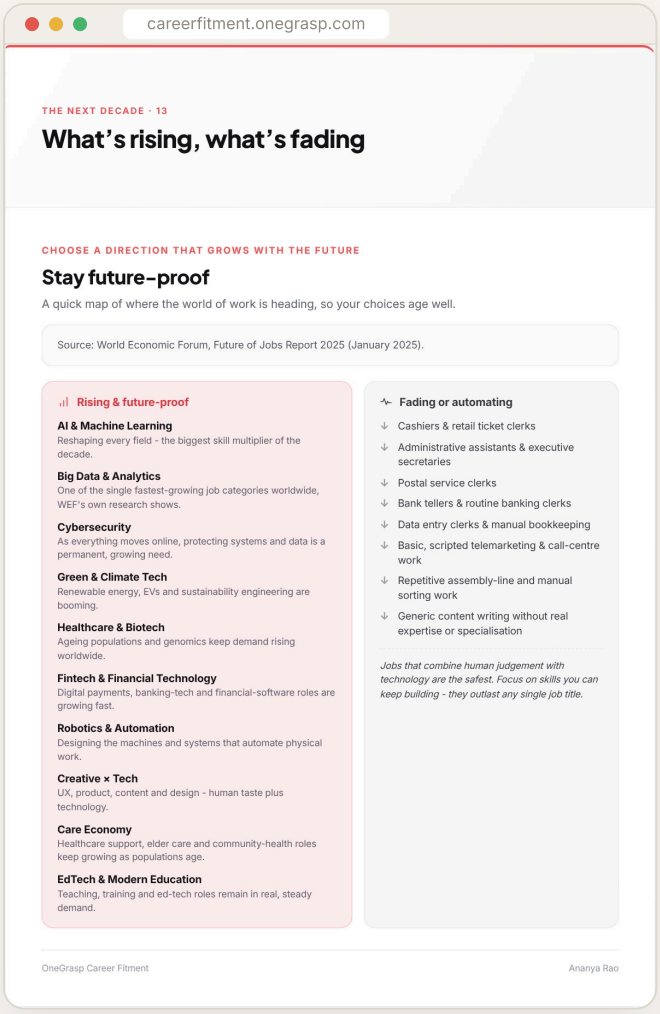
Find your top domains from the report in the left column. The middle column shows the streams that most directly lead there.

Career domain	Streams that lead there most directly	Entrance exams you may meet
Business & Entrepreneurship	MEC, CEC (any stream welcome)	IPMAT, CUET-UG
Finance & Commerce	MEC, CEC	CUET-UG, CA Foundation
Engineering & Technology	MPC	JEE Main, JEE Advanced, BITSAT
Computer Science & IT	MPC (MEC for BCA)	JEE Main, BITSAT, CUET-UG
Medicine & Healthcare	BiPC	NEET-UG
Life Sciences & Agriculture	BiPC	NEET-UG, ICAR AIEEA, CUET-UG
Pure Sciences & Research	MPC or BiPC	CUET-UG, IISER/NEST
Architecture, Design & Creative Arts	MPC for architecture; any for design	NATA, JEE Paper 2, NID DAT, UCEED, NIFT
Media & Communication	Any; HEC helps	CUET-UG
Law, Government & Public Service	Any; HEC or CEC helps	CLAT, AILET, CUET-UG
Education & Psychology	Any; HEC or BiPC helps	CUET-UG
Hospitality, Tourism & Events	Any	NCHM JEE, CUET-UG
Defence, Aviation & Transportation	MPC (NDA, pilot)	NDA & NA
Environment & Sustainability	BiPC or MPC	CUET-UG, ICAR AIEEA
Sports & Fitness	Any	CUET-UG, sports quotas

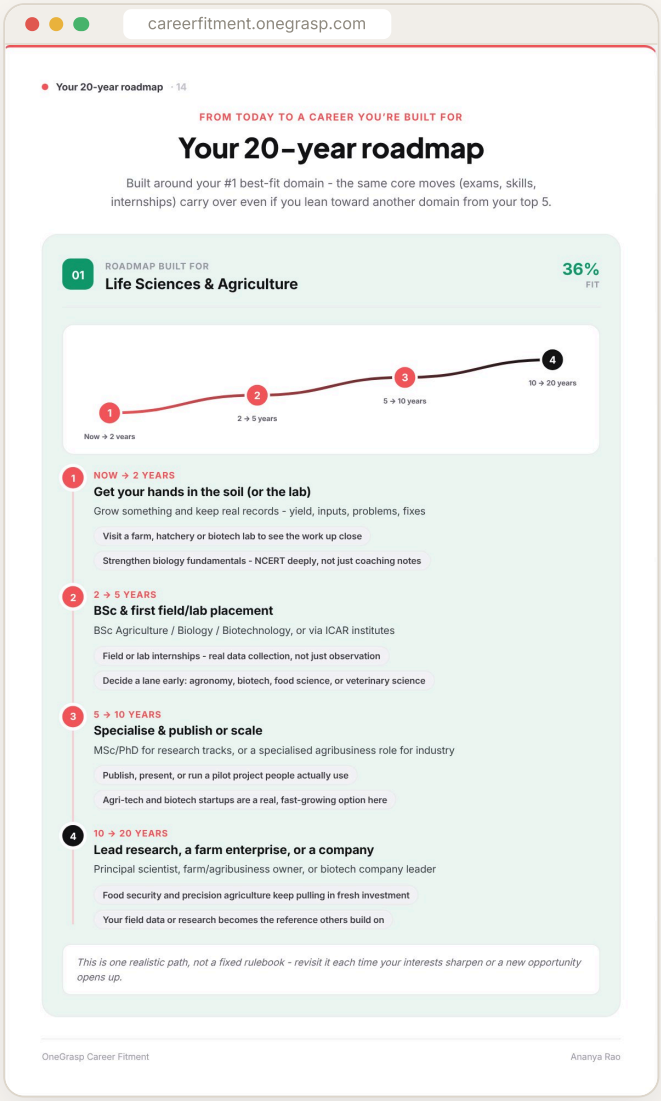
Good to know: this table is a starting guide. Many degrees accept any stream, and rules change, so confirm eligibility on each exam's official site (Entrance Exams in your dashboard links to them).

CLASS 9–10 · STREAM SELECTION

Your roadmap and a stream checklist.



Your 20-year roadmap: from the stream choice to long-term growth.



Take the next step: learn, find work and get funded.

Before you sign the stream form

- [ ] Our top 2 domains from the report point to this stream
- [ ] We checked aptitude: the stream's maths or biology load is manageable
- [ ] We tried one Career Test-Drive for a career in this stream
- [ ] We have a backup plan if the first-choice exam doesn't work out
- [ ] The student enjoys at least two core subjects of this stream
- [ ] We read 3 careers from this stream in the Career Library
- [ ] We know the main entrance exam and its eligibility
- [ ] The decision is the student's, with the family's support

REFERENCE

The 15 career domains.

Class 6–10 reports rank these 15 broad fields. In the report, each card adds what the domain is, key roles, skills, how to get in, salary in India and abroad, and future scope.

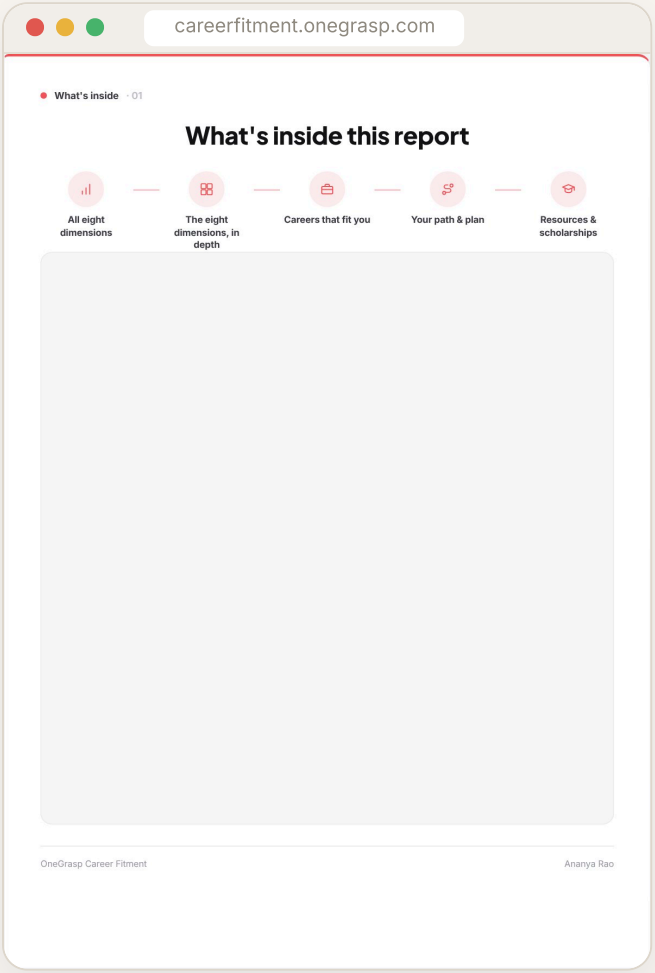
Domain	In one line	Example roles	Entry pay (India)
A. Business & Entrepreneurship	Building and growing organisations from the ground up.	Entrepreneur, Startup Founder, Business Owner	₹3.5–7 LPA
B. Finance & Commerce	Making sense of money, risk and value.	Chartered Accountant, Cost Accountant, Company Accountant	₹3.5–8 LPA
C. Engineering & Technology	Designing and building the physical world.	Mechanical Engineer, Civil Engineer, Electrical Engineer	₹3.5–7 LPA
D. Computer Science & IT	Building the digital world.	Software Developer, Software Engineer, Web Developer	₹4–10 LPA
E. Medicine & Healthcare	Caring for human health and wellbeing.	General Physician, Surgeon, Cardiologist	₹3–6 LPA (allied / nursing)
F. Life Sciences & Agriculture	Understanding and improving living systems.	Agricultural Scientist, Agronomist, Horticulturist	₹3–6 LPA
G. Pure Sciences & Research	Uncovering how the universe works.	Physicist, Astrophysicist, Astronomer	₹3–6 LPA (research)
H. Architecture, Design & Creative Arts	Shaping how the world looks, feels and functions.	Architect, Landscape Architect, Interior Designer	₹3–6 LPA
I. Media & Communication	Telling stories that reach the world.	Journalist, News Reporter, Investigative Journalist	₹2.5–5 LPA
J. Law, Government & Public Service	Upholding justice and serving the public.	Advocate, Corporate Lawyer, Criminal Lawyer	₹3–6 LPA
K. Education & Psychology	Helping people learn, grow and understand themselves.	Primary School Teacher, Secondary School Teacher, High School Teacher	₹2.5–5 LPA
L. Hospitality, Tourism & Events	Creating memorable experiences.	Hotel Manager, Resort Manager, Restaurant Manager	₹2.5–5 LPA
M. Defence, Aviation & Transportation	Protecting the nation and keeping the world moving.	Army Officer, Navy Officer, Air Force Officer	₹4–8 LPA
N. Environment & Sustainability	Protecting the planet for the future.	Environmental Consultant, Environmental Analyst, Environmental Planner	₹3–6 LPA
O. Sports & Fitness	Building performance, health and passion into a career.	Professional Athlete, Sports Coach, Fitness Trainer	₹2.5–5 LPA

Salaries: typical entry-level ranges, indicative for India and not guarantees.

CLASS 11–12 · CAREER PLANNING

Four big decisions. Two short years.

Subjects, entrance exams, degree and college. The Class 11–12 report answers all four with the same clear picture of the student.



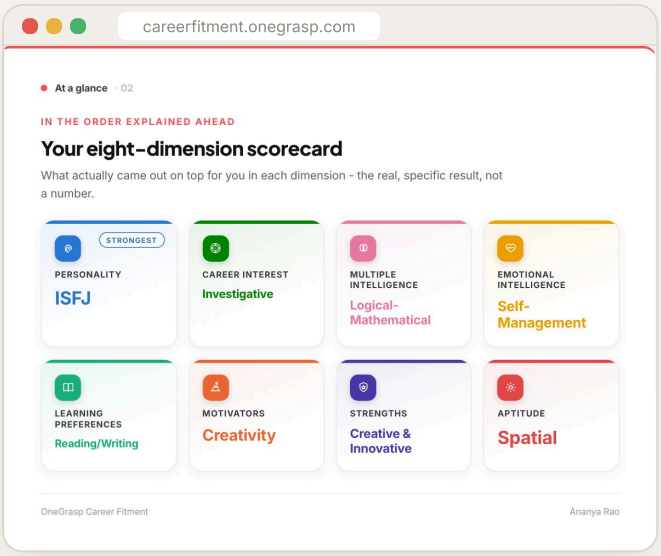
What's inside: your eight dimensions, careers that fit you, your path and plan, resources and scholarships.

What Class 11–12 students get

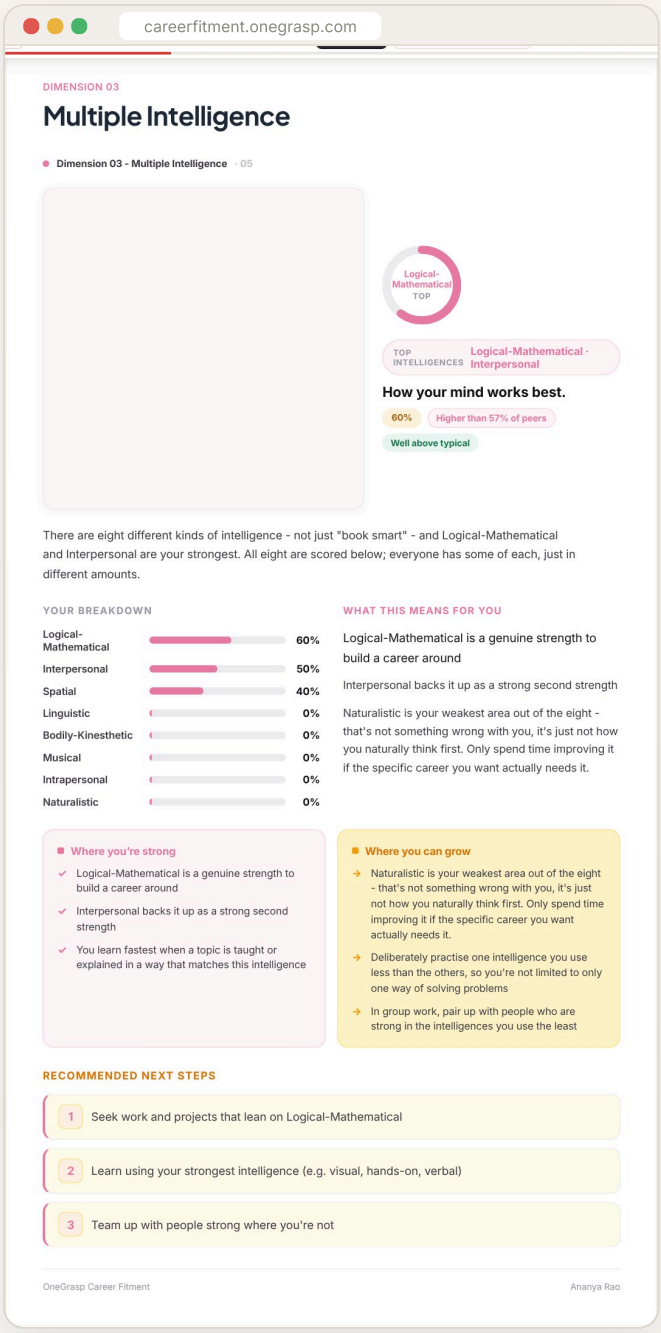
- 75 questions: the 8 dimensions plus subject fit, career and stream fit, and career aspiration
- An 8-dimension scorecard and a deep dive per dimension
- Career cluster fit across 16 clusters
- Three views: Career Fitment, Career Suitability, Career Selector
- A 15-step roadmap to the career you choose
- Entrance exams for your stream with official links
- Funded routes (NDA, Army 10+2 TES, IIST, apprenticeships)
- What's rising and fading (WEF 2025), resources and a parents' page

CLASS 11–12 · CAREER PLANNING

Your scorecard and the deep dives.



Your eight-dimension scorecard: the real, specific result in each dimension.



A deep dive: score, what it means for you, where you are strong, where to grow, next steps.

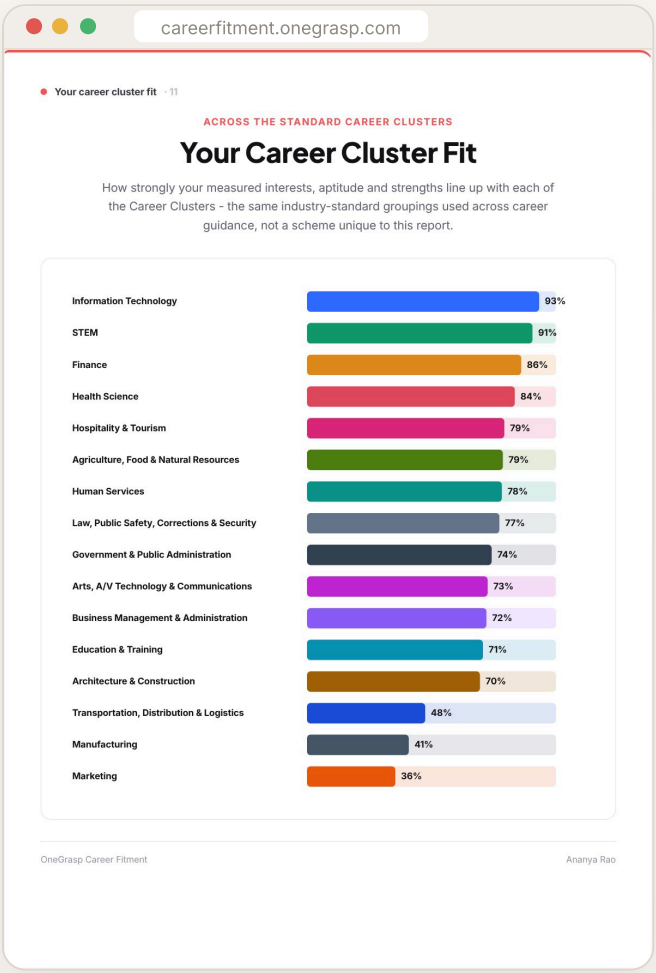
Every deep-dive page has the same five parts

Score	Meaning	Strong	Grow	Next steps
0–100 with a typical-student marker	In plain words	Where you shine	Where to practise	Three actions

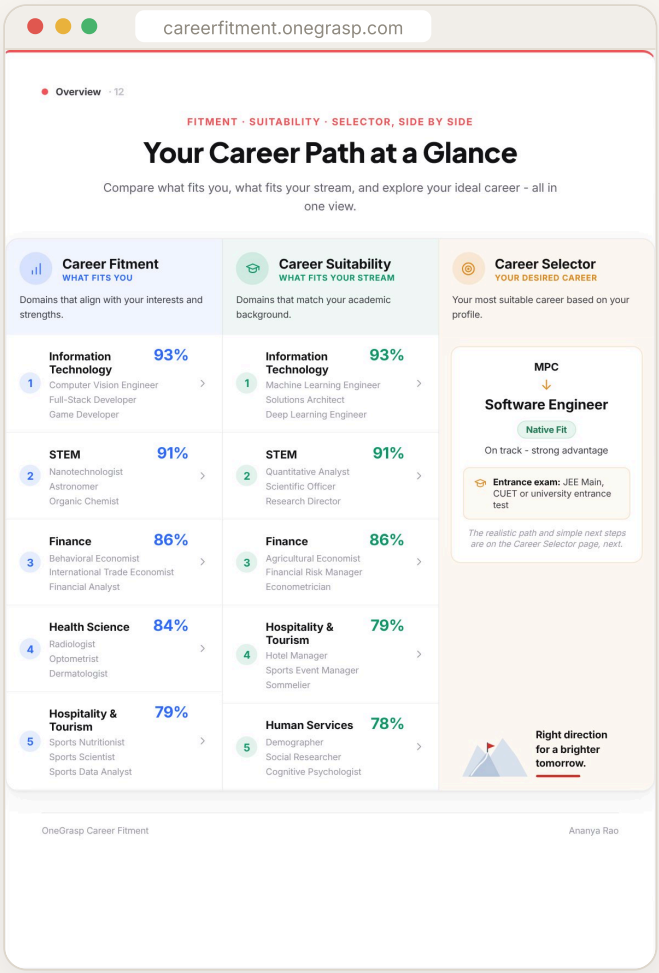
CLASS 11–12 · THE HEART OF THE REPORT

Three ways to see your future.

Your report compares what fits you, what fits your stream, and the career you dream of, side by side.



Your career cluster fit: how closely you match each of 16 clusters.



Your career path at a glance: Fitment, Suitability and Selector.

1

Career Fitment · what fits you

Your top 5 career areas, ranked purely by your answers. Each shows key roles, skills to build, salary range in India (indicative) and entrance exams to know.

2

Career Suitability · what fits your stream

The same areas, kept to careers your current stream (MPC, BiPC, MEC, CEC or HEC) already reaches, plus top companies that hire and funded routes.

3

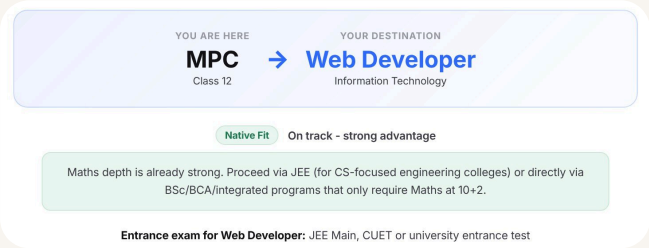
Career Selector · your dream career

The career you choose, how well it fits, and the realistic route from Class 11 to senior roles.

CLASS 11–12 · CAREER SELECTOR

Pick your dream career. Get the whole route.

Choose the career you want. Your report shows how well it fits, and lays out every step from Class 11 to senior roles.



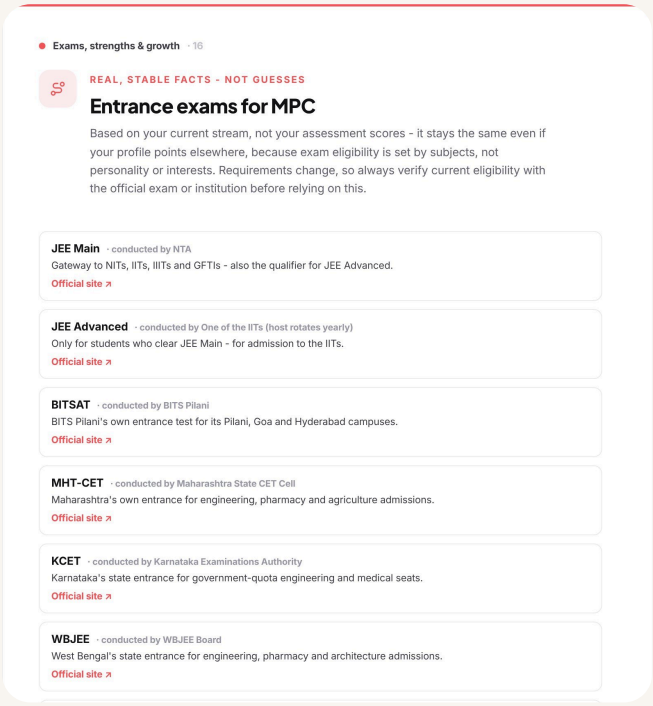
Step	What it covers
Subjects and entrance exams	What to choose now, and which exams lead there
Degrees, colleges and scholarships	Top colleges in India and the money to study
Skills, internships and jobs	What to build each year, and first job titles
PG and specialisation	Where to go further
Study or work abroad	Requirements and routes
Career progression	How the career grows over time

A guide, not a guarantee: entry routes and requirements change. Confirm with the college, exam body or employer.

CLASS 11–12 · ALSO IN YOUR REPORT

Real facts. Not guesses.

Every exam and funded programme links to its official source, so you can check it yourself.



Exams, strengths & growth · 16

REAL, STABLE FACTS - NOT GUESSES

Entrance exams for MPC

Based on your current stream, not your assessment scores - it stays the same even if your profile points elsewhere, because exam eligibility is set by subjects, not personality or interests. Requirements change, so always verify current eligibility with the official exam or institution before relying on this.

JEE Main · conducted by NTA
Gateway to NITs, IITs, IIITs and GFTIs - also the qualifier for JEE Advanced.
Official site ↗

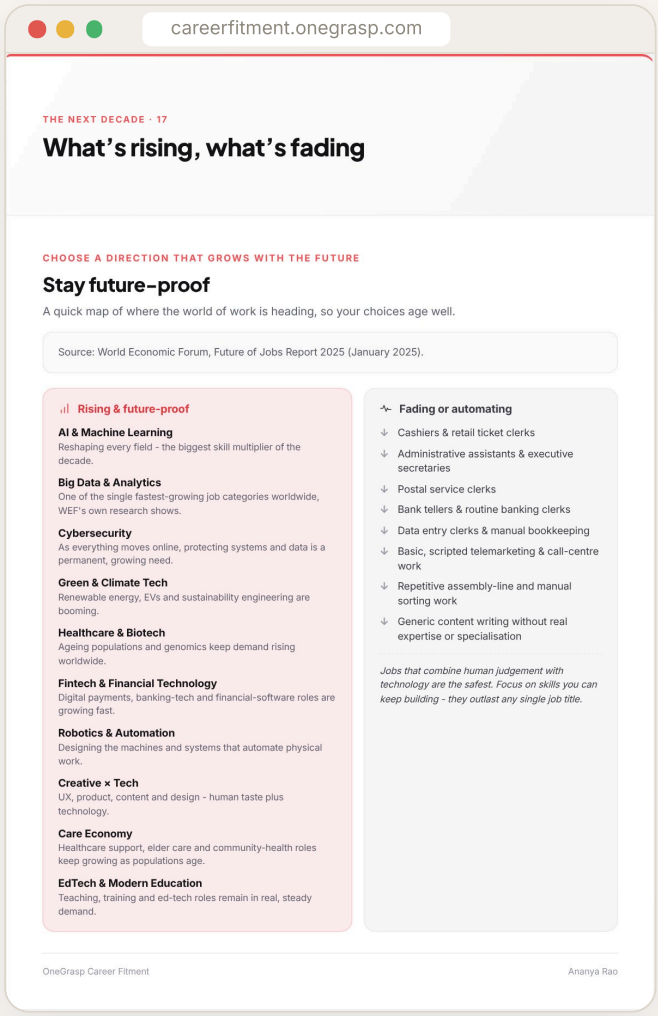
JEE Advanced · conducted by One of the IITs (host rotates yearly)
Only for students who clear JEE Main - for admission to the IITs.
Official site ↗

BITSAT · conducted by BITS Pilani
BITS Pilani's own entrance test for its Pilani, Goa and Hyderabad campuses.
Official site ↗

MHT-CET · conducted by Maharashtra State CET Cell
Maharashtra's own entrance for engineering, pharmacy and agriculture admissions.
Official site ↗

KCET · conducted by Karnataka Examinations Authority
Karnataka's state entrance for government-quota engineering and medical seats.
Official site ↗

WBJEE · conducted by WBJEE Board
West Bengal's state entrance for engineering, pharmacy and architecture admissions.
Official site ↗



careerfitment.onegrasp.com

THE NEXT DECADE · 17

What's rising, what's fading

CHOOSE A DIRECTION THAT GROWS WITH THE FUTURE

Stay future-proof

A quick map of where the world of work is heading, so your choices age well.

Source: World Economic Forum, Future of Jobs Report 2025 (January 2025).

Rising & future-proof

AI & Machine Learning
Reshaping every field - the biggest skill multiplier of the decade.

Big Data & Analytics
One of the single fastest-growing job categories worldwide, WEF's own research shows.

Cybersecurity
As everything moves online, protecting systems and data is a permanent, growing need.

Green & Climate Tech
Renewable energy, EVs and sustainability engineering are booming.

Healthcare & Biotech
Ageing populations and genomics keep demand rising worldwide.

Fintech & Financial Technology
Digital payments, banking-tech and financial-software roles are growing fast.

Robotics & Automation
Designing the machines and systems that automate physical work.

Creative × Tech
UX, product, content and design - human taste plus technology.

Care Economy
Healthcare support, elder care and community-health roles keep growing as populations age.

EdTech & Modern Education
Teaching, training and ed-tech roles remain in real, steady demand.

Fading or automating

- Cashiers & retail ticket clerks
- Administrative assistants & executive secretaries
- Postal service clerks
- Bank tellers & routine banking clerks
- Data entry clerks & manual bookkeeping
- Basic, scripted telemarketing & call-centre work
- Repetitive assembly-line and manual sorting work
- Generic content writing without real expertise or specialisation

Jobs that combine human judgement with technology are the safest. Focus on skills you can keep building - they outlast any single job title.

OneGrasp Career Fitment · Ananya Rao

What's rising, what's fading: based on the WEF Future of Jobs Report 2025.

Entrance exams for your stream

With who conducts them and official links.

Funded programmes

Genuinely funded or stipend-linked routes, checked against official sources.

Learn, find work and get funded

Free courses, job sites and scholarships to apply for.

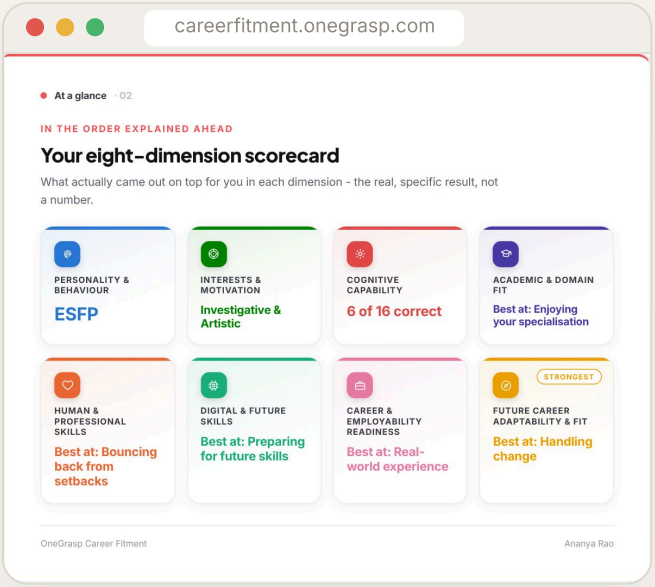
A page for parents

"Guide, not decide": simple ways to support your child.

UNDERGRADUATE EDITION

Know your fit. Build your career.

Skills, internships, first job and higher study: the undergraduate report covers the four choices to make before graduation.



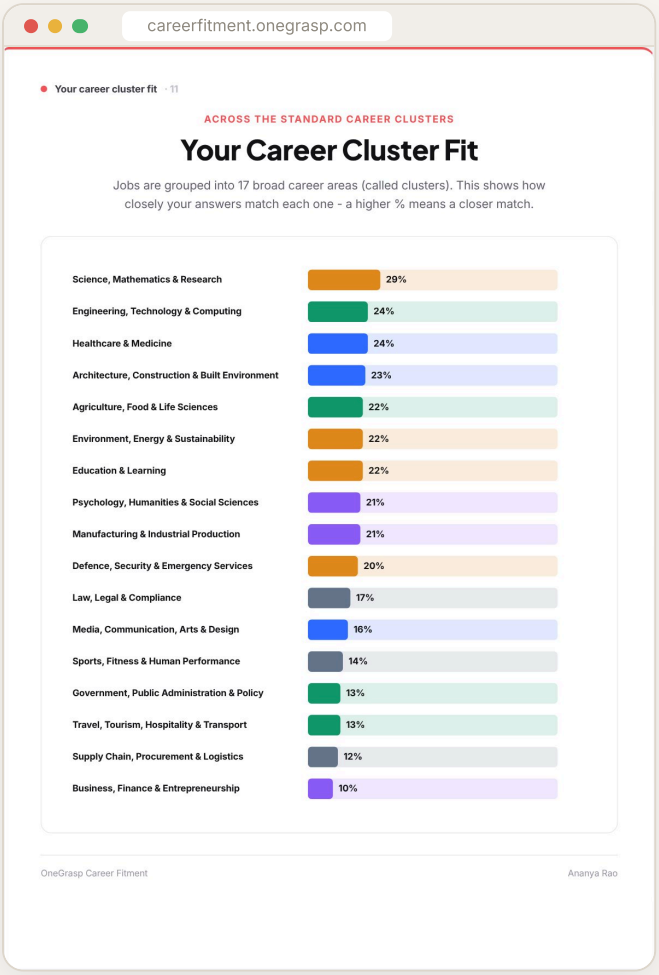
Your eight-area scorecard: personality, interests, cognitive capability, domain fit and four readiness areas.

What undergraduates get

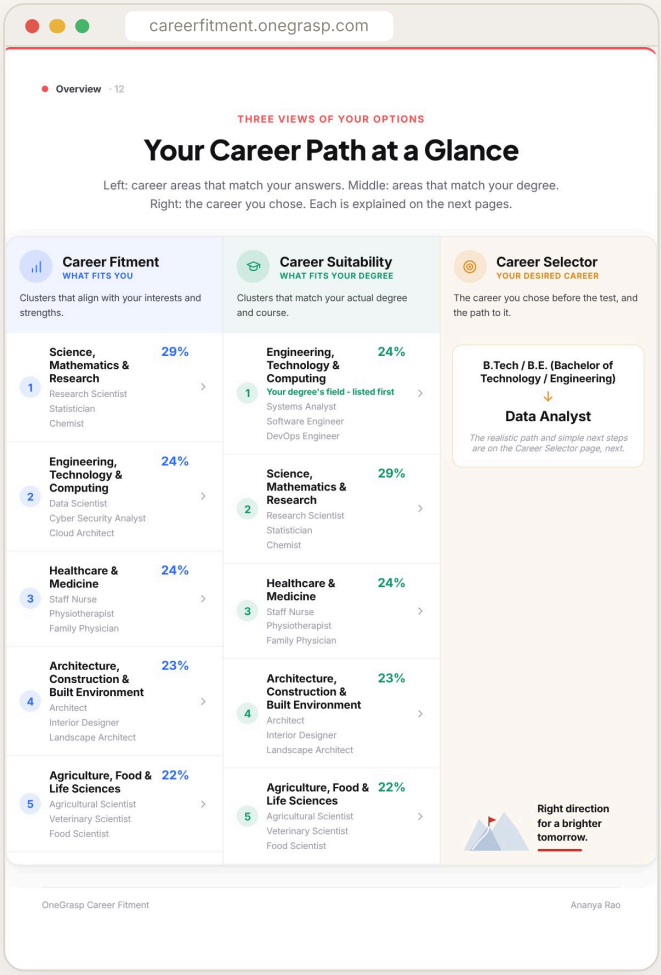
- 100 questions across 8 areas of career readiness
- A scorecard and a deep dive per area
- Career cluster fit across 17 clusters
- Fitment (what fits you), Suitability (what fits your degree) and Selector (your target role)
- A skill gap: your level vs what jobs need
- Your 2026–2046 career horizon
- PG entrance exams for your field (CAT, CUET-PG, state PGCETs and more)
- Learn, find work and get funded; a page for parents and mentors

UNDERGRADUATE EDITION

Your clusters and your realistic path.



Your career cluster fit across 17 clusters.



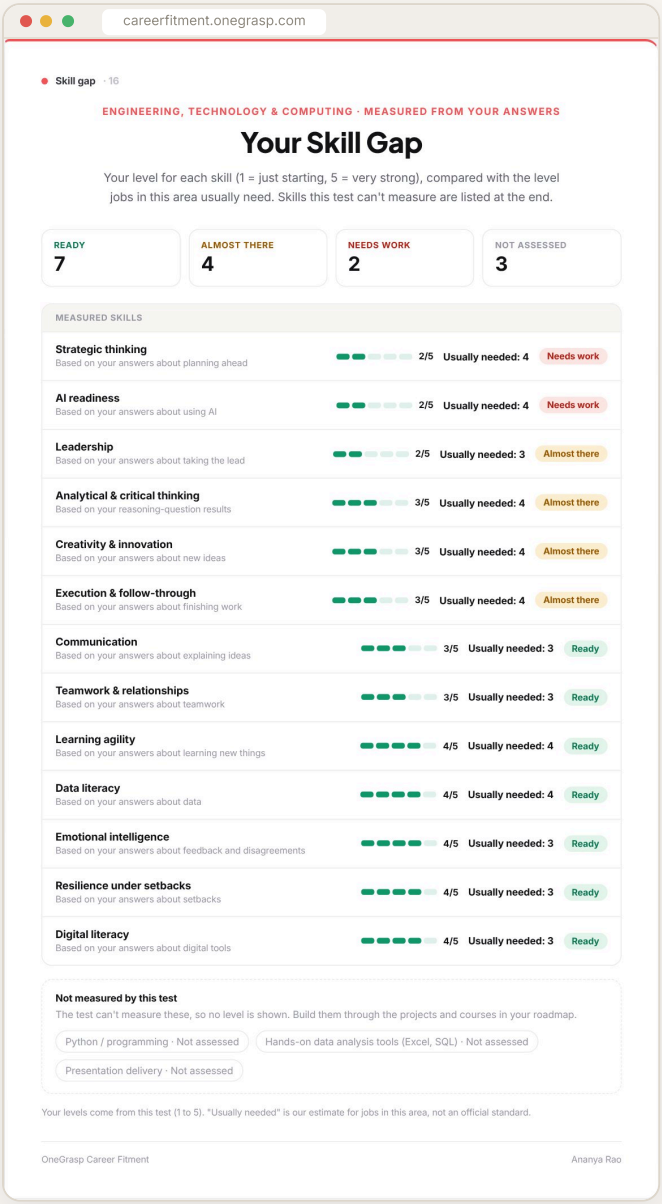
Your career path at a glance: Fitment, Suitability, Selector.

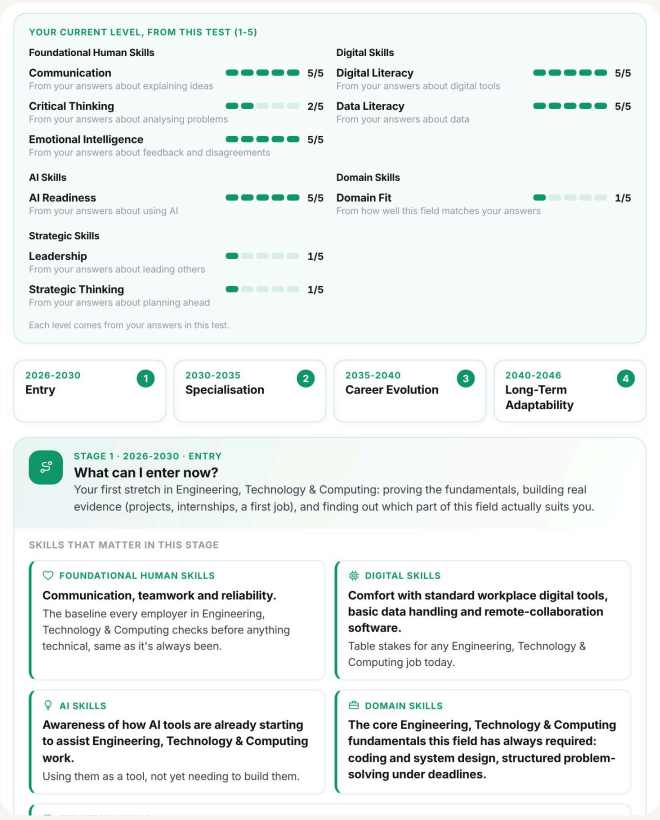
The Career Selector's realistic path includes

- Career overview and horizons
- Three-year learning roadmap
- Technical skills to master
- Portfolio projects
- Skill-gap assessment
- Internship strategy
- Entry-level job titles
- Employer skill matrix
- Certifications and short courses
- Higher education options
- Specialisations and progression
- Target profile by graduation

UNDERGRADUATE EDITION

Know your gaps. See 20 years ahead.





Your skill gap: your level for each skill (1–5) next to what jobs in your area usually need.

Reading the skill gap

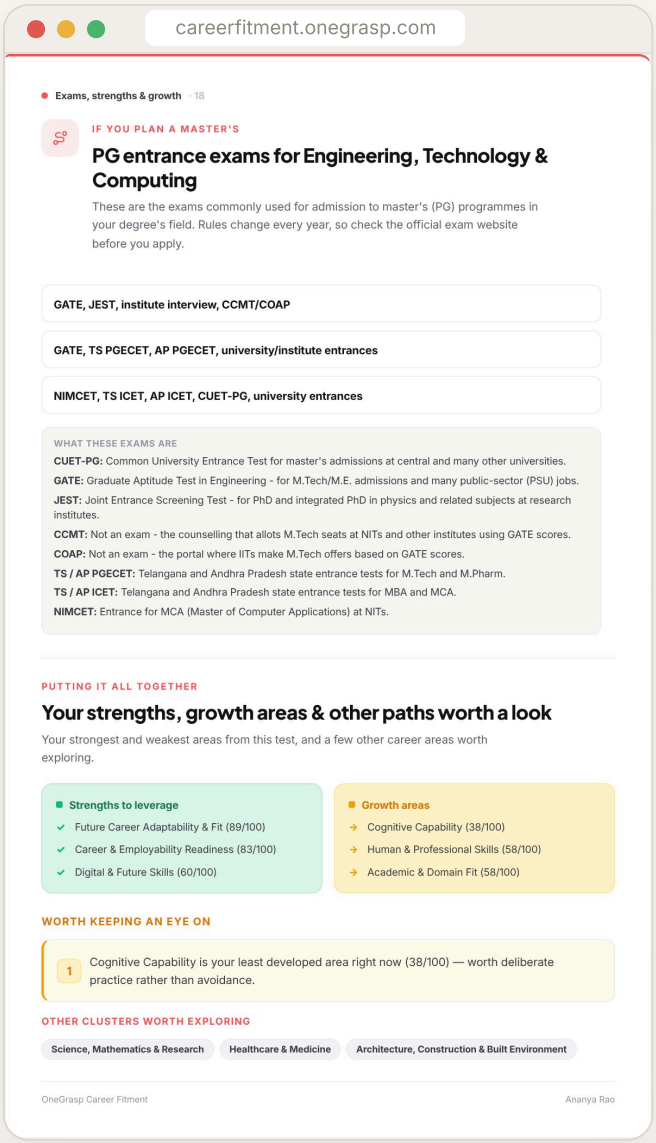
Mark	Meaning	Do this
Ready	At the level jobs need	Show proof of it
Almost there	A little practice closes it	One course or project
Needs work	Your clear focus	Make it this year's goal

Your 2026–2046 career horizon

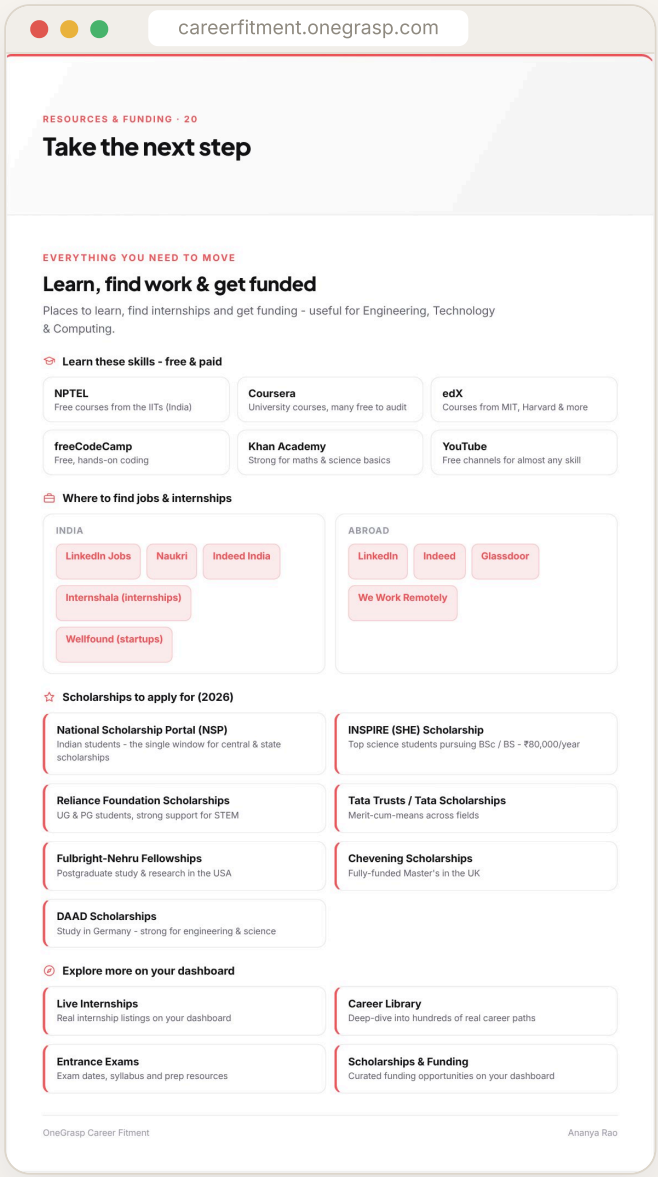
Four stages (entry, specialisation, evolution and long-term adaptability) with the skills that matter at each. It shows how your field is likely to change over 20 years, so you can plan to keep up.

UNDERGRADUATE EDITION

Plan your next step with real facts.



PG entrance exams for your field, with what each one is for.



Take the next step: learn, find work and get funded.

THIS IS A MAP, NOT A VERDICT

Your profile shows where you will thrive today, but you are still growing. Revisit your report as you change, and share it with someone who is guiding you.

READING GUIDE

How to read your report in 20 minutes.

Read your report in this order the first time. Have a pen and the action plan on page 2 of this guide ready.

1. **Start with “At a glance” (2 min)**
   The scorecard shows your real result in each dimension. Notice the two or three that stand out.

2. **Read your personality type and interest code (4 min)**
   These two explain most of the rest. Ask: does this sound like me?

3. **Look at your best-fit fields (4 min)**
   Note the top 3 and their fit %. Read why each was matched.

4. **Compare with your own choice (3 min)**
   “Your choice vs your result” or the Career Selector shows how your dream career fits. A gap is not a no; it is a plan to build.

5. **Read strengths and growth areas (3 min)**
   Pick one strength to use and one area to practise this month.

6. **Read the roadmap and next steps (4 min)**
   Circle the very first step. That is your homework for this week.

Then share it: read the parents' page together and talk through the questions in Part 8 of this handbook.

READING GUIDE

What the scores and labels mean.

Dimension scores (0–100)

Score	Label	Read it as
75–100	Very High	A clear, strong preference or ability
65–74	High	A real strength
50–64	Medium	Balanced; you can go either way
35–49	Developing	Not your first instinct; can grow
0–34	Emerging	Early days; a place to practise

A **typical-student marker** shows where most students at your stage score, so you can see whether you are well above, about, or below typical.

Fit % and match labels

Fit	Label	What to do
65% +	Strong match	Explore deeply; test-drive it
45–64%	Good match	Keep on the list; try a task
below 45%	Worth exploring	Read about it; stay curious

Fit % compares your whole profile with what a career field rewards. It is not a probability of success.

Three rules for reading any score

Higher isn't always better

In Personality, Learning Style and Motivators a score shows a preference, not quality. A 50 means balanced, not average.

Look at patterns, not one number

The best careers sit where several dimensions agree: interests, strengths and aptitude.

Only Aptitude has right answers

And even Aptitude improves with regular, timed practice.

READING GUIDE

Personality types and interest codes, decoded.

Your four-letter type

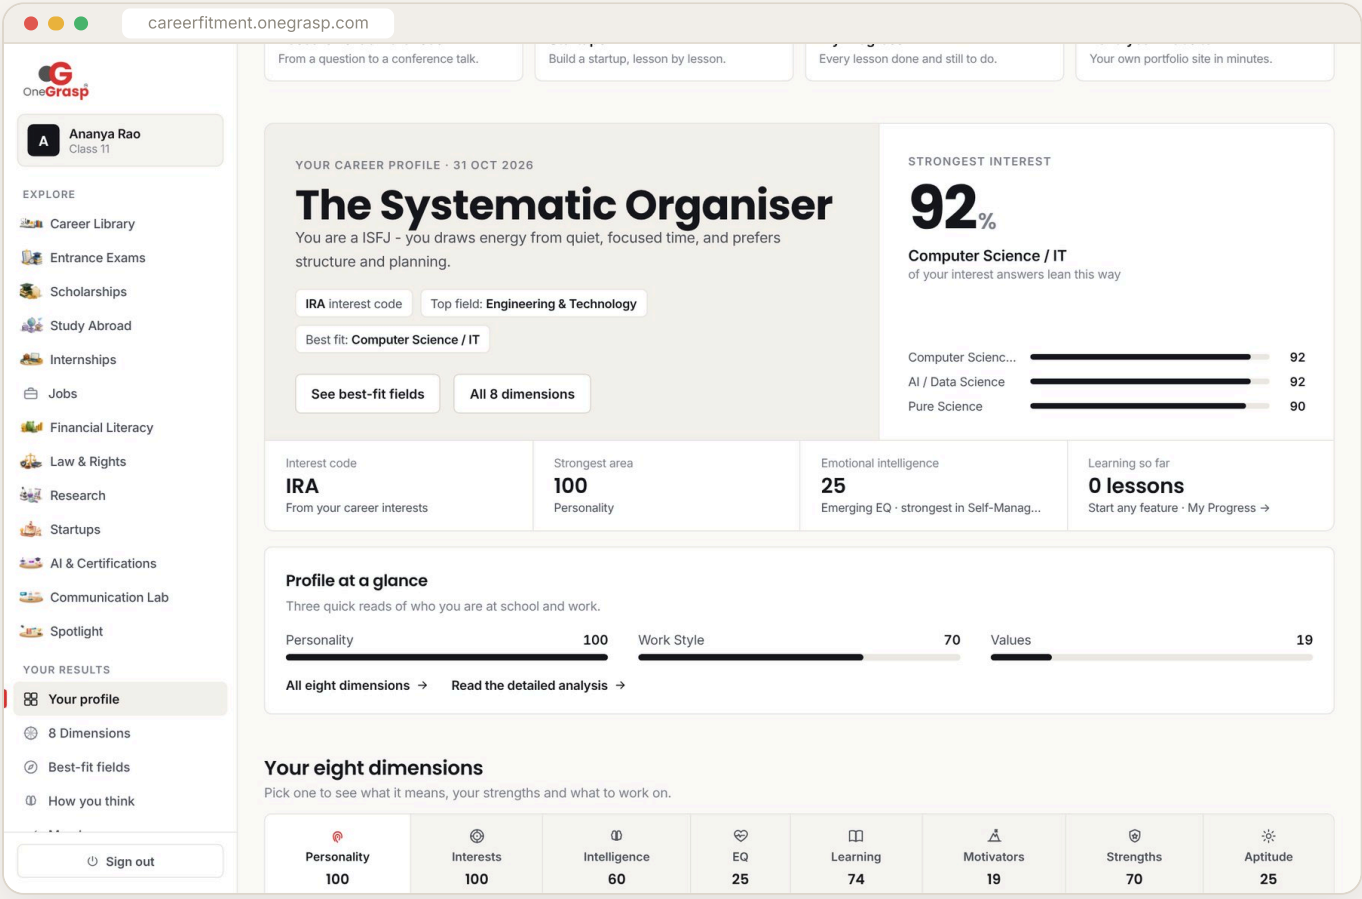
Letter	Means	Opposite
E	Extravert: energy from people	I: Introvert, energy from quiet
S	Sensing: facts and details	N: Intuition, patterns and ideas
T	Thinking: logic first	F: Feeling, values and people first
J	Judging: likes a plan	P: Perceiving, keeps options open

Example: **ISFJ, "The Defender"** is quiet, practical, caring and organised. **ENFP, "The Campaigner"** is outgoing, imaginative, warm and flexible.

Your three-letter interest code

Letter	Theme	Archetype
R	Realistic: doing	The Hands-On Builder
I	Investigative: thinking	The Analytical Investigator
A	Artistic: creating	The Creative Originator
S	Social: helping	The Helper
E	Enterprising: leading	The Persuader
C	Conventional: organising	The Organiser

Example: **IRA** = Investigative first, then Realistic, then Artistic. The first letter matters most.



In the dashboard, "Your profile" shows your type, interest code, top field and fit at a glance.

READING GUIDE

Turn your report into a 90-day plan.

Fill this in with your report open. Keep it on your desk, or photograph it and pin it to your phone.

My report in one line

My type is _____ · my interest code is _____

My top 3 fields

One strength to use

One area to grow

When	Goal	Dashboard tool I'll use	Done
Days 1–30	Explore: read 5 careers from my top field	Career Library, Test-Drive	☐
			☐
Days 31–60	Do: one small task or course	Internships, AI & Certifications	☐
			☐
Days 61–90	Build: one project or proof	Portfolio, Career Passport	☐
			☐

Tip: the dashboard's **My plan** page and weekly **Career GPS** missions turn this sheet into ticked-off tasks (see Part 5).

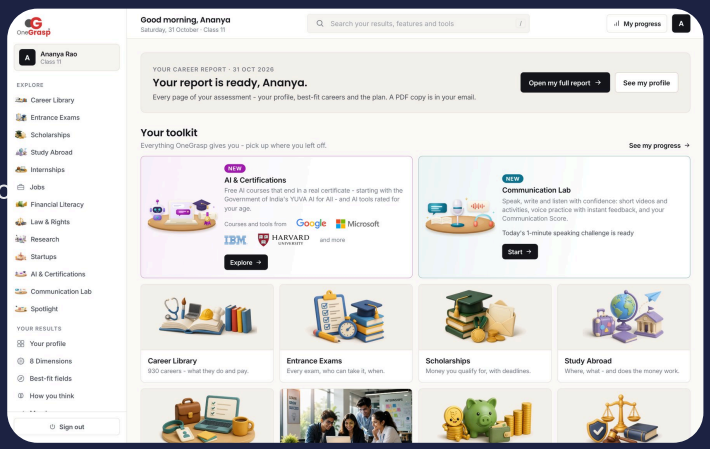
PART 05

Your Dashboard

One login opens every tool. How to find your way around, what is inside each tool, how it works, and the tasks to complete.

IN THIS PART

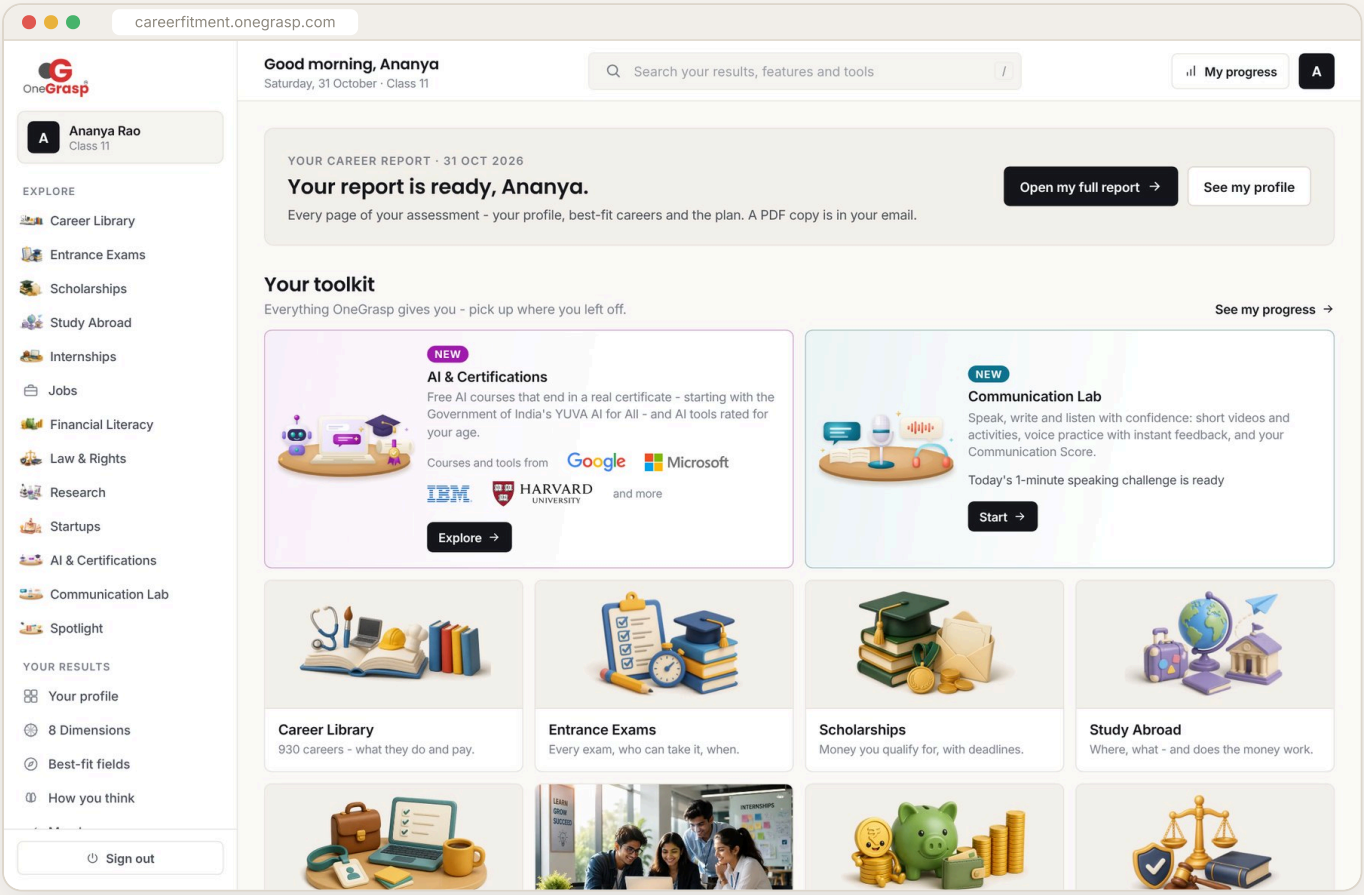
1. Signing in and the home screen
2. Finding your way around
3. Your results pages
4. Explore: careers, exams, scholarships, study abroad
5. Get experience: internships and jobs
6. Life skills: money and law
7. Build and prove: research, startups, AI, communicatio
   Spotlight
8. Create: resume, interview, portfolio, passport
9. Track: GPS, progress, certificates
10. Tasks to complete, and a quick map



DASHBOARD HOME

Your report becomes a dashboard you use.

Sign in at careerfitment.onegrasp.com with your email and password. You land on the dashboard home: your report at the top, your toolkit below.



The home screen: “Your report is ready”, then Your toolkit, with every tool as a card.

FIND IT careerfitment.onegrasp.com › Sign in › Dashboard

On the home screen

- **Open my full report**: every page of your report, with Download.
- **See my profile**: your results at a glance.
- **Your toolkit**: one card per tool. New tools are marked NEW.
- **My progress** (top right): everything you've done.
- **Search** (press /): find any result, tool or page.

Three things that are always true

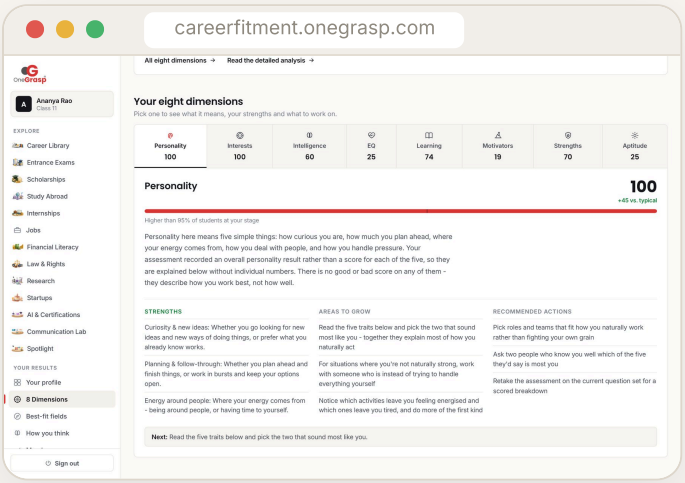
- **One login.** Every tool, one place.
- **Always saved.** Pick up where you left off.
- **Linked to your report.** Tools show you what fits your results first.

Good to know: forgot your password? Use “Forgot password” on the sign-in page to get a reset link by email. Nobody, including OneGrasp, can see your password.

NAVIGATION

Finding your way around.

The menu on the left stays on every screen. It is grouped so you always know where a tool lives. On a phone, tap Menu.



The left menu: Explore, Your results, Track and Create.

Group	What's in it
Explore	Career Library, Entrance Exams, Scholarships, Study Abroad, Internships, Jobs, Financial Literacy, Law & Rights, Research, Startups, AI & Certifications, Communication Lab, Spotlight
Your results	Your profile, 8 Dimensions, Best-fit fields, How you think, My plan
Track	My Progress, Certificates
Create	Resume & Interview, Build your website

Inside every tool, the same pattern

1. **A breadcrumb at the top**
   Dashboard › Tool › Page. Click any part to go back.

2. **Tabs across the top**
   For example Scholarships has Overview, Find, All scholarships, Track and prepare.

3. **A first-visit tour**
   A short tour explains the tool the first time you open it. Skip it any time.

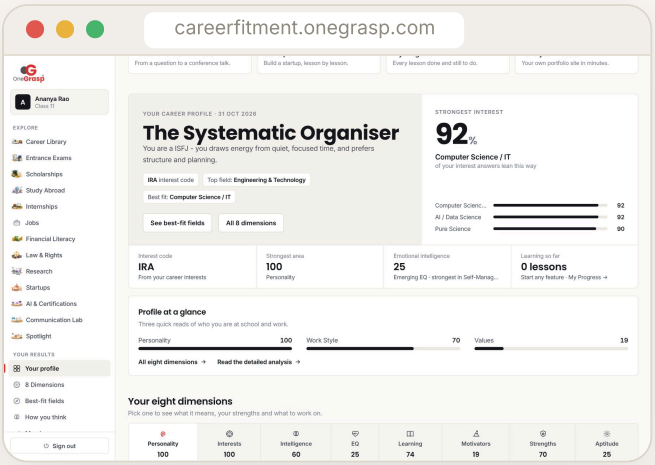
4. **“Start here” cards**
   The four most useful things to do first in that tool.

5. **Back to Dashboard**
   Always one click away, top right.

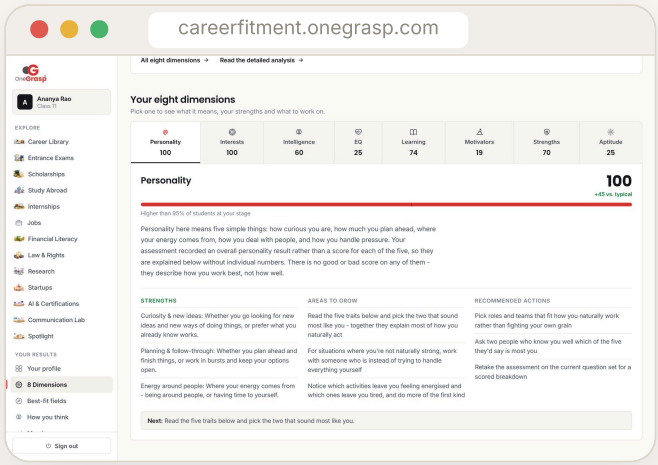
YOUR RESULTS

Your profile and your 8 dimensions.

The Your results pages are your report, made interactive. Open them from the left menu.



Your profile: your type and title (here, “The Systematic Organiser”), strongest interest, profile at a glance.



8 Dimensions: tap a dimension to see your score, what it means, strengths, areas to grow and actions.

Your profile

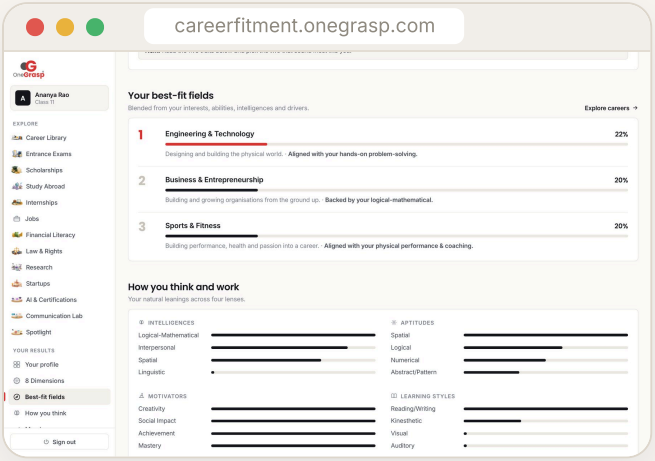
Your title, personality type, interest code, top field, emotional intelligence and learning style in one view, plus a profile at a glance (personality, work style, values).

8 Dimensions

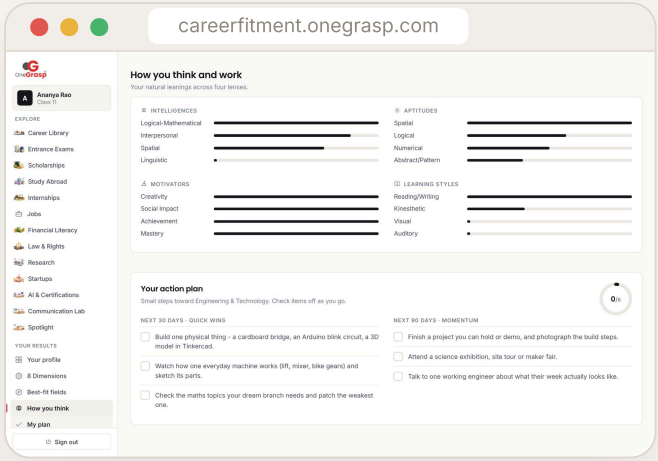
A tab for each dimension with your score against a typical student, a plain-words explanation, strengths, areas to grow and recommended actions.

YOUR RESULTS

Best-fit fields, how you think, and your plan.



Best-fit fields: your top fields with a fit % and why each one matched you.



My plan: next 30 days (quick wins) and next 90 days (momentum), with tick boxes.

Best-fit fields

Your top career fields ranked, with fit % and the reason (for example “aligned with your hands-on problem-solving”). Tap “Explore careers” to open them in the Career Library.

How you think

Your intelligences, aptitudes, motivators and learning styles as bars, side by side, so you can see your thinking style at a glance.

My plan

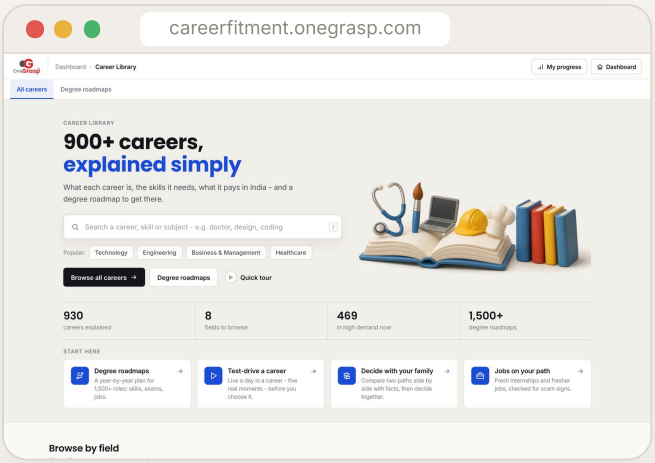
Small steps for your top field: next 30 days (quick wins) and next 90 days (momentum). Tick each item off. The ring shows how much of the plan you've done.

Task: complete at least the three “next 30 days” items in My plan this month. They are chosen for your top field.

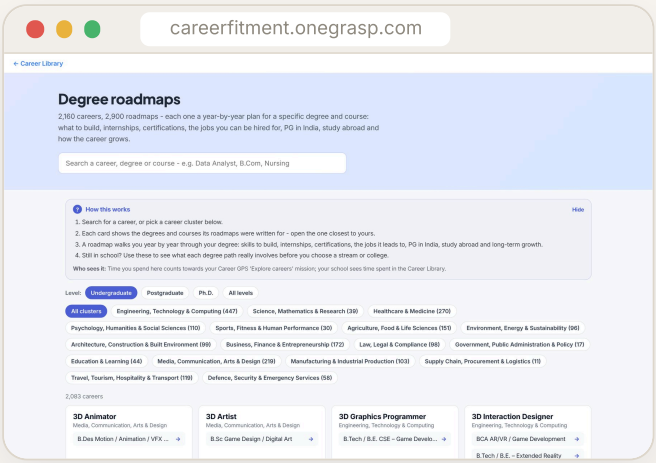
EXPLORE · CAREER LIBRARY

930 careers, explained simply.

What each career is, the skills it needs, what it pays in India, and a degree roadmap to get there.



Search any career by job title, keyword or domain, or browse 8 fields.



Degree roadmaps: a year-by-year plan for 1,500+ roles.

FIND IT Dashboard menu › Career Library

930	8	2,500+
careers explained	fields to browse	degree roadmaps

1 Search or browse
Type a job, skill or subject (doctor, design, coding), or pick a field from technology to trades.

2 Open a career
Read what the job is, skills, salary range and demand, and how to get in.

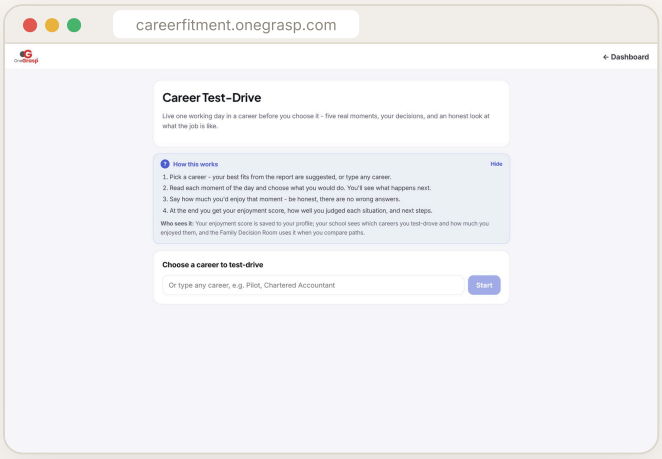
3 Open its degree roadmap
Year by year: skills, internships, exams and first jobs for your exact degree.

Good to know: a roadmap is a guide, not a guarantee. Entry routes and requirements change, so confirm them with the college or employer.

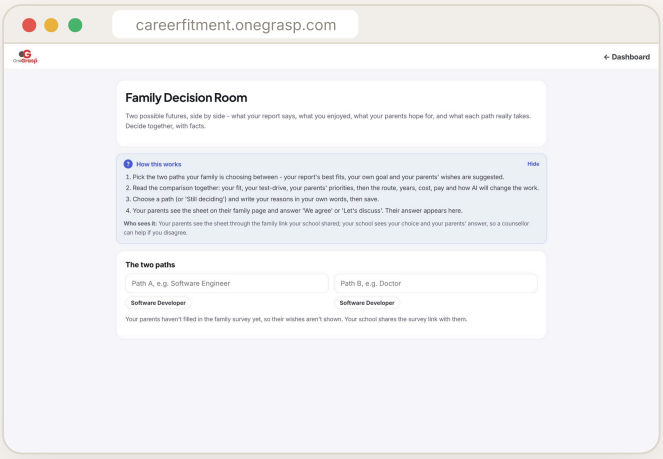
EXPLORE · TRY BEFORE YOU CHOOSE

Test-drive a career. Decide as a family.

Two tools that turn reading into real experience and calm conversations.



Career Test-Drive: live one working day in a career, in five moments.



Family Decision Room: compare two paths side by side, then decide together.

FIND IT Career Library › Test-drive a career · Decide with your family

Career Test-Drive

1. **Pick a career**
   Any career you are curious about.
2. **Live five moments**
   Real situations from a working day.
3. **Choose what you'd do**
   See what happens.
4. **Rate each moment**
   How much would you enjoy it?
5. **Get an honest summary**
   Likes, honest downsides, facts, and something to try this month.

Family Decision Room

Put two paths side by side (for example B.Tech CSE vs B.Sc Data Science) and compare them with facts: fit with your report, cost, time, exams, jobs and risks.

Each family member adds their view. The page ends with a decision and a first step, so the conversation ends with action, not an argument.

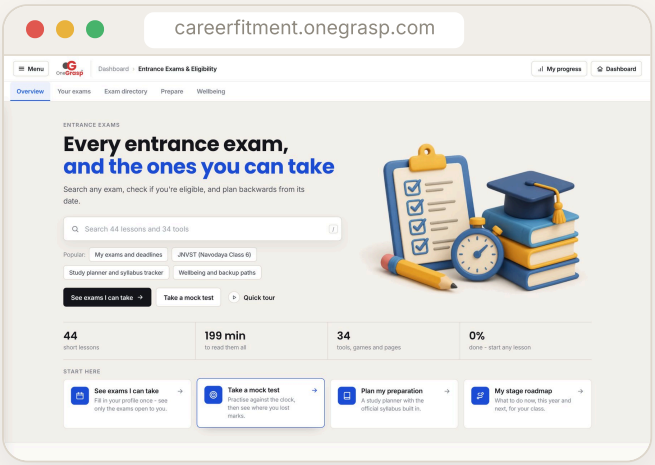
> **Tip:** use it with the parents' questions in Part 8.

> **Good to know:** Test-Drive is exploration, not commitment. It is written with AI from OneGrasp's career information, and real days vary.

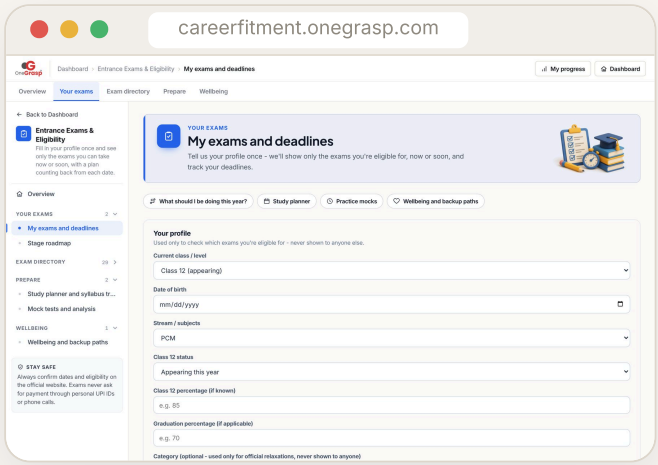
EXPLORE · ENTRANCE EXAMS

Every entrance exam, and the ones you can take.

Search any exam, check if you're eligible, and plan backwards from its date.



Entrance Exams home: search, see what you can take, plan and practise.



My exams and deadlines: fill in your profile once, see only exams open to you.

FIND IT Dashboard menu › Entrance Exams › Your exams

29
exams in the directory

44
short lessons

34
tools and planners

Exams in the directory

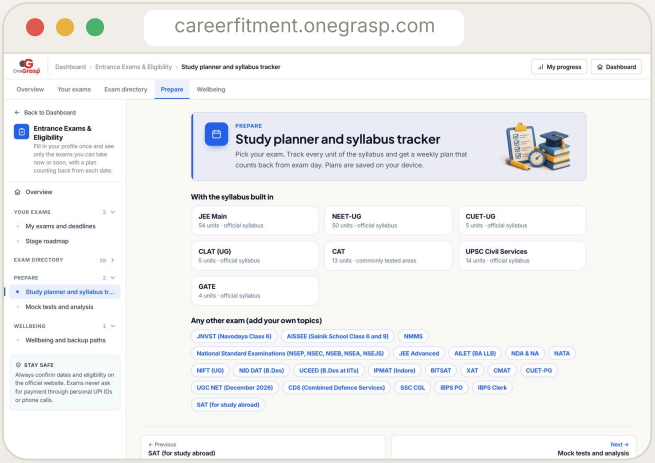
JNVST (Navodaya, Class 6) · AISSEE (Sainik School) · NMMS · National Standard Exams (NSEP, NSEC, NSEB, NSEA, NSEJS) · JEE Main · JEE Advanced · NEET-UG · CUET-UG · CLAT · AILET · NDA & NA · NATA · NIFT · NID DAT · UCEED · IPMAT · BITSAT · GATE · CAT · XAT · CMAT · CUET-PG · UGC NET · UPSC Civil Services · CDS · SSC CGL · IBPS PO · IBPS Clerk · SAT

Good to know: eligibility and dates change. Always check the official exam website, linked from every exam page.

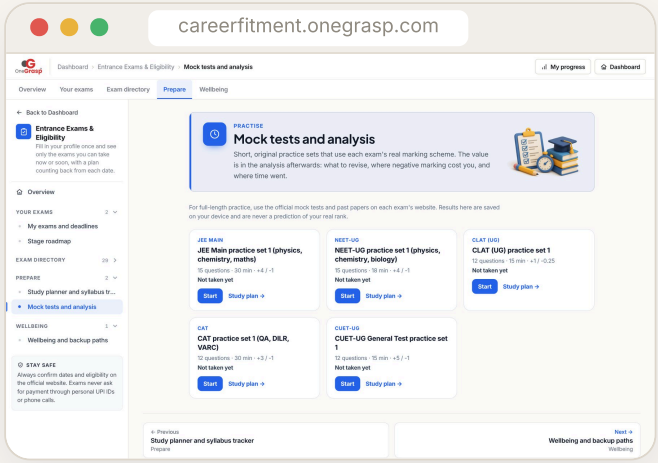
EXPLORE · ENTRANCE EXAMS

Plan, practise and stay well.

Four tools take you from “which exam?” to exam day.



Study planner and syllabus tracker: a week-by-week plan with the syllabus built in for seven major exams.



Mock tests and analysis: practise with each exam's real marking scheme.

FIND IT Entrance Exams › Prepare › Planner · Mocks · Roadmap · Wellbeing

Study planner

Pick an exam and date. Get a week-by-week plan and tick off syllabus topics as you finish them.

Mock tests

Short practice sets with the real marking scheme, then a clear view of what to revise.

Stage roadmap

What to do now, this year and next, for your class (Class 6 to college).

Wellbeing and backup paths

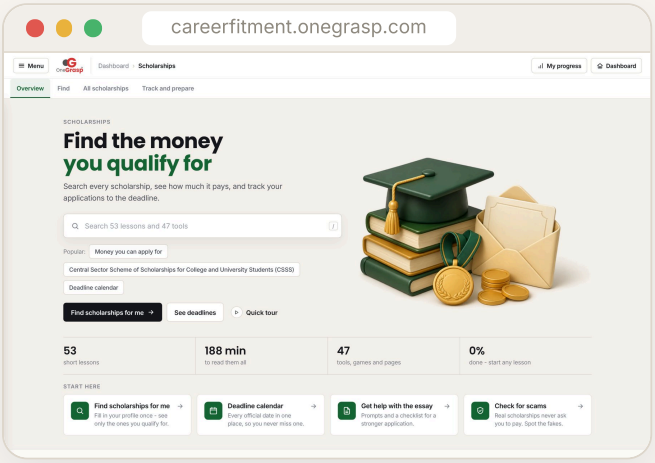
Plan the next step without pressure: stress support, and good options if an exam doesn't go your way.

Good to know: practice results are never a prediction of your real rank.

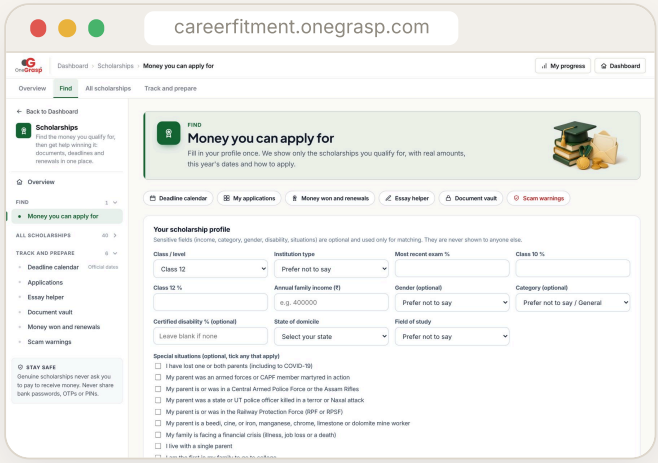
EXPLORE · SCHOLARSHIPS

Find the money you qualify for.

Search every scholarship, see how much it pays, and track your applications to the deadline.



Scholarships home: find, track and prepare.



Money you can apply for: fill in your profile once and see only what you qualify for.

FIND IT Dashboard menu › Scholarships › Find

40
scholarships listed

53
short lessons in 6 modules

47
tools and trackers

Some of the schemes listed

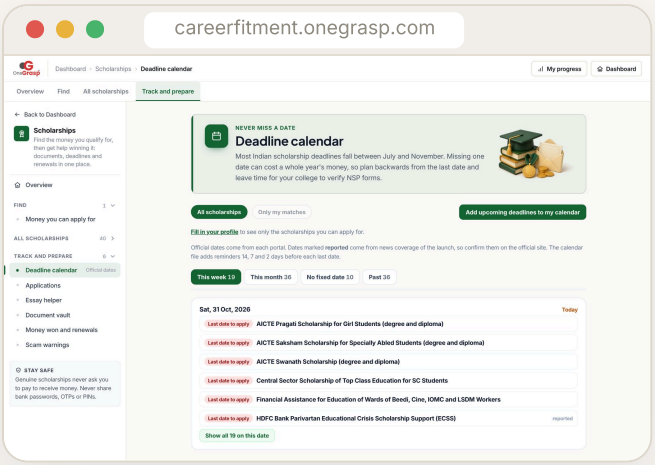
Central Sector Scheme (CSSS) · INSPIRE-SHE · NMMSS · AICTE Pragati, Saksham and Swanath · PM YASASVI · Post-Matric SC / ST / disability · Reliance Foundation UG and PG · Kotak Kanya · Tata Capital Pankh · SBI Asha · HDFC Parivartan · L'Oréal Women in Science · Santoor · ICAR National Talent · Ishan Uday · PM Scholarship (CAPF, RPF, police) · Chevening · Commonwealth · DAAD · Erasmus Mundus · Fulbright-Nehru · J N Tata · K C Mahindra · Inlaks

Good to know: genuine scholarships never ask you to pay to receive money. Never share bank passwords, OTPs or PINs.

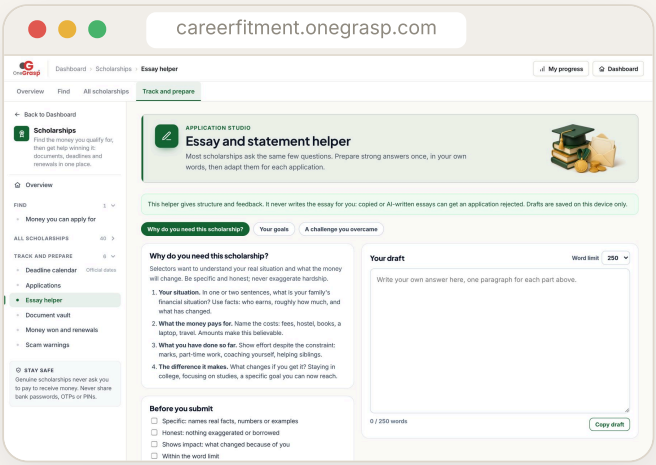
EXPLORE · SCHOLARSHIPS

Track it. Win it. Keep it.

Finding a scholarship is half the job. These tools help you apply on time and win.



Deadline calendar: every official date in one place.



Essay and statement helper: prompts and a checklist.

FIND IT Scholarships › Track and prepare

Deadline calendar

Official dates, with reminders, so you never miss one.

My applications

Track each application from “planning” to “won”.

Essay helper

Prompts, structure and a checklist for a stronger statement.

Document vault

Upload certificates and ID once; reuse them for every form.

Scam check

How to spot fake scholarships and what to report.

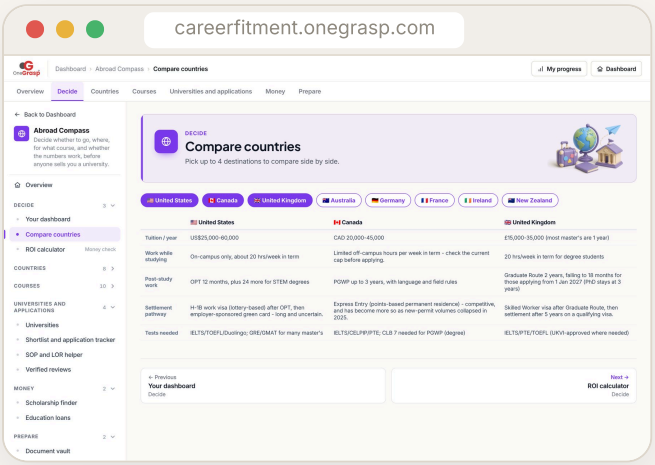
Money won and renewals

Record what you've won and the renewal rules to keep it.

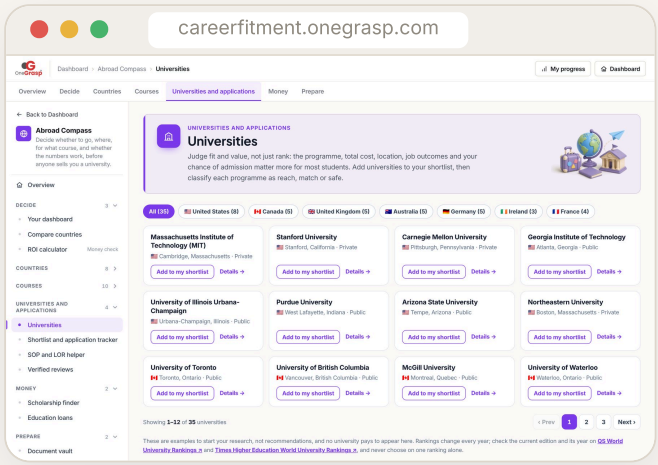
EXPLORE · STUDY ABROAD (ABROAD COMPASS)

Study abroad, one decision at a time.

Decide whether to go, where and for what, and check the money works before anyone sells you a university.



Compare up to four countries side by side: real costs, work rights, what's next.



Universities: browse by country and shortlist each as reach, match or safe.

FIND IT Dashboard menu › Study Abroad

6	30	29	8
clear steps to decide	short lessons	tools and checks	countries compared

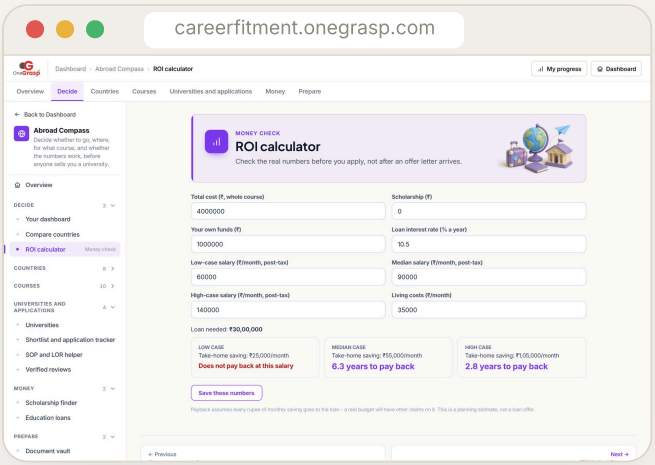
1	2	3	4	5	6
Decide	Country	Course	Universities	Money	Prepare

Countries: United States, Canada, United Kingdom, Australia, Germany, France, Ireland and New Zealand.

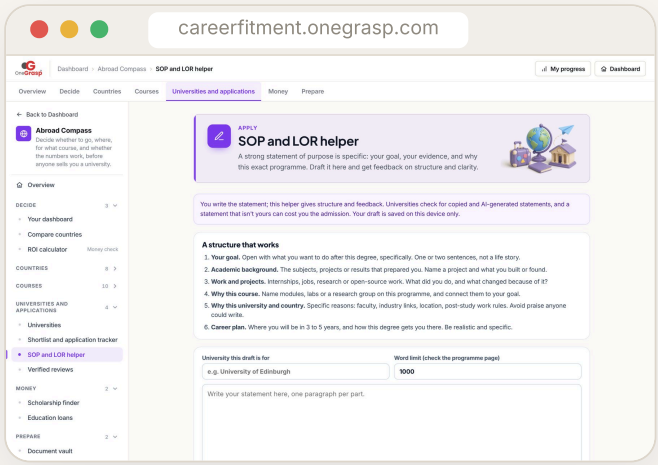
EXPLORE · STUDY ABROAD

Make the money work, then prepare.

Two tools save families from costly surprises; four more get the application right.



ROI calculator: cost, loan and expected salary give the years to pay back.



SOP and LOR helper: a structure that works, section by section.

FIND IT Study Abroad › Money · Prepare

ROI calculator

Enter cost, loan and expected salary. See how many years it takes to pay back.

Education loans

Secured vs unsecured, interest, and how repayment works.

Scholarship finder

Study-abroad scholarships for Indian students, by country and level.

SOP and LOR helper

Write a statement of purpose that sounds like you.

Agent and offer safety

Checks to run before you pay anyone. MBBS abroad: India's NMC rules.

Document vault and applications

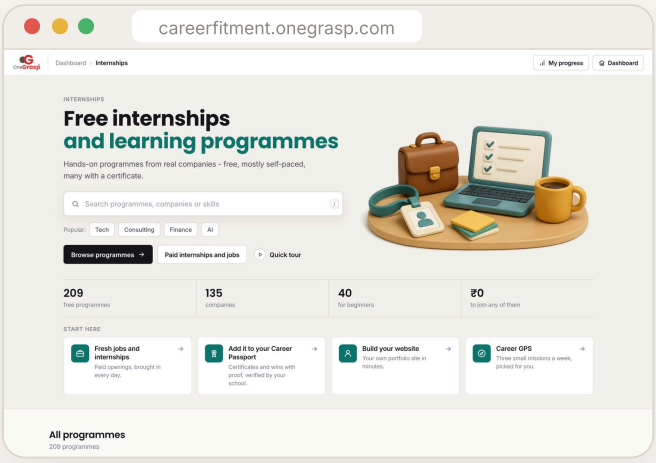
Passport, transcripts and letters once; track every application.

Good to know: the calculator gives a planning estimate, not a loan offer. A real budget will have other costs too.

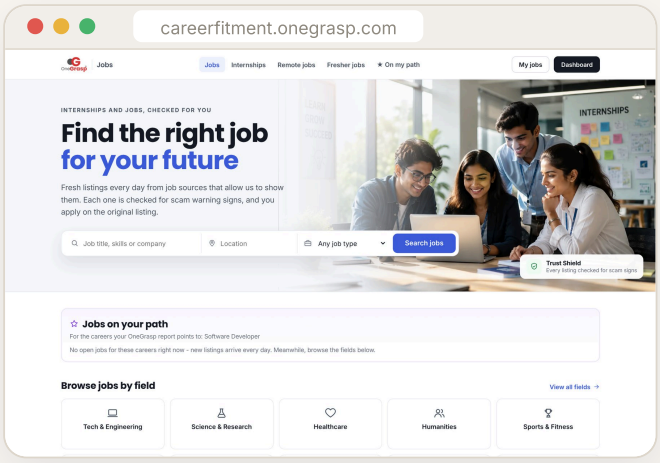
GET EXPERIENCE

Free internships and fresh jobs.

Employers look for proof. Free programmes from real companies, and checked job listings, help you build it.



Internships: 209 free programmes from 135 companies, filtered by level and field.



Jobs: fresh listings every day, checked for scam signs.

FIND IT Dashboard menu › Internships · Jobs

Internships

209 free programmes

135 companies

₹0 to join any

- Beginner, intermediate and advanced levels
- Filter by tech, consulting, finance, AI and more
- Each card shows level, time needed and top skills
- Many end with a certificate for your CV

Jobs

Daily fresh listings

10 fields

4 tabs

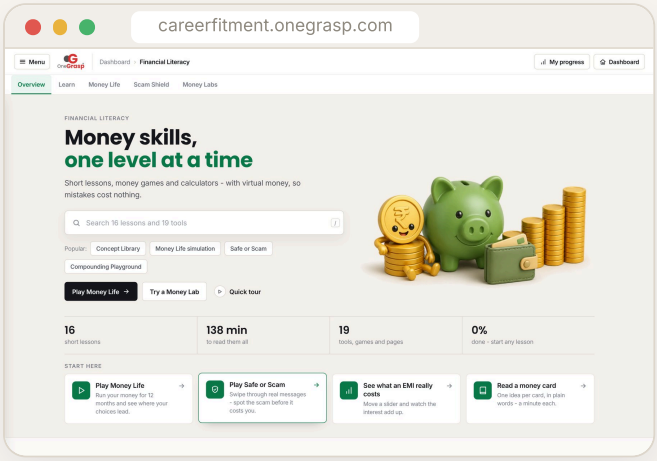
- Trust Shield: every listing checked for scam warning signs
- Internships and fresher-friendly jobs first
- Jobs for your best-fit careers show up for you
- You apply on the original listing

Good to know: fake job offers target freshers. A real employer never asks you to pay for a job, training kit or “security deposit”.

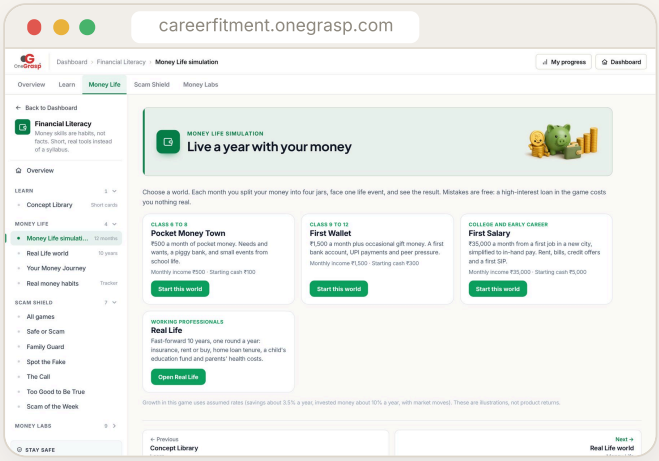
LIFE SKILLS · FINANCIAL LITERACY

Money skills, one level at a time.

Short lessons, money games and calculators, with virtual money so mistakes cost nothing.



Financial Literacy home: the level path, games and labs.



Money Life: run your money for 12 months, or fast-forward ten years.

FIND IT Dashboard menu › Financial Literacy

6	16	19
levels	lessons	tools

Climb the level path

Money basics, salary and taxes, banking and payments, saving and growing, borrowing and credit. Tick a lesson off and the next level opens.

Play Money Life

Split each month's money into needs, wants, savings and growth, and watch your money score change.

Money Labs

Compounding Playground, Inflation Time Machine, EMI Truth Teller, Credit Card Minimum-Due Trap, Save vs Grow, Salary Slip Decoder, Goal Planner, Rent vs Buy.

Cards, habits and journey

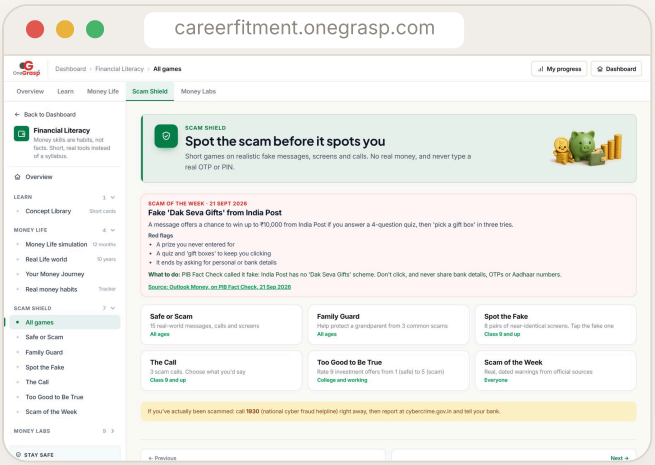
One idea per card, a habit tracker for what you really spend, and your money journey.

Good to know: the simulation uses virtual money only. Financial Age is a fun estimate, not a measurement.

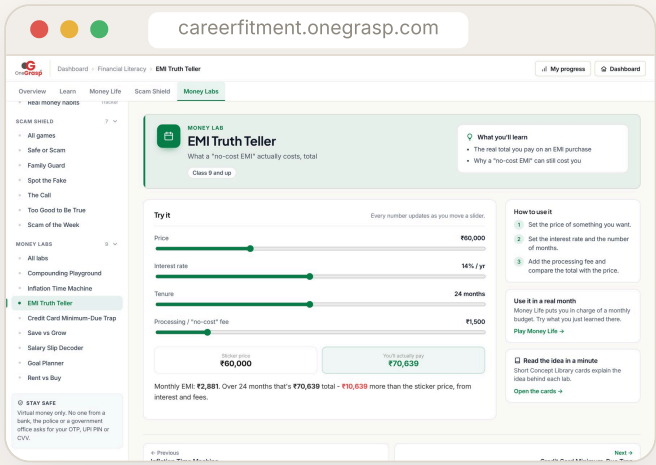
LIFE SKILLS · SCAM SHIELD AND LABS

Spot a scam before it costs you.

Real, recent scams and quick games that train you to spot fakes, plus calculators that show what money decisions really cost.



Scam Shield: a real scam each week with its red flags, and six game modes.



EMI Truth Teller: move a slider and watch the interest add up.

FIND IT Financial Literacy › Scam Shield · Money Labs

Six Scam Shield modes

- Spot the Fake: fake messages and links
- Safe or Scam: swipe through real requests
- Too Good to Be True: deals and offers
- The Call: bank-security and "digital arrest" calls
- Scam of the Week
- Family Guard: protect parents and grandparents

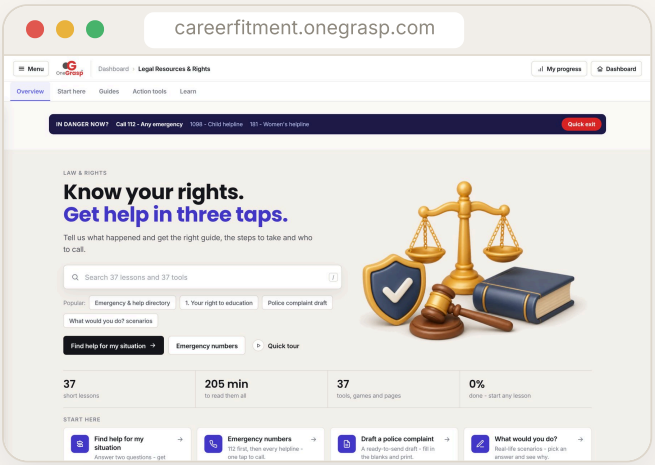
Four rules to remember

- **Think before you click.** Don't rush.
- **Check** with the official source or website.
- **Never share** your OTP, PIN or passwords.
- **Report** fraud on **1930** or cybercrime.gov.in.

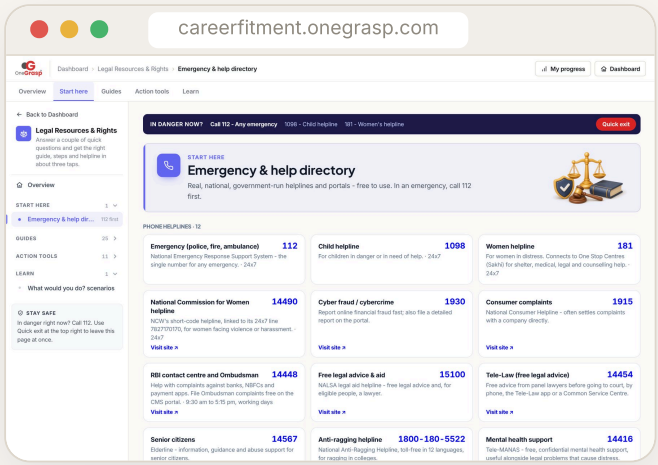
LIFE SKILLS · LAW & RIGHTS

Know your rights. Get help in three taps.

Answer two quick questions and get the right guide, the steps to take and the helpline to call.



Law & Rights: start with what happened.



Emergency and help directory: 112 first, then every helpline one tap away.

FIND IT Dashboard menu › Law & Rights

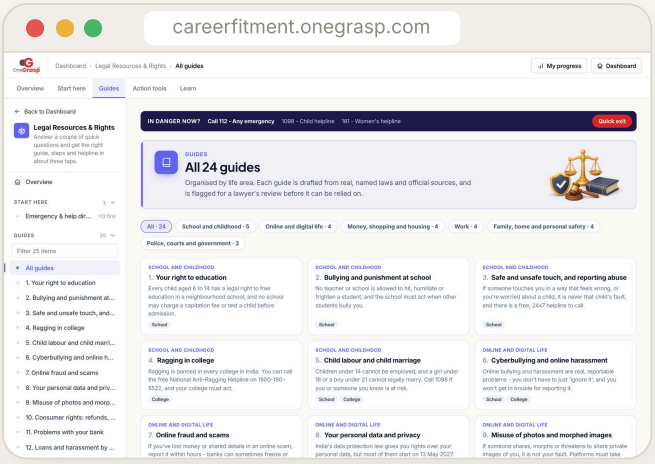
Helpline	Number	Helpline	Number
Emergency (police, fire, ambulance)	**112**	Cyber fraud	**1930**
Child helpline	**1098**	Consumer complaints	**1915**
Women helpline	**181**	RBI contact centre	**14448**
National Commission for Women	**14490**	Free legal aid	**15100**
Anti-ragging	**1800-180-5522**	Tele-Law	**14454**
Mental health support (Tele-MANAS)	**14416**	Senior citizens	**14567**

Good to know: in an emergency, call 112 first. The guides explain your rights in simple words; they do not replace a lawyer. A quick-exit button hides the page on shared devices.

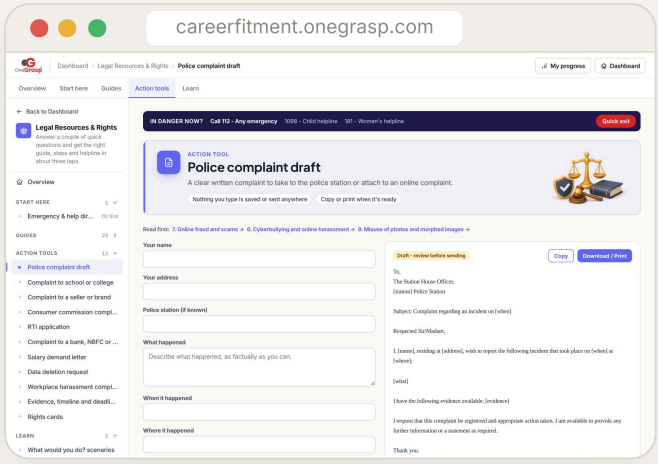
LIFE SKILLS · LAW & RIGHTS

Guides, letters and rights cards.

Plain-word guides for real problems, ready-to-send letters, and cards to keep on your phone.



All 24 guides, grouped by situation.



Police complaint draft: fill in the blanks and print.

FIND IT Law & Rights › Guides · Action tools · Learn

The 24 guides

Right to education · Bullying and punishment at school · Safe and unsafe touch · Ragging in college · Child labour and child marriage · Cyberbullying · Online fraud and scams · Personal data and privacy · Morphed images · Consumer rights · Problems with your bank · Loan recovery harassment · Renting a home · Your first job · Sexual harassment at work · Unpaid salary · Internships, freelance and gig work · Domestic violence · Safety in public places · Senior citizens · Rights of persons with disabilities · Police, FIR and arrest · Right to Information (RTI) · Free legal aid and courts

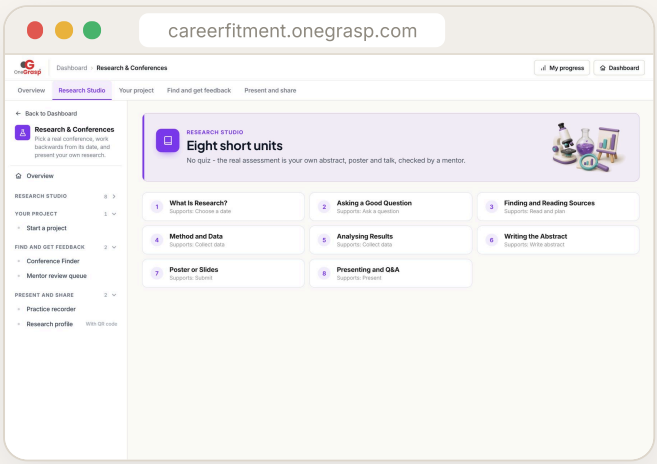
Action tools

- Police complaint and RTI drafts
- Evidence log with legal deadlines
- Rights cards for your phone
- "What would you do?" real-life scenarios
- 37 short lessons

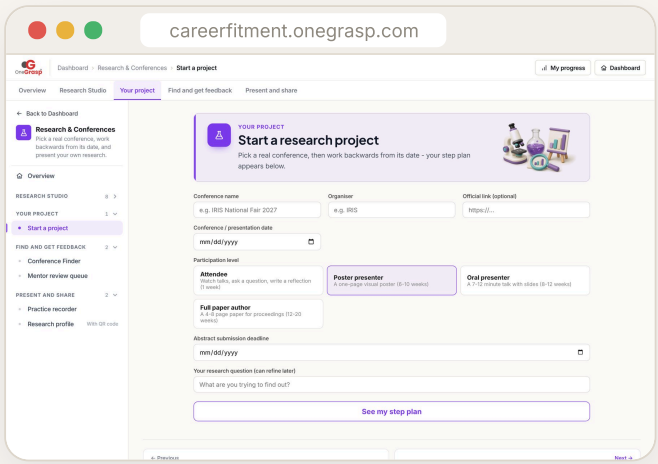
BUILD AND PROVE · RESEARCH

From a good question to your first conference talk.

Learn how research works, plan a project around a real conference, and practise presenting it.



Research Studio: eight short units.



Start a project: choose your level, plan backwards from a real conference date.

FIND IT Dashboard home › Career Toolkit › Research

8	14	13	5
studio units	lessons	tools	participation levels

The 8 studio units

1. What Is Research?
2. Asking a Good Question
3. Finding and Reading Sources
4. Method and Data
5. Analysing Results
6. Writing the Abstract
7. Poster or Slides
8. Presenting and Q&A

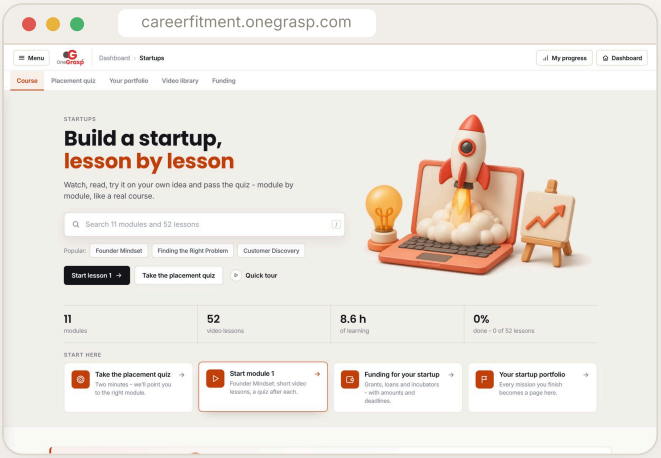
Tools

- Conference finder: student conferences in India and worldwide
- Mentor check: 7 items scored 1–4 before an abstract goes forward
- Practice recorder: 3- or 10-minute takes; recordings stay on your device
- Research profile: a public page with a QR code

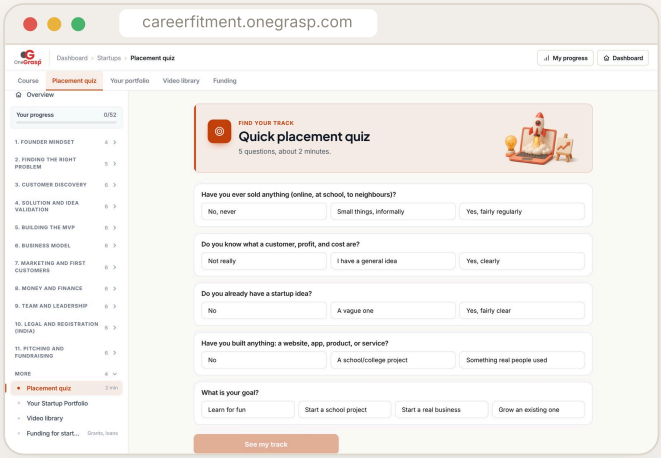
BUILD AND PROVE · STARTUPS

Build a startup, lesson by lesson.

Watch, read, try each idea on your own project and take the quiz. You finish with a startup idea you have shaped yourself.



Startups: the Builder track, with progress saved.



The 2-minute placement quiz points you to the right module.

FIND IT Dashboard home › Career Toolkit › Startups

11	52	311
modules	video lessons	funding programmes

The 11 modules

1. Founder Mindset
2. Finding the Right Problem
3. Customer Discovery
4. Solution and Idea Validation
5. Building the MVP
6. Business Model
7. Marketing and First Customers
8. Money and Finance
9. Team and Leadership
10. Legal and Registration (India)
11. Pitching and Fundraising

How it works

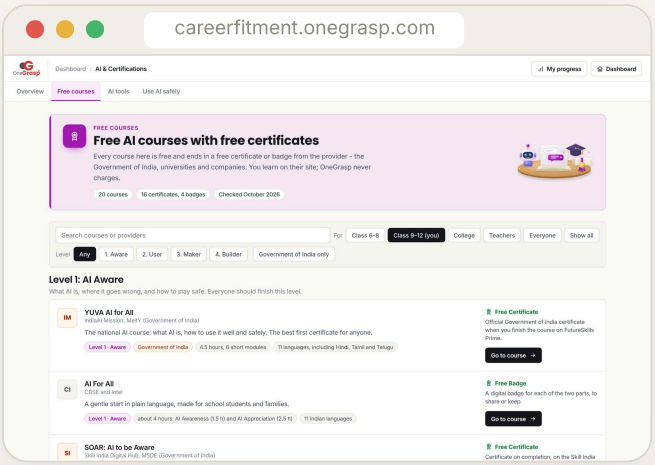
- Each lesson: a short video, a short read and a task on your own idea
- Pass a lesson's quiz to unlock the next
- Each module ends with a short test
- Every module's mission becomes a page of your Startup Portfolio
- A video library of talks from founders
- Funding: grants, loans and incubators (Part 6)

Good to know: learning from failure is part of the course. Module 10 covers legal and registration basics for starting up in India.

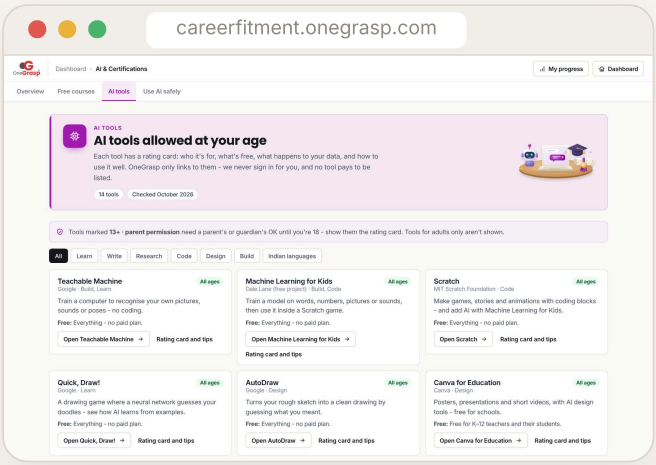
BUILD AND PROVE · AI & CERTIFICATIONS

Learn AI for free, get certified.

Free AI courses that end in a real certificate, and AI tools rated for safety and age, picked for your class.



Free certificate courses, by level.



AI tools allowed at your age, each with a rating card.

FIND IT Dashboard menu › AI & Certifications

Four levels

Level	You learn
AI Aware	What AI is, where it goes wrong, staying safe (everyone starts here)
AI User	Using AI tools well for study and work
AI Maker	Making things with AI: no-code and Python
AI Builder	Machine learning and building with AI APIs

Courses and tools include

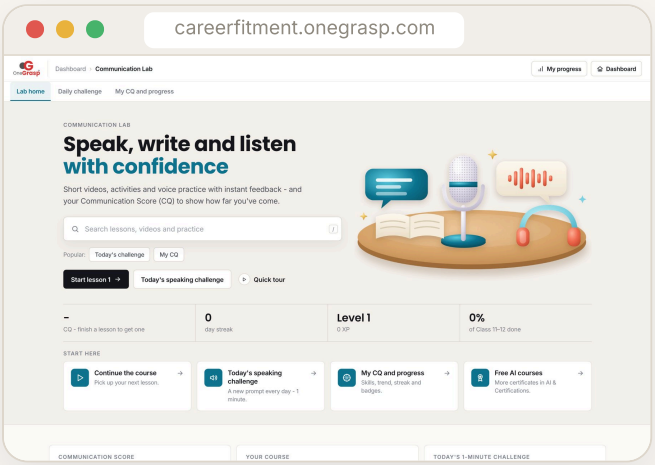
YUVA AI for All (Government of India) · AI For All · Elements of AI · Google's Introduction to Generative AI · AI Fluency · Kaggle Python, Intro to ML and Deep Learning · Harvard CS50 AI · IBM ML with Python · Hugging Face AI Agents · Building with the Claude API · Teachable Machine · Scratch · Bhashini · Google Colab · Gemini · ChatGPT · Copilot · Claude

Good to know: AI tools are shown only if they are allowed at your age. Read “Use AI safely”: five rules, schoolwork honesty, deepfakes and scams.

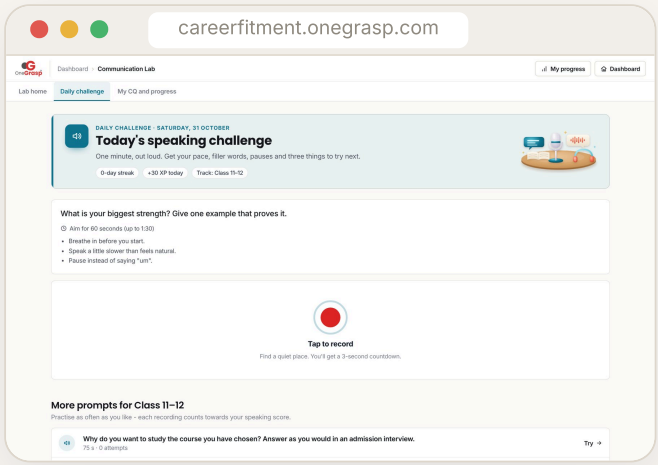
BUILD AND PROVE · COMMUNICATION LAB

Speak, write and listen with confidence.

Short videos, activities and voice practice with instant feedback, and your Communication Score (CQ) to show how far you've come.



Communication Lab: a course for your class, module by module.



Today's speaking challenge: a new prompt every day, one minute, out loud.

FIND IT Dashboard menu › Communication Lab

A track for your class

Class 6–8, 9–10, 11–12 or college. Modules open one after another, week by week: introductions, words that work, professional communication, pitch-ready and more.

Practise out loud

Record yourself and get feedback in seconds: your pace, filler words, pauses and three things to try next.

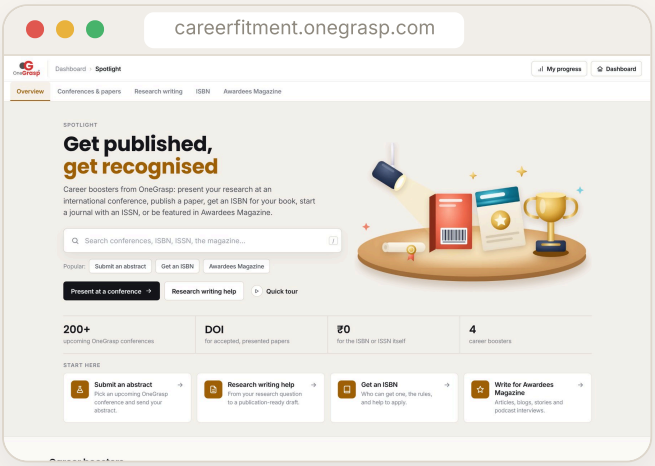
Your CQ

Speaking, writing, listening and reading roll into one Communication Score, with streaks, XP and badges.

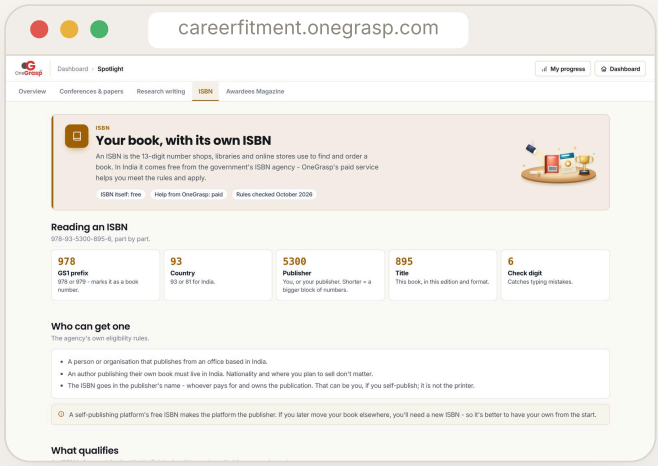
BUILD AND PROVE · SPOTLIGHT

Get published, get recognised.

Career boosters from OneGrasp: present research at an international conference, publish a paper, get an ISBN for your book, start a journal with an ISSN, or be featured in Awardees Magazine.



Spotlight home: five career boosters.



Your book, with its own ISBN: the official rules in plain words.

FIND IT Dashboard menu › Spotlight

Submit an abstract

Pick an upcoming OneGrasp international conference and send your abstract (Part 7).

Research writing help

From your research question to a publication-ready draft.

Get an ISBN

Who can get one, the rules, and help to apply.

Start a journal (ISSN)

What a journal needs before it can apply.

Awardees Magazine

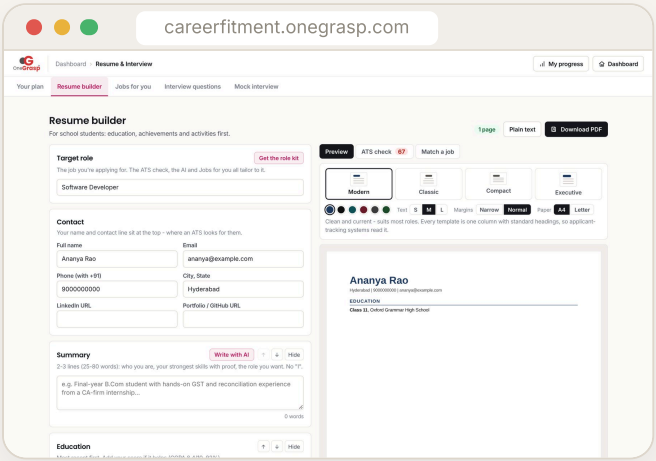
Articles, blogs, stories and podcast interviews.

Good to know: Spotlight services are paid, but asking is free. Send a request and the OneGrasp team replies with the fee and next steps. Nothing is charged in the dashboard.

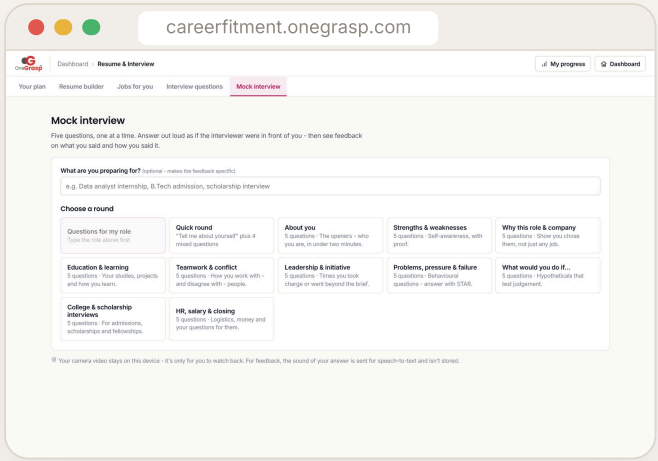
CREATE · RESUME & INTERVIEW

From your resume to your first offer.

Build an ATS-friendly resume with AI help for your role, apply to jobs that fit with a tailored cover letter, and practise interviews out loud.



Resume builder: the role kit and AI help, with a live preview and PDF download.



Mock interview: choose a type, answer out loud, get feedback.

FIND IT Dashboard menu › Resume & Interview › My job plan

1 Pick a target role
Your job plan starts here; each step updates as you go.

2 Build the resume
The role kit shows what employers ask for; AI writes bullets from your own words and checks it like an ATS.

3 See jobs that fit
Live jobs matched to your resume with a fit score and the skills you're missing.

4 Write a cover letter
Tailored to each job in one click.

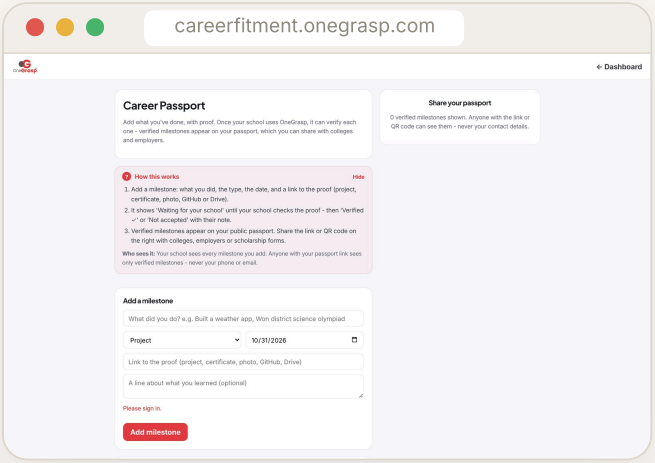
5 Practise interviews
The 100 most common questions with model answers, questions for your role, and mock interviews.

6 Get the offer
Track applications to the finish.

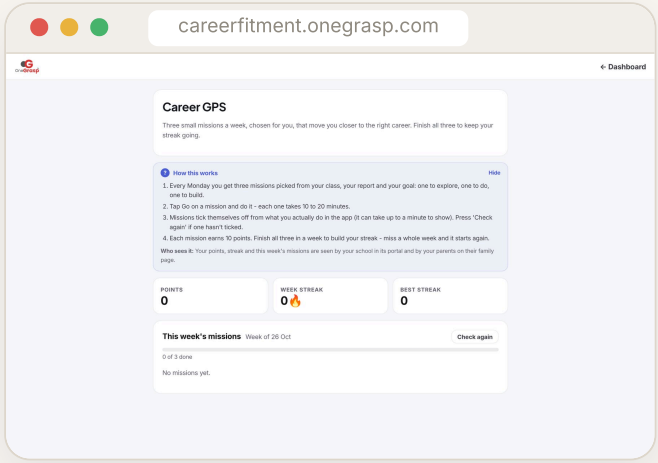
CREATE AND TRACK

Your website, your passport, your weekly GPS.

Three tools that turn what you do into proof you can share.



Career Passport: add projects and wins with proof; your school verifies them.



Career GPS: three short missions every week, picked for you.

Build your website

A professional portfolio page you build tab by tab: summary, experience, education, certifications and skills. You decide what is public and share it with Copy Link only when you are ready.

Career Passport

Add projects, certificates and wins with proof. Your school verifies them, and you share one QR-checkable record with colleges and employers.

Career GPS

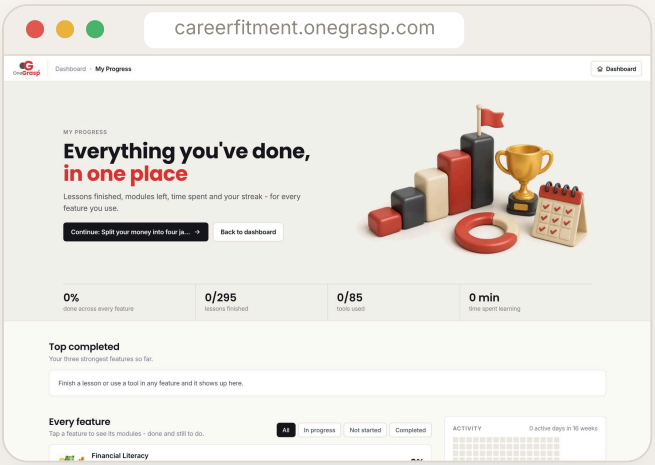
Every Monday: three missions (explore a career, try a small task, build something), 10–20 minutes each. +10 points per mission. Do all three to keep your streak. Parents see the week's progress; schools see points and streaks.

Good to know: add only what is true and what you can show proof for. A short, honest profile works better than a long one.

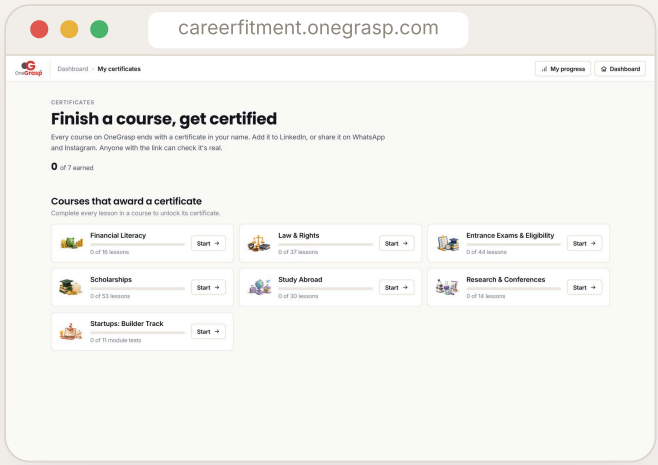
TRACK

Everything you've done, in one place.

Lessons finished, modules left, time spent and your streak, for every feature you use. Plus certificates you can share.



My Progress: lessons done, time spent, your streak, and one tap to continue.



Certificates: finish a course, get a certificate with your name.

What My Progress shows

- Lessons done and still to do, per feature
- Your day streak and activity calendar
- Time spent on each feature
- One tap to continue where you stopped

How to earn a certificate

- Finish every lesson of a OneGrasp course (for example all 37 Law & Rights lessons, or the 11 Startup modules)
- Your certificate carries your name, class and course
- Share it on LinkedIn or with friends and family
- Each certificate has an ID anyone can verify

For schools: if you joined through your school, it can see this progress too, so help arrives at the right time. It never sees your answers.

YOUR TASKS

What to complete, tool by tool.

Every tool has a few core tasks. Complete them in this order and you will have used the whole dashboard within one term.

Week	Tool	Task to complete	How you know it's done
1	Your results	Read Your profile and all 8 Dimensions	You can explain your type and code
1	My plan	Tick the three “next 30 days” items	The plan ring moves
2	Career Library	Read 5 careers in your top field; open one roadmap	Saved in your history
2	Career Test-Drive	Live a day in your top career	You get a day summary
3	Entrance Exams	Fill your profile; follow 2 exams; make a plan	Deadlines appear in My exams
3	Scholarships	Fill your profile; add 3 to My applications	Calendar shows the deadlines
4	Financial Literacy	Finish Level 1; play Money Life once	Level 2 unlocks
4	Scam Shield	Play Safe or Scam and Spot the Fake	Your score is saved
5	Law & Rights	Answer “what happened?” once; save rights cards	Progress shows lessons read
5	AI & Certifications	Finish AI Aware; start one free course	A certificate or badge
6	Communication Lab	Do 5 daily speaking challenges	Your CQ and streak appear
7	Internships	Start one free programme at your level	Provider certificate
8	Research or Startups	Finish studio unit 1 or startup module 1	Quiz passed; next unlocks
9	Resume & Portfolio	Build your resume; publish your website	PDF downloaded; link copied
10	Career Passport	Add 2 achievements with proof	School verifies them
Every week	Career GPS	Complete all three missions	Streak and +30 points

How lessons work everywhere: open a lesson, watch or read, do the activity, pass the quiz. The next lesson unlocks. Finish a course to unlock its certificate.

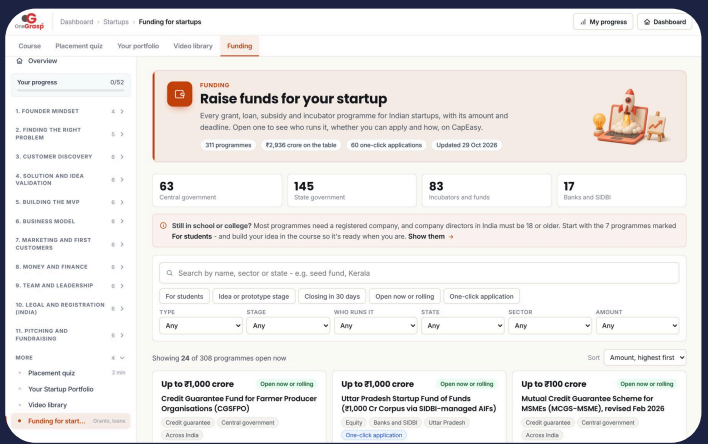
PART 06

Startups & Funding

OneGrasp's startup programmes, and every grant, loan, subsidy, equity and credit-guarantee programme in the dashboard's Funding directory.

IN THIS PART

1. Spot, Build, Pitch: OneGrasp startup programmes
2. How to use the Funding directory
3. Central government programmes
4. Banks and SIDBI
5. Incubators and funds
6. State government programmes



ENTREPRENEURSHIP

Entrepreneurship is best learned by doing.

Most students meet entrepreneurship as a subject: a chapter, a guest lecture, a case study. OneGrasp's startup programmes give them a structured occasion to take one real problem, build a first answer and defend it in front of people who ask hard questions.

01
SPOT
Observe, investigate and define a real problem.

02
BUILD
Develop a prototype or a structured business solution.

03
PITCH
Present the idea, answer questions and plan the next steps.

From problem to pitch: what students actually do

1. Meet a real-world problem
2. Find out who lives with it
3. Build and test a first solution
4. Shape a simple business model
5. Present it and answer questions

In the lecture hall

Learning about business: a chapter on business models, a guest lecture, a case study.

In the programme

Building and testing an idea: a real problem chosen by the team, a first solution people can handle, a panel that asks hard questions.

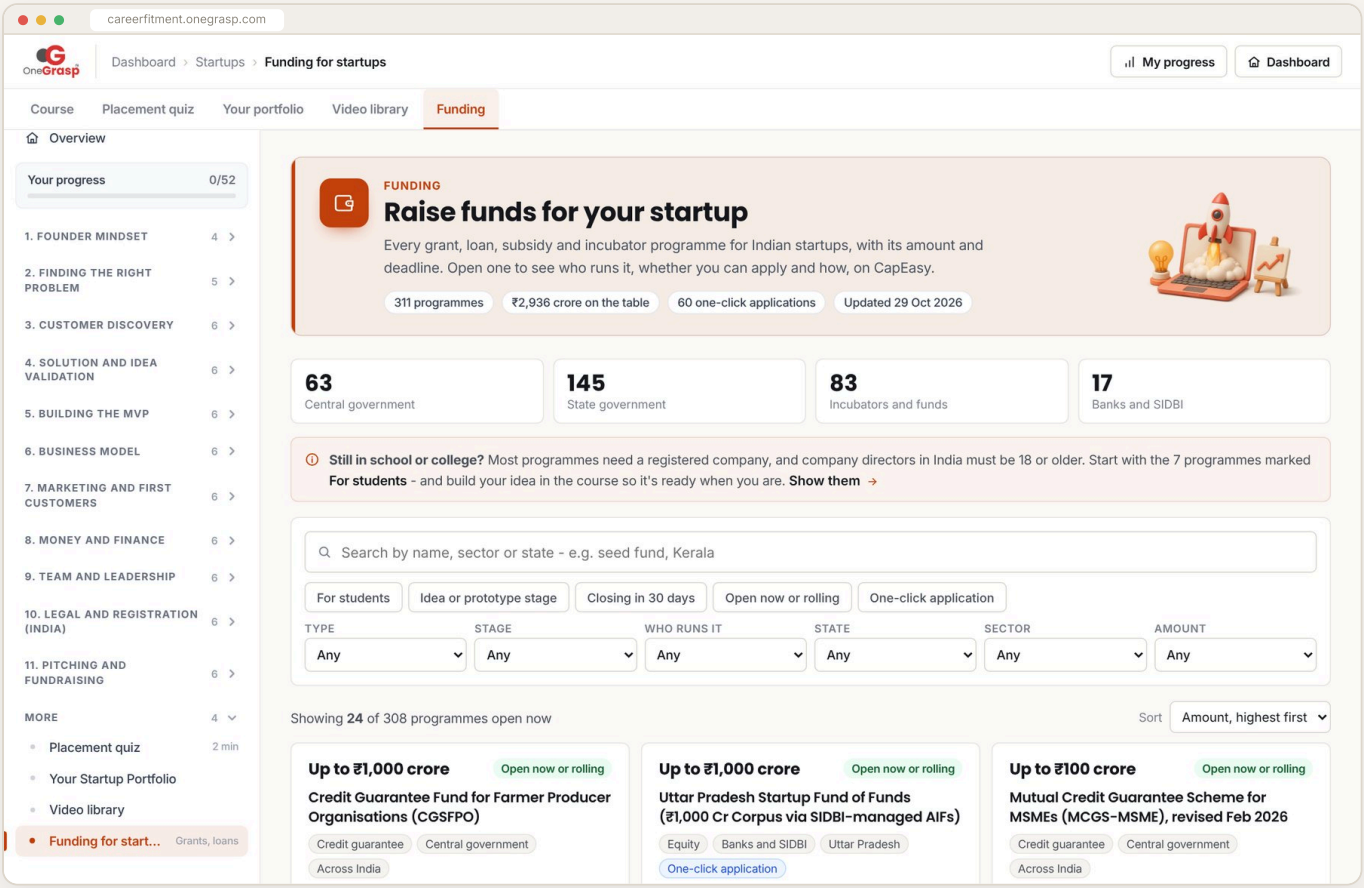
FOR UNIVERSITIES

OneGrasp designs the cohort with the institution and delivers it on campus. A short, well-run programme gives an institution a repeatable way to offer this experience. Talk to us at support@onegrasp.com.

FUNDING DIRECTORY

Money to start your startup.

The dashboard's Funding directory lists every grant, loan, subsidy, equity and credit-guarantee programme for Indian startups from CapEasy's scheme directory (CapEasy is OneGrasp's own company). The next pages list all 311 programmes as of 2026-10-29.



Startups › Funding: filter by stage, amount, type, state and sector; sort by deadline or amount.

311 programmes

₹2,936 cr on offer in total

65 central government

145 state government

84 incubators and funds

17 banks and SIDBI

1 Filter for students
Tick “For students” or pick the Idea, Proof of concept or Prototype stage.

2 Pick your state and sector
State schemes only fund startups registered in that state.

3 Open the programme
Each one opens its CapEasy page with details, eligibility and how to apply.

4 Check the deadline
“Open now or rolling” or a date. Plan back from it.

Reading the listing

Type	What it is
Grant	Money you don't repay
Subsidy	Part of a cost paid back to you
Loan	Money you repay, often at low interest
Equity	Investment for a share of the company
Guarantee	Cover that helps you get a loan

Stage shows who it's for: Idea, Proof of concept, Prototype, Early stage, Seed, Paid pilot, Early revenue, Growth, Scale.

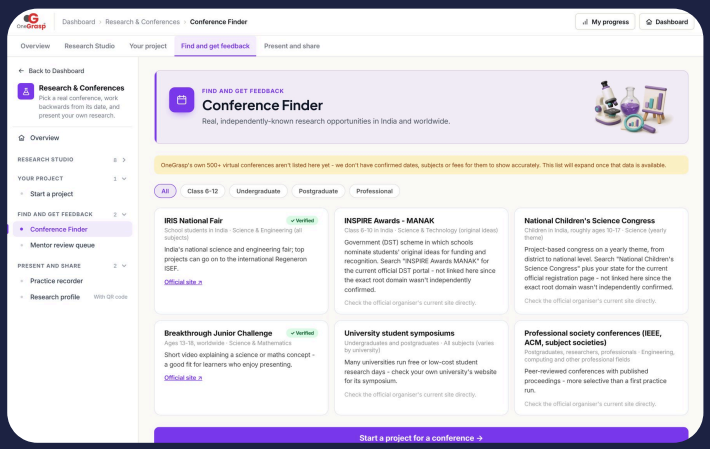
PART 07

Research & Conferences

From a student's first research question to an international stage: OneGrasp's peer-reviewed conferences and the scientific committee behind them.

IN THIS PART

1. International scientific conferences
2. The researcher journey
3. The OneGrasp Scientific Committee
4. Keynotes from leading experts



CONFERENCES

Where global research gets presented.

Present. Publish. Get recognised. Two-evening online conferences across 11 disciplines, with a DOI for every accepted abstract, CPD-accredited certificates and a 50-member international scientific committee.

500+	70+	50	11	10,000+
conferences held online	countries represented	committee members	disciplines	researchers reached

11 disciplines, one global calendar

1. Business & Economics
2. Engineering & Technology
3. Sports & Physical Education
4. Agriculture & Food Sciences
5. Interdisciplinary & Emerging
6. Social Sciences & Humanities
7. Education
8. Physical & Life Sciences
9. Health & Medical Sciences
10. Mathematics & Data Science
11. Arts, Culture & Communication

The OneGrasp conference model

Format	Live online, two evenings
Review	Committee peer review
Publication	DOI via Crossref, prefix 10.65838
Accreditation	CPD via PACE Council
Recognition	Three awards per event
Indexing	Listed in 10+ directories

Who presents at OneGrasp

Faculty and professors · PhD and research scholars · Postgraduate students · Industry professionals · Policy makers · School and college students (through the Research Studio)

Find it: the calendar and call for papers are at onegrasp.com/events. In the dashboard: Spotlight › Submit an abstract.

CONFERENCES

From research paper to global recognition.

A clear eight-step path takes every presenter from first submission to a published, indexed and certified contribution, and for the best, a future keynote.

STEP 1
Submit your abstract
Online, before the abstract deadline.

STEP 2
Committee review
Reviewed by experts in your discipline.

STEP 3
Register
Early, standard or late registration.

STEP 4
Present live
In your discipline's paper session.

STEP 5
DOI assigned
A permanent, citable link via Crossref.

STEP 6
Indexed
Listed across 10+ directories.

STEP 7
Certificate issued
CPD-accredited, with a unique, verifiable ID.

STEP 8
Keynote invitation
Strong presenters keynote future editions.

Awards at every conference

Best Paper Award
For the strongest paper in each discipline.

Young Researcher Award
Recognising early-career excellence.

Outstanding Presenter
For clarity and impact on stage.

How students get there from the dashboard

1. **Research Studio**
Eight short units teach the method, from a good question to Q&A (Part 5).

2. **Start a project**
Pick a conference first and plan backwards from its date.

3. **Mentor check**
Seven items scored 1–4 before your abstract goes forward.

4. **Spotlight**
Submit your abstract to a OneGrasp conference and get writing help.

Every certificate carries the conference edition and code, the participant's name, discipline, date and authorised signatures. Accreditation: Crossref member, DOI prefix 10.65838 (resolvable at doi.org); CPD via PACE Council.

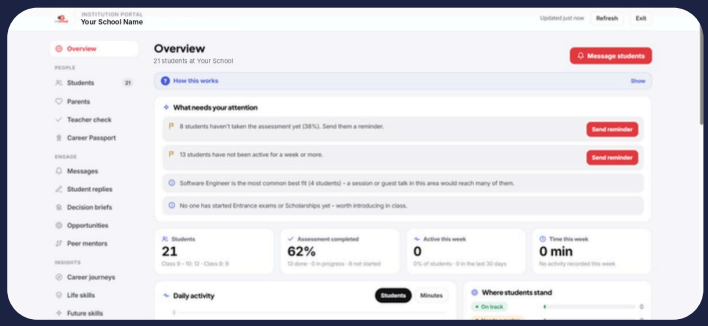
PART 08

For Parents & Schools

How families and institutions can support students with care, and what everyone gains.

IN THIS PART

1. For parents: guide, not decide
2. Questions to talk through together
3. For schools and colleges: the Institution Portal
4. What everyone gains
5. Questions, answers and a glossary



FOR PARENTS

Guide, not decide.

Your child's report is a map of who they are today. Your role is to help them read it, test it in real life and make their own choice, with your support.

Do

- ✓ Read the report together, slowly, the first time
- ✓ Start with strengths. Say them out loud.
- ✓ Ask what surprised them, and what felt true
- ✓ Help them try things: a visit, a course, a conversation with someone in the field
- ✓ Check facts together: fees, exams, deadlines
- ✓ Use the dashboard's Decision Room to compare two paths calmly
- ✓ Revisit the report every 6–12 months

Avoid

- Choosing for them because of marks, relatives or neighbours
- Treating a lower score as a failure
- Comparing with siblings or friends
- Pushing a stream or exam they have no interest in
- Paying anyone who promises a guaranteed admission, job or scholarship
- Ending the conversation with “because I said so”

What you can see

The full report

Your child can share the PDF or open it with you on their dashboard.

Weekly progress

Career GPS shows parents the week's missions and progress.

A parents' page

Every report ends with “Supporting your child”: simple ways to help, in plain words.

REMEMBER

A child who chooses a path that fits them works harder, stays longer and recovers faster from setbacks than one who was told what to do.

FOR PARENTS

Ten questions to talk through together.

Use one or two questions per conversation. Listen more than you speak.

01
Which part of the report sounds most like you?

02
Which part surprised you, and why?

03
What are your top two strengths? Where have you used them recently?

04
Which of your top fields would you like to try first, and how?

05
What would a normal working day look like in that career? (Try the Test-Drive.)

06
Which subjects or exams does that path need? Are you ready to work for them?

07
What does it cost, and which scholarships could help?

08
What is our backup plan if the first choice doesn't work out?

09
Who could you talk to who already does this work?

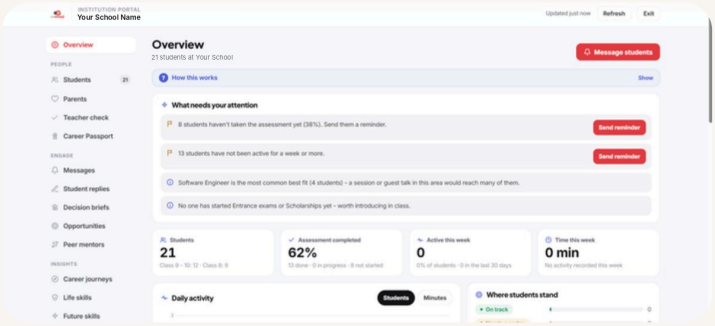
10
What is one small thing you'll do this week?

For younger children (Class 6–8): keep it light. Ask what they enjoyed in the test and which careers sounded fun. The goal is curiosity, not a decision.

FOR SCHOOLS AND COLLEGES

See every student. Nudge the ones who need it.

The Institution Portal shows a school or college its own students every day: who has taken the assessment, who is active, and who needs a reminder.



Daily tracking

Assessment status, activity and time spent for every student.

One-click reminders

Remind students who haven't started or have gone quiet.

Messages

Send updates and learning nudges. Students can reply.

Decision briefs

Short summaries that support career conversations.

Opportunities

Share useful opportunities with your students.

Insights

Career journeys, life skills and future skills at a glance.

School report

A whole-school view of results and progress.

Parents, mentors and counselling

Coordinate parents, mentors and counselling sessions.

Observations

Teachers record what they notice, alongside the data.

Career Passport

Verify students' achievements with proof.

PRIVACY

Schools only ever see their own students, and never a student's individual answers. A trust flag shows if a test looks rushed, so it can be retaken.

BENEFITS

What everyone gains.

Students

- Know yourself: type, interests, strengths
- See careers that fit, with real facts
- A clear plan: subjects, exams, degree, college
- Money: scholarships and funding you qualify for
- Skills school doesn't teach: money, law, AI, communication
- Proof: certificates, portfolio, verified passport
- Confidence to choose, and to change your mind

Parents

- A calm, shared conversation, based on evidence
- Practical questions to support better
- Visibility of weekly progress
- Honest cost checks before big spends
- Protection from scams and false promises
- A report to revisit as your child grows

Schools and colleges

- A structured guidance programme on campus
- Daily tracking and one-click reminders
- Decision briefs for counsellors
- Life skills and future skills for every student
- Privacy built in
- Better-prepared students for admissions and placements

Built for the world of work that's coming

What employers want (WEF 2025)	Where the dashboard builds it
Analytical thinking	Aptitude practice, mock tests, research projects, Money Labs
Resilience, flexibility and agility	Career GPS streaks, exam wellbeing, startup missions
Leadership and social influence	Communication Lab, startup pitching, research presentations
Creative thinking	Startup Builder, research questions, portfolio projects
Motivation and self-awareness	Your report, My plan, My Progress
AI and big data	AI & Certifications: AI Aware to AI Builder

FAQ

Questions people often ask.

How long does the test take?
You have up to 90 minutes. Answers save as you go, and you can stop and resume.

Can I fail?
No. Only the Aptitude section has right answers, and the report is never pass or fail.

Can I retake it?
Yes. Many students retake it as they move up a stage (for example Class 8, then Class 10, then Class 12).

Who sees my answers?
Only you. Schools see progress and activity, never individual answers.

Is the report accurate?
It reflects your honest answers through established frameworks. A trust check flags rushed tests.

My result doesn't match my dream career. Now what?
A gap is a plan to build, not a no. Use the Career Selector, Test-Drive and My plan.

Can I use it on a phone?
Yes: phone, tablet or laptop. A laptop is easiest for the test.

Are the salaries real?
They are indicative ranges for India, for planning. Actual pay varies.

Are the exams and scholarships up to date?
They link to official sources. Always confirm dates and eligibility there.

Do the tools cost extra?
The dashboard tools are included. Spotlight services are paid; asking is free.

I lost my password.
Use “Forgot password” on the sign-in page for a reset link.

How do I get help?
Email support@onegrasp.com or call +91 89777 60442 / 43.

Glossary

Aptitude
How quickly you can learn a field's skills; the only part with right answers.

ATS
Applicant Tracking System: software employers use to screen resumes.

Career cluster / domain
A broad family of related careers.

CPD
Continuing Professional Development credit.

CQ
Communication Score in the Communication Lab.

DOI
Digital Object Identifier: a permanent link to published work.

Fit %
How closely your profile matches what a field rewards.

ISBN / ISSN
Official numbers for a book / a journal.

MBTI-style type
A four-letter personality type, e.g. ISFJ.

RIASEC
Holland's six interest themes.

ROI
Return on investment: how long a cost takes to pay back.

SOP / LOR
Statement of purpose / letter of recommendation.

Stream
MPC, BiPC, MEC, CEC, HEC: subject groups after Class 10.

WEF
World Economic Forum.

THE VIEW FROM EVERY SEAT

Know yourself. Choose with confidence. Build your future.
